

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

RECAPITULATION.

April 1, 1905. Balance as per annual		
report	\$64,610 97	
Receipts from all		
sources	101,153 07	
	<hr/>	\$133,858 21
		<hr/>

The taxes for the year 1905 are paid on the assessed real estate, and the buildings and furniture are all assessed for the amounts as determined by the board of trustees.

All the rents due to March 31st are paid.

The corporation has no outstanding liabilities.

During the past year Mr. Andrew Reed, one of the original members of the board of trustees, died. With that exception the board of trustees remains the same as last report.

At the annual meeting, held April 19, 1906, the following officers were elected for the ensuing year:

Stevenson Taylor, President.

Wm. H. Fletcher, Vice-President.

Wm. H. Harrison, Secretary-Treasurer.

J. Irvin Chaffee, Resident Manager.

During the past year the following guests were admitted to the home.

Thomas S. Burton, May 15, 1905.

William Oldham, August 14, 1905.

John W. Guider, January 26, 1906.

Sarah M. Guider, January 26, 1906.

James Reilly, March 11, 1906.

The following deaths have occurred:

Henry Barry, May 1, 1905.

Martin J. Kearney, August 1, 1905.

Darius Davison, October 18, 1905.

Donald McCaskelly, November 21, 1905.

Mrs. Elizabeth McCaskelly withdrew from the home after the death of her husband.

Total number of inmates at last report.....	88	
Number of guests admitted to home.....	5	
Number of students admitted to academy.....	16	
		109
Loss by death of guests.....	4	
Loss by withdrawal of guests.....	1	
Loss by graduation of students.....	10	
Loss by resignation of students.....	10	
		25
Present number of inmates:		
Guests in the home.....	46	
Students in the academy.....	38	
		84

During the year necessary repairs and improvements have been made.

The Rev. Andrew M. Gray has served during the year as chaplain.

The annual commencement exercises of the academy were held on Thursday, June 8, 1905, when diplomas were awarded to a class of ten, as follows:

- Selleck Townsend Carpenter, Brooklyn, N. Y.
- Arthur W. Davis, Syracuse, N. Y.
- Ralph Betts Ferris, Stamford, Conn.
- Pierce James McAuliffe, Syracuse, N. Y.
- Joseph McDonald, New York City, N. Y.

Carl Edward Nagel, Davenport, Iowa.

Henry John O'Neill, Syracuse, N. Y.

Hugh Burton Robinson, Scranton, Pa.

Thomas Homer Yeager, Philadelphia, Pa.

Eben Young, Jr., Greenwich, Conn.

Prizes for excellence in studies during the year were awarded to:

Hugh Burton Robinson, graduating class.

Thomas Homer Yeager, graduating class.

Schuyler H. DePuy, class of 1906.

George I. Dewey, class of 1907.

During the summer vacation of eight weeks, the undergraduates were employed at the following named offices, shipyards and steamship lines.

Bath Iron Works, Bath, Me.; Fore River Ship and Engine Building Co., Quincy, Mass.; Gas Engine & Power Co., and Charles L. Seabury & Co., Consolidated, Morris Heights, New York City; Millard & Maclean, New York City; Burlee Dry Dock Co., Staten Island, N. Y.; American Steamship Lines, New York City; New York Shipbuilding Co., Camden, N. J.; The Wm. H. Cramp & Sons, Ship and Engine Building Co., Philadelphia, Pa.; Maryland Steel Co., Sparrow's Point, Md., and Newport News Ship and Engine Co., Newport News, Va.

The practical knowledge, acquired with these means is of very great value to the students when they resume their studies at the academy the succeeding year. The academy is under obligations to the above-named concerns for furnishing employment to the students and for other favors.

At the examination for admission to the academy in September, thirty-five candidates presented themselves, and of this

number sixteen were admitted. The new year began with an attendance of forty-seven, which number has been reduced to thirty-eight by resignations and dismissals.

Owing to the change from a three to a four years course, the faculty was increased by securing the services of Mr. George F. Crouch, a graduate of the academy.

Apart from the necessary change due to the lengthening of the course, there has been no important change in the curriculum from that of recent years.

The senior class has made all the calculations and working drawings for an up-to-date cargo boat; the juniors have made sheer drafts for different classes of yachts and half models of same and have also laid off on the mould loft a launch and a tug boat, besides performing the preliminary calculations necessary in designing these vessels.

Visits have been made by the students to the Brooklyn navy yard where an inspection was made of the Connecticut, while in dock; to the Burlee Dry Dock Co., where the launching of a vessel was witnessed, and aboard several vessels for practical studies. All of these visits proved of great assistance in the later work of the class room.

The institution is indebted to the following named persons for their kind remembrance of it, with gifts, during the year:

Mr. Beavor Webb, men's clothing.

Mr. William H. Bailey, men's clothing.

Hon. Joseph A. Goulden, Congressional Record, labor reports, messages and documents and U. S. patent office gazettes.

A. S. Cameron Steam Pump Works, framed pictures of various types of pumps.

Mr. Stevenson Taylor, annual report of chamber of commerce, 1904-1905; men's clothing, and shoes, and magazines.

Mr. A. Jay Cross, examination of eyes, and glasses for guests.

Mr. James R. Waite, men's clothing.

Prof. A. J. Maclean, men's clothing, hats and shoes.

Mrs. Stephen C. Hunter, periodicals.

Mr. Wm. P. Conover, Jr., calendars.

American Tract Society, copies of the "American Messenger."

Com. Charles H. Loring, Cassiers Magazine.

Lloyd's Register of Shipping, three copies of "Register of British and Foreign Shipping."

Mr. Henry W. Vogel, men's clothing.

Mr. E. E. Olcott, President Albany Day Line, two large tank models of the new Albany Day Line steamer, "Hendrick Hudson."

Mr. Gilbert S. Blakely, magazines.

All of which is respectfully submitted on behalf of the board of trustees.

STEVENSON TAYLOR,

President.

WM. H. HARRISON,

Secretary.

John M. Sittser.....	Sugar Beet Instructor.

Of the above-named employees, the following have resigned or died during the year:

Robert McAdam, Cheese Inspector, resigned to accept a position as Butter Inspector for the United States Government.

There have been two deaths in the Department of employees during the year, that of Mr. Charles Sears, of Washingtonville, N. Y., July 28, 1905, and that of Mr. Frank Wieting, of Cobleskill, N. Y., November 13, 1905.

Mr. Sears was appointed from the Civil Service eligible list as an agent, and was an able and efficient employee.

Mr. Wieting had been an employee of the Department for six years. He was appointed from the Civil Service eligible list as a veal agent, and as such the result showed him to be efficient in the work which he performed.

The work to be performed by the Department of Agriculture is provided for, and outlined, in chapter 338 of the Laws of 1893 as amended, otherwise known as chapter 33 of the General Laws. The Agricultural Law has been amended from time to time by the following statutes:

Laws of 1894: Chapter 143 amended section 25.

Chapter 241 amended sections 88, 89.

Chapter 376 amended section 87.

Chapter 426 amended section 26.

Chapter 640 amended section 91.

Chapter 675 amended section 87.

Laws of 1895: Chapter 134 amended section 83.

Chapter 820 amended section 88.

Laws of 1896: Chapter 221 amended section 88.

Laws of 1897: Chapter 554 amended section 37.

Chapter 589 amended section 88.

Chapter 768 amended section 26.

Laws of 1898: Chapter 153 amended section 32.

Chapter 194 amended section 91.

Chapter 482 amended section 82.

Chapter 494 amended section 88.

Chapter 557 amended section 12.

Chapter 558 amended section 37.

Chapter 559 amended section 33.

Laws of 1899: Chapter 101 amended section 75.

Chapter 149 amended section 27.

Chapter 223 amended sections 80, 80a and 80b.

Chapter 303 amended section 72.

Chapter 435 amended section 37.

Laws of 1900: Chapter 76 amended section 37.

Chapter 79 amended section 123.

Chapter 87 amended section 88.

- Laws of 1900:** Chapter 101 amended section 22.
 Chapter 118 amended sections 60 to 65.
 Chapter 339 amended section 88.
 Chapter 534 amended section 27.
 Chapter 544 amended section 23.

Laws of 1905: Chapter 602 amended section 22.

Chapter 601 amended section 23.

Chapter 243 enacted article 14, being sections 190, 191.

The law as it now stands is composed of fourteen articles.

Article 1 is composed of twelve sections, under the following captions:

Section 1. Short title.

2. Commissioner of agriculture.

3. Power of commissioner, his assistants and employees.

4. Expert butter and cheese makers.

5. Annual report.

6. Certificate of chemist presumptive evidence.

7. Evidence; principal's liability for acts of agent.

8. Prosecution for penalty.

9. Disposal of fines and moneys recovered.

10. When injunction may be obtained.

11. When prosecution shall not be compelled to elect.

12. Inspection, how conducted.

Article 2 is composed of eighteen sections, under the following captions:

Section 20. Definitions.

21. Care and feed of cows.

22. Prohibition of the sale of adulterated milk.

23. Regulations in regard to butter and cheese factories.

24. Cans to be branded with name of county.

25. Regulations in regard to condensed milk.

26. Manufacture and sale of imitation butter prohibited.

27. Manufacture or mixing of animal fats with milk, cream or butter prohibited.

28. Prohibited articles not to be furnished for use.

29. Use of coloring matter prohibited.

30. Manufacture and sale of imitation cheese prohibited.

31. When prohibitions do not apply to skim milk or skim cheese.

Section 32. Packages to be branded with name of maker.

33. Manufacturers' brand of cheese.

34. Use of false brand prohibited.

35. County trade-marks.

36. Object and intent of this article.

37. Penalties.

Article 3 is composed of four sections, under the following captions:

Section 50. Definition of adulterated vinegar.

51. Manufacture and sale of adulterated or imitation vinegar prohibited.

52. Packages containing cider vinegar to be branded.

53. Penalties.

Article 4 is composed of eighteen sections, under the following captions:

Section 60. Suppression of infectious or contagious disease.

61. Commissioner to issue notice.

62. Farms to be quarantined; inspection of premises.

63. Detention and destruction of animals.

64. Employment of veterinary surgeons.

65. Regulations and enforcement thereof.

66. Penalties.

67. Appraiser of condemned animals.

68. Appraisal of diseased animals.

69. Certificate of appraisal.

70. Post-mortem examination of slaughtered animals.

70a. Compensation to owners of animals destroyed.

70b. Expenses.

70c. Federal regulations.

70d. Rights of federal inspectors.

70e. Slaughtering and selling veal for food.

70f. Shipping veal.

70g. Receiving veal for shipment by common carriers.

Article 5 is composed of eight sections, under the following captions:

Section 71. Definitions.

72. Commissioner of agriculture to apportion moneys appropriated for promotion of sugar beet culture.

Section 73. Registration of manufacturers.

- 74. Persons, et cetera, to whom moneys may be apportioned.
- 75. Determination of amounts to be paid.
- 76. Accounts to be kept; accountant.
- 77. Weighman, powers and duties.
- 78. Distribution of moneys by commissioner of agriculture.

Article 6 is composed of thirteen sections, under the following captions:

Section 80. The prevention of diseases among bees.

- 81. Proceedings of the agent of the commissioners.
- 82. The prevention of disease in fruit trees.
- 83. Appointment and duties of the agent of the commissioner of agriculture.
- 84. Proceedings in case of owner's failure to destroy.
- 85. The New York agricultural station.
- 86. The state weather bureau.
- 87. The agriculture experiment station at Cornell university.
- 88. Receipts and apportionment of state moneys appropriated for the promotion of agriculture.
- 89. When agricultural societies entitled to additional sums from the state.
- 90. Annual report of the commissioner of agriculture and state society.
- 91. Maple sugar and maple syrup.
- 92. Maple sugar and maple syrup.

Article 7 is composed of two sections, under the following captions:

Section 100. Laws repealed.

- 101. When to take effect.

Schedule of laws repealed.

Article 8 is composed of five sections, under the following captions:

- Section 110. State manufacturer and the dealer in original packages to file certificate with commissioner of agriculture.**

Section 111. Certificate to be given by commissioner of agriculture to state manufacturer and dealer in original packages.

112. Composition of paris green.

113. Paris green to be analyzed at experiment station.

114. Penalty for violations.

Article 9 is composed of eight sections, under the following captions:

Section 120. Term "concentrated commercial feeding stuffs" defined.

121. Statements to be attached to packages; contents; analysis.

122. Statements to be filed with the commissioner of agriculture; to be accompanied by sample.

123. License fee.

124. Commissioner of agriculture to take samples for analysis. Analysis to be made by director of experiment station.

125. Repealed.

126. Sale of adulterated meal or ground grains; penalty.

127. Repealed.

Article 10 is composed of seven sections, under the following captions:

Section 140. Property in town of Geddes, Onondaga county, New York.

141. State fair commission.

142. State fair.

143. Superintendent of state fair; assistants and employees.

144. Receipts and disbursements.

145. Expenses of commission.

146. State and local agricultural fairs not to be held at same time. Premiums for county or town agricultural association exhibits.

Article 11 is composed of two sections, under the following captions:

Section 164. Prohibition as to adulteration or misbranded food.

165. Definition of adulterated or misbranded food.

Article 12 is composed of five sections, under the following captions:

- Section 175. Statements to be attached to packages of fertilizers.
- 176. Variation in composition constituting violation of article.
- 177. Statement filed with commissioner of agriculture; license fees.
- 178. Presence of inert nitrogenous matter to be stated.
- 179. Enforcement of provisions of article; selection and analysis of samples.

Article 13 is composed of two sections, under the following captions:

- Section 185. Sale of adulterated evaporated apples prohibited.
- 186. Definition of evaporated apples.

Article 14 is composed of two sections, under the following captions:

- Section 190. Collection and dissemination of statistics.
- 191. Information to be furnished by supervisors.

Article 1 of the Agricultural Law defines the powers and authority of the commissioner of agriculture, his assistants and employees, and makes provision as to certain evidence in court, and defines principal's liability for the acts of his agent. Gives the commissioner of agriculture the power to prosecute for violation of the Agricultural Law. Determines how the fines and moneys recovered shall be disposed of, and makes provisions for injunctions. Provides for the method of inspection of milk.

Section 4 of article 1 reads as follows:

"The commissioner of agriculture may appoint and employ not more than five expert butter and cheesemakers, who shall, under his direction, examine and inspect butter and cheese factories and attend at agricultural fairs, societies and meetings designated by the commissioner, to impart thereat information as to the best and most approved method of making butter and cheese and improving the quality thereof."

I would respectfully recommend that said section be amended by striking out the words "not more than five" in the second line. Provision has been made by the legislature for the em-

ployment of more butter and cheese experts in the aggregate than five, and it being a later enactment, has controlled the commissioner of agriculture in his actions; but it is in apparent conflict and the words should be stricken from the statute.

Much work has been done during the present year under the provisions of article 2 of the Agricultural Law. Section 20, which is the first section of said article, provides the standard below which milk cannot be sold, offered or exposed for sale in the market as commercial milk. It has eight subdivisions defining adulterated milk, and reads as follows:

“The terms, butter and cheese, when used in this article, mean the products of the dairy, usually known by these terms, which are manufactured exclusively from pure, unadulterated milk or cream or both, with or without salt or rennet, and with or without coloring matter or sage. The terms oleomargarine, butterine, imitation butter or imitation cheese, shall be construed to mean any article or substance in the semblance of butter or cheese not the usual product of the dairy, and not made exclusively of pure and unadulterated milk or cream, or any such article or substance into which any oil, lard or fat not produced from milk or cream enters as a component part, or into which melted butter or butter in any condition or state, or any oil thereof has been introduced to take the place of cream. The term, adulterated milk, when so used means:

“1. Milk containing more than eighty-eight per centum of water or fluids.

“2. Milk containing less than twelve per centum of milk solids.

“3. Milk containing less than three per centum of fats.

“4. Milk drawn from cows within fifteen days before and five days after parturition.

“5. Milk drawn from animals fed on distillery waste or any substance in a state of fermentation or putrefaction or on any unhealthy food.

“6. Milk drawn from cows kept in a crowded or unhealthy condition.

“7. Milk from which any part of the cream has been removed.

“8. Milk which has been diluted with water or any other fluid, or to which has been added or into which has been introduced any foreign substance whatever.

"All adulterated milk shall be deemed unclean, unhealthy, impure and unwholesome. The terms, pure milk or unadulterated milk, when used singly or together, mean sweet milk not adulterated, and the terms pure cream or unadulterated cream, when used singly or together mean cream taken from pure and unadulterated milk."

Under the provisions of this section, any milk offered or exposed for sale in the market that is below the standard is deemed adulterated, irrespective of how it came in that condition; and the person offering or exposing it for sale is held responsible as a violator of the statute, whether he actually did the adulterating or not. In other words, the violation consists in offering or exposing for sale the milk in this condition.

Section 32 of the Agricultural Law (which is a section of article 2) reads as follows:

"No person, firm, association or corporation, producing, buying or receiving milk for the purpose of selling the same for consumption as such, or for manufacturing the same into butter, cheese, condensed milk, or other human food, shall keep the same in utensils, cans, vessels, room or rooms, building or buildings that are unclean or have unsanitary surroundings or drainage, or in any condition whatsoever that would tend to produce or promote conditions favorable to unhealthfulness or disease. The commissioner of agriculture shall notify all persons, firms, associations or corporations, violating this section, to clean said utensils, cans, vessels, room or rooms, building or buildings, or to so improve the sanitary conditions that the law will not be violated, and if such notice is complied with in ten days' time, Sundays excepted, then no action shall lie for a violation of this section. Any person or persons having charge of any milk gathering station where milk is bought or received from the dairy-men for the purpose of selling the same for consumption or shipping the same to market for consumption as human food before taking such charge or operating or working as such agent or person in charge shall apply to the commissioner of agriculture for a license to so work or operate or have charge, and shall at the time of making such application, file with the commissioner a statement under oath, setting forth the fact that he will not while having charge of or operating any such milk gathering establishment or while employed therein adulterate or suffer or permit the adulteration of any such milk or any product thereof during the term for which he may be licensed. After the appli-

cant shall have complied with the foregoing provisions of this section, the commissioner of agriculture upon being satisfied that the applicant is a person of good moral character and a qualified and proper person to so have charge of or operate any such milk gathering station or establishment shall issue to said applicant, a license which shall qualify him to have charge of any such milk gathering station or establishment for the period of two years from the date of such license. Any person or persons having charge of any milk gathering station or establishment as aforesaid, shall keep a true and correct daily record of the receipts of milk or other dairy products received at such station or establishment and a true and correct daily record of all sales or shipments of milk, cream and dairy products shipped or sold from such station or establishment. Which record shall be preserved at such station or establishment for at least two years after the same shall have been made and such records shall at all times be open to the inspection of the commissioner of agriculture or his assistants. If any such persons so duly licensed shall thereafter violate any of the provisions of the agricultural law relative to milk or the products thereof he shall forfeit his license and shall be disqualified for a period of five years from being again licensed by the commissioner of agriculture. The commissioner of agriculture shall have the power to issue subpoenas to be attested by him in his official capacity to any person or persons whom he may have reason to believe has knowledge of any alleged violation of the agricultural law, to appear before him or any of his assistant commissioners of agriculture for the purpose of investigating alleged violation of the agricultural law. Any person or persons who shall omit, neglect or refuse to obey subpoenas attested in the name of the commissioner of agriculture or who shall refuse to testify under oath before the commissioner of agriculture or his assistant commissioners of agriculture is guilty of a misdemeanor. The commissioner of agriculture and his assistant commissioners of agriculture are hereby authorized and empowered to administer oaths and affirmations in the usual appropriate forms to any person or persons in any matter or proceedings authorized as aforesaid and in all matters pertaining or relating to the agricultural law and to take and administer oaths and affirmations, in the usual appropriate forms, in taking any affidavit or deposition which may be necessary or required by law or by any order, rule or regulation of the commissioner of agriculture for or in connection with the official purposes, affairs, powers, duties or proceedings of said commissioner of agriculture or his assistant

commissioners of agriculture or any official purpose lawfully authorized by said commissioner of agriculture. The commissioner of agriculture or his assistant commissioners of agriculture shall have the power in proper cases to issue subpoenas duces tecum. Such subpoena or subpoena duces tecum may be served by any person over the age of twenty-one years. Any person who shall make any false statement under oath before the commissioner of agriculture or his assistant commissioners of agriculture, is guilty of perjury."

Under these two sections as amended, much work has been performed during the present year directly in the interest of the consuming public. It has been known to be, or believed to be the fact for a number of years that certain institutions, known as creameries or milk-gathering stations, have been violating the provisions of section 20 of the Agricultural Law so systematically, and in such a way, that it is practically impossible of detection. The method asserted to be in vogue was that the aforesaid institutions would put about 36 quarts of milk, or a little less, into 40-quart cans. They would then take other milk, from which they would extract the cream, and fill up the first cans, containing 36 quarts of pure milk, with the skim milk from which the cream had been taken, and send the commodity to New York markets for sale as whole or pure milk.

It was very difficult to detect this form of adulteration, because it was done in most cases in the early hours of the morning, by artificial light in a room behind a locked door, to which no one was allowed entrance save a trusted employee or employees who were to perform the act.

The legislature of 1904-5 amended section 32 of the Agricultural Law for the express purpose of giving the commissioner of agriculture extra powers, so that he might detect and, if possible, stop this form of adulteration. Under the amended statute, power was given the commissioner of agriculture to subpoena before himself or an assistant commissioner, any employee or employees of any of the aforesaid creameries or milk gathering stations to give testimony as to the methods of procedure in such creamery or station, and making it a misdemeanor for the person so subpoenaed to refuse to respond to such subpoena.

Said section 32 also provides that no person shall act as agent in charge of such milk-gathering station, or place where milk is

bought from farmers, to be afterwards reshipped or resold for consumption, except he shall first apply to the commissioner of agriculture for and receive a license to so act as such agent, and in such application it is required that he must state that he will not adulterate or permit the adulteration of any dairy product or products.

This amendment took effect May 24th, 1905. Under the provisions of this section, there have been issued to agents to work in such creameries, during the present year, 690 licenses. The following is the form of application made by persons desiring a license:

“To the Commissioner of Agriculture:

“I hereby apply for a license to act as agent or person in charge of a milk-gathering station or establishment where milk is bought or received from dairymen for the purpose of selling the same for consumption or shipping the same for consumption as food. My name is My postoffice address is My residence is in the town of county of, State of The milk-gathering station or establishment in which I desire or expect to work during the coming season is the situate in the town of, county of, State of New York. My age is

“The statements above set forth are in all respects true.

.....
(Signature of Applicant.)

“State of.....
Town of.....
County of.....

} ss.

..... being duly sworn deposes and says that he is the person whose application is above set forth for a license to act-as agent, and he will not, during the time he is acting as such agent or person in charge of any such establishment, adulterate or suffer or permit the adulteration of any milk or any product thereof which comes directly or indirectly under his control.

“Subscribed and sworn to before me this

..... day of 190..

.....
(Signature of Affiant.)

“.....

“This is to certify that above named is a person with whom I have been acquainted for years and is a man of veracity and good moral character.
.....”

The following is the form of license issued:
“No.

STATE OF NEW YORK:
DEPARTMENT OF AGRICULTURE,
MILK STATION OR ESTABLISHMENT.

“THIS IS TO CERTIFY that of the city or town of, county of, State of New York, has filed with the Commissioner of Agriculture of the State of New York, an application for a license as prescribed in section 32 of the Agricultural Law; that he is hereby licensed to act as agent or person in charge of a milk-gathering station or establishment, where milk is bought or received from dairymen for the purpose of selling or shipping the same for consumption, for the term of two years from the date hereof as prescribed under the provisions of said section of the Agricultural Law as amended by chapter 603 of the Laws of 1905.
“This license expires, 190..
“Dated, Albany, N. Y....., 190..
.....
Commissioner of Agriculture.”

Under the provisions of this section as amended, I have put forth a great effort to ascertain where the statute was being violated by such creameries, and to put a stop to it. This work, of necessity, was almost, in the first instance, entirely detective work. For that purpose I employed an experienced detective, and placed with him some of the best men in the department to assist and receive instructions as to the best methods of catching the persons so adulterating in the act, and then following the milk to the market and seeing that it was actually sold, offered or exposed for sale. It must be borne in mind that the skimming of milk, or the adulteration of milk, is of itself no offense under the statute; the offense consists in selling, offering or exposing for sale milk that is or has been adulterated, within the definition of the statute. For the purposes of this work it was deemed necessary that the witnesses should actually see the milk adulterated, should then mark it

for identification, follow it to its destination, and see it sold, offered or exposed for sale for consumption. Then, subsequent to that, the agent or agents who did the adulterating, or saw it done, who were employed in the said creamery or station, were subpoenaed before an assistant commissioner for examination as provided in the statute. Under this method of procedure I have, up to the present time, during this year, succeeded in getting evidence against 12 such milk stations as violators of the statute, namely:

Davenport Center Milk Station, situated in the town of Davenport, county of Delaware, State of New York. Shipped to New York city Sept. 3 and 5, 1905, 130 cans of milk which were adulterated. (2 cases.)

Maryland Milk Station, situated in the town of Maryland, county of Otsego, State of New York. Shipped to New York city Sept. 13, 1905, 12 cans of milk which were adulterated.

Pennellville Milk Station, situated in the town of Schroepfel, county of Oswego, State of New York. Shipped to New York city Sept. 28 and 29, 1905, 31 cans of milk which were adulterated.

Eaton Milk Station, situated in the town of Eaton, county of Madison, State of New York. Shipped to New York city Oct. 11 and 12, 1905, 53 cans of milk which were adulterated.

Leptondale Milk Station, situated in the town of Newburgh, county of Orange, State of New York. Shipped to New York city Oct. 14 and 15, 1905, 16 cans of milk which were adulterated. (2 cases.)

Sterlingville Milk Station, situated in the town of Philadelphia, county of Jefferson, State of New York. Shipped to New York city Oct. 24 and 25, 1905, 7 cans of milk which were adulterated.

Richville Milk Station, situated in the town of DeKalb, county of St. Lawrence, State of New York. Shipped to New York city Oct. 27, 1905, 27 cans of milk which were adulterated.

Kirkville Milk Station, situated in the town of Manlius, county of Onondaga, State of New York. Shipped to New York city Oct. 29, 1905, 45 cans of milk which were adulterated.

Holden Milk Station, situated in the town of Canton, county of St. Lawrence, State of New York. Shipped to New York city Nov. 14, 1905, 14 cans of milk which were adulterated.

Oran Milk Station, situated in the town of Pompey, county of Onondaga, State of New York. Shipped to New York city Nov. 18, 1905, 74 cans of milk which were adulterated.

Lisle Milk Station, situated in the town of Lisle, county of Broome, State of New York. Shipped to New York city Nov. 21, 1905, 6 cases of milk which were adulterated.

Franklin Milk Station, situated in the town of Franklin, county of Delaware, State of New York. Shipped to New York city Nov. 28, 1905, 44 cans of milk which were adulterated. (14 cases in all.)

These cases have all been referred to the Attorney-General for his consideration and such action as the facts in the case may warrant.

Up to this time, of the above-named cases, agents of the following named stations or creameries have been subpoenaed before assistant commissioners, and have given testimony relative to the milk so shipped as above stated, namely:

Davenport Center Milk Station, situated in the town of Davenport, county of Delaware, State of New York. Agents Miles Moore, Claude Chamberlain and Frank Yulk were examined before Mr. E. J. Preston, Assistant Commissioner of Agriculture, at the office of A. L. Kellogg, situated in the town of Oneonta, N. Y., on the 13th day of September, 1905.

Miles Moore testified: "We were in the habit of going into the cooler each morning and taking off about two quarts of cream from each can, and when we removed that we placed it in another can."

Claude Chamberlain testified: "I have seen two quarts of cream taken from each can when I have assisted and put into other cans."

Frank Yulk testified: "I first saw cream taken from the milk cans soon after I went there by dipping a small dipper into the cans and one quart was removed and more. This continued until Mr. Moore came, and since he came they have continued skimming in the same manner, and continued down to the present time."

Maryland Milk Station, situated in the town of Maryland, county of Otsego, State of New York. Agent Graham was examined before Mr. E. J. Preston, Assistant Commissioner of Agriculture, at the office of A. L. Kellogg, situated in the town of Oneonta, N. Y., on the 27th day of September, 1905. He refused to answer.

Pennellville Milk Station, situated in the town of Schroepfel, county of Oswego, State of New York. Agents W. B. Martin and Hugh Kimball were examined before Mr. C. T. Russell, Assistant Commissioner of Agriculture, at the office of W. B. Baker, situated in the town of Oswego, N. Y., on the 23rd day

of November, 1905. They admitted adulteration. Agent Joseph McKeon was examined before Mr. F. J. H. Kracke, Assistant Commissioner of Agriculture, at the office New York Bureau, Attorney-General of the State of New York, 27 William st., New York city, on the 20th day of October, 1905. He testified regarding his connection with the Park Farm Dairy Co., and the disposition made of sour milk.

Eaton Milk Station, situated in the town of Eaton, county of Madison, State of New York. Agent Fred. Sawyer was examined before Mr. C. T. Russell, Assistant Commissioner of Agriculture, at the office of Dayton F. Smith, situated in the town of Hamilton, N. Y., on the 27th day of November, 1905. He testified: "The skim milk was mixed with all the milk shipped on the morning of Oct. 11th, making fifty-two cans of such milk shipped, and one can of cream."

Leptondale Milk Station, situated in the town of Newburgh, county of Orange, State of New York. Agents T. J. Van Gilder and Samuel Vance were examined before Mr. E. J. Preston, Assistant Commissioner of Agriculture, at the office of Hon. A. H. F. Seeger, situated in the town of Newburgh, N. Y., on the 28th day of November, 1905. Adulteration admitted.

Sterlingville Milk Station, situated in the town of Philadelphia, county of Jefferson, State of New York. Agent William Baker was examined before Mr. S. B. Richardson, Assistant Commissioner of Agriculture, at his office in Lowville, N. Y., on the 26th day of October, 1905. Adulteration admitted.

Richville Milk Station, situated in the town of DeKalb, county of St. Lawrence, State of New York. Agents J. Biche and Frank Biche were examined before Mr. S. B. Richardson, Assistant Commissioner of Agriculture, at his office in Lowville, N. Y., on the 3rd day of November, 1905. Adulteration admitted.

Kirkville Milk Station, situated in the town of Manlius, county of Onondaga, State of New York. Agent W. G. Hitchings was examined before Mr. C. T. Russell, Assistant Commissioner of Agriculture, at the office of C. R. Milford, situated in the town of Skaneateles, N. Y., on the 21st day of November, 1905. Adulteration admitted.

Holden Milk Station, situated in the town of Canton, county of St. Lawrence, State of New York. Agent W. B. Hemenway was examined before Mr. S. B. Richardson, Assistant Commissioner of Agriculture, at his office in Lowville, N. Y., on the 16th day of November, 1905. Adulteration admitted.

Oran Milk Station, situated in the town of Pompey, county of Onondaga, State of New York. Agents Joseph Crosset and Howard Mitchell were examined before Mr. C. T. Russell, Assist-

ant Commissioner of Agriculture, at the office of E. H. Wallace, New York, N. Y.. on the 21st day of November, 1905. Adulteration admitted.

Lisle Milk Station, situated in the town of Lisle, county of Broome, State of New York. Agent J. W. Mead was examined before Mr. C. T. Russell, Assistant Commissioner of Agriculture, at the office of E. H. Wallace, New York, N. Y., on the 29th day of November, 1905. Adulteration admitted.

Franklin Milk Station, situated in the town of Franklin, county of Delaware, State of New York. Agents F. D. Banner and L. H. Binder were examined before Mr. E. J. Preston, Assistant Commissioner of Agriculture, at Walton, N. Y., on the 2nd day of December, 1905. Adulteration admitted.

This work is still going on in the same way, and I am of the opinion that if the proper support is given to the Department as to means, this method of adulteration may be reduced to the minimum, if not entirely stopped. There are in this State 591 milk-gathering stations that purchase milk from the producer to again reship same to cities for consumption. They are situated in different parts of the State, so that it is quite expensive to undertake to examine them. It is still more so when you take into consideration that the person who has charge of the station, if he be adulterating, views every newcomer with suspicion. Actions have been commenced not only for selling the milk thus adulterated, but also against the owner of the creamery for permitting agents in some instances to work in such creameries without obtaining licenses; also an action has been begun against such agents for so working without securing a license. Actions have also been begun against agents who, having obtained a license, still continue to adulterate milk. The results have not been obtained in any of the cases up to date, except in one instance a license has been cancelled and returned by the licensee, and he has paid into the state treasury a penalty for such violation.

This work has just started and is perhaps not generally known, but as it goes on I am of the opinion that the influence it will produce will be a deterrent one. When it is taken into consideration that the method of adulterating the milk involves placing 10 per cent. of skim milk in 90 per cent. of pure milk. and that about 10 per cent. of the milk sent to the consumer

from certain institutions is skim milk but sold for whole milk, it will thus be seen that the consuming public is being defrauded out of at least 5 per cent. of the money expended. If this should hold true of all the milk sold in the markets in New York city alone, it would mean that the consumer in New York is buying 1,817,944 40-quart cans of skim milk as and for pure milk, which at 6 cents per quart (if such price is paid by the consumer) would amount to \$2.40 per 40-quart can, or, in the aggregate, would amount to \$4,363,065.60. Providing now that the skim milk itself is worth one-half the price paid, then the consumer has been cheated to the extent of one-half the money paid, that is, one-half of the above-named amount, or \$2,181,532.80. This is in New York city alone.

There is a great incentive, of course, for the middleman to adulterate the milk in this way, because all the cream taken from the milk is worth, depending upon its grade, from \$6 to \$8 a can at least, while milk is worth considerably less than one-fourth of that amount. So that those who have formed the habit of thus increasing their resources, will desist only when there is sufficient force behind the enactment to compel them to do so.

The amount of milk being shipped to the cities of this State for consumption is increasing annually, as will be shown by the subjoined table, showing the amount shipped into the city of New York, during 1905, giving the number of 40-quart cans shipped per annum, the number of quarts per annum, and the number of quarts daily, from the year 1884 to 1905, both inclusive.

Year.	Number of 40-quart cans.	Number of quarts.	Number of quarts daily
1884.....	4,835,831	193,433,240	529,954
1885.....	4,930,459	197,218,360	540,320
1886.....	5,268,455	210,738,200	577,365
1887.....	5,580,488	223,219,520	611,560
1888.....	6,062,216	242,488,640	664,352
1889.....	6,630,278	265,211,120	726,606
1890.....	8,141,983	325,679,320	892,272
1891.....	8,269,953	330,798,120	906,296
1892.....	9,084,781	363,391,240	995,592

Year.	Number of 40-quart cans.	Number of quarts.	Number of quarts daily.
1893.....	9,503,315	380,132,600	1,041,459
1894.....	9,485,018	379,400,720	1,039,454
1895.....	9,336,827	373,473,000	1,023,313
1896.....	10,079,417	403,176,680	1,104,593
1897.....	10,338,356	413,534,240	1,132,970
1898.....	12,382,106	495,284,240	1,356,943
1899.....	13,121,655	524,866,200	1,437,989
1900.....	13,504,610	540,184,400	1,482,697
1901.....	14,005,007	560,200,280	1,534,795
1902.....	14,814,527	592,581,080	1,623,509
1903.....	15,831,449	633,257,960	1,734,953
1904.....	15,922,436	676,897,440	1,854,514
1905.....	18,179,440	727,177,600	1,992,267

From this table one can get a fair idea of the progress that is being made in the milk-producing and milk-dealing business in the State of New York. Greater New York having, approximately, one-half of the population of the State, can be fairly assumed to consume approximately one-half of the milk produced within the State. With this great bulk of milk going regularly from the producer to the consumer, with a continuous demand for a better grade of milk on the part of the consumer, it is evident that a proportionately increasing amount of care and surveillance must be exercised by the Department, to offset the results that inevitably follow from a natural tendency toward acquisitiveness, born of what is too often falsely termed "business enterprise" on the part of the middlemen.

In addition to this great bulk of milk that is called for by the consuming public, the dairies of this State are called upon to supply milk to 1,615 manufactories within the State of New York that produce butter and cheese for consumption. Of these factories, there are 455 that make butter only, 951 that make cheese only, and 209 that make both butter and cheese.

BUTTER.

The records gathered by this Department for the year 1904, and compiled in the year 1905 (and they are the latest), show that in the butter factories of this State there were manufactured

for that year 64,923,779 pounds of butter. This is a great increase, as will be seen by the subjoined table, which shows the amount of butter manufactured in the State of New York in factories biennially from 1892 to 1904, both inclusive.

	Pounds.
1892.....	19,497,357
1894.....	23,218,626
1896.....	21,429,694
1898.....	30,586,088
1900.....	39,183,311
1902.....	49,919,794
1904.....	64,923,779

The pounds of butter manufactured in the State of New York during the year 1904, by counties, is shown in the subjoined table.

Albany	424,947

Washington	1,143,877
Wayne	1,529,021
Westchester	18,523
Wyoming	1,811,465

It will be seen by the above figures that the amount of butter manufactured in the State of New York has also increased during the period from 1892 to 1904, increasing between 200 and 300 per cent.

I have employed during the year four butter instructors as provided by legislative enactment, to give instruction at butter manufactories where needed, to the end that the product might not only continue to be as nearly uniform as heretofore, but if possible to improve its make, to the end that the New York product may have the standing in the markets of the world to which it is entitled. This commodity, as now manufactured in this

State, can be safely asserted to be second to none, in quality, manufactured in the United States. This is evidenced by the fact that the demand for New York butter on the market has increased to such an extent, that its production has been increased nearly four-fold. If the quality was not conceded by the consumer to be what I believe it to be, then, even on an expanding market, our product would find sufficient rejections to retard the rapid demand for its production. This is not the case.

I am pleased to report to you that the work being performed by the butter experts is, in a large measure, productive of good results. One of the butter experts was employed continuously for three months at Cornell University, in the dairy school, giving instructions to the young men who were studying dairying at that institution, and who came from the farms of this State. This work will ultimately produce a class of butter makers in the State of New York who will be able, from their work within the State, to place the butter of New York State on a par with that manufactured anywhere in the world.

CHEESE.

During the year there have been in operation in the State of New York 951 factories making cheese exclusively, and 209 factories making both butter and cheese, making a total in all of 1,160 factories manufacturing cheese within this State. In those factories, during the year 1904, as shown by the statistics collected by this Department, there were manufactured 124,594,538 pounds of cheese. A large number of different varieties of cheese go to make up this aggregate amount. The kinds of cheese manufactured in the different factories of this State are as follows, together with the amounts of each that make up this aggregate amount, viz.:

	Pounds.
Full Cream	98,740,801
Skim	11,062,794
Pineapple	95,200
Limburger	5,301,728
Domestic Swiss	1,122,437
Kosher	519,735
D'Isigny	1,110,032

	Pounds.
Neufchatel	2,004,870
Fromage De Brie.....	100,630
Square Cream	1,075,211
Imitation English Cheddar	852,864
Weiner	398,066
Sage	147,842
Münster	742,172
Various other kinds.....	1,320,156

The amount of cheese manufactured in the State does not show an increase as is shown in the amount of milk and butter produced. The subjoined table shows the amount of cheese manufactured in factories in the State of New York from 1892 to 1904, both inclusive

	Pounds.
1892	130,991,310
1894	115,760,325
1896	87,765,143
1898	105,405,266
1900	126,658,672
1902	123,987,516
1904	124,594,538

I have employed during the year five cheese instructors. The work of these instructors, as provided in the statute, has been to go to such places to give instruction in the art of cheese making as may be required, in order that the product of this State might tend toward a uniform, first grade article. The results produced have been good, and so pronounced by the manufacturers and dealers. One of the cheese instructors of this State, during the year, has been detailed to do service at Cornell University for three months, to the class of young men attending the dairy school from the State of New York. It is hoped and believed that the same great results will be produced with these young men as are hoped to be attained by the young butter workers attending the same institution.

New York State ranks first as a cheese-producing State in the Union, manufacturing between one-third and one-half of all the cheese produced in the United States annually, and a quality of cheese that is second to no cheese made in this country.

During the year this Department has issued to the cheese factories in this State manufacturing full-cream cheese, 925 New York State full-cream cheese brands, as provided by section 33 of the Agricultural Law. Each one of these brands bears a separate and distinct number, and is for the purpose of, first, determining the character of the cheese, and second, identifying the place of its manufacture. The cheese so manufactured and branded in this State has acquired such a reputation and standing in the market, that the so-called mercantile enterprises in certain quarters have taken advantage of the reputation thus acquired, and are continuing, as they have done for several years in some quarters, to make duplicates of our New York State brands and place them upon cheese made elsewhere than in New York, and in some instances on cheese of an inferior grade. This practice is to the detriment of the New York product, and has a tendency to nullify the great work that has been done along this line by this State during the twenty years last past. In order to prevent this, the Congress of the United States has been appealed to and passed an act known as the Sherman Act (Public—No. 223). This act reads as follows:

“An act to prevent a false branding or marking of food and dairy products as to the state and territory in which they are made or produced.

“Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That no person or persons, company or corporation, shall introduce into any state or territory of the United States or the District of Columbia from any other state or territory of the United States or the District of Columbia, or sell in the District of Columbia or in any territory, any dairy or food products which shall be falsely labeled or branded as to the state or territory in which they are made, produced, or grown, or cause or procure the same to be done by others.

“Section 7. That if any person or persons violate the provisions of this act, either in person or through another, he shall be guilty of a misdemeanor and shall be punished by a fine of not less than five hundred nor more than two thousand dollars; and that the jurisdiction for the prosecution of said misdemeanor shall be within the district of the United States court in which it is committed.

“Approved, July 1, 1902.”

This act of course cannot be enforced by the State. This Department has no knowledge of its ever having been enforced by the United States government, although many complaints have been made of its violation. This Department is receiving some criticism by business men who, in their zeal for right results, but sometimes lack of knowledge as to where to look for action, criticize the Department of this State for the non-enforcement of this National statute.

To show you where and how these goods are marketed, I give you herewith a copy of a letter written to this Department under date of November 17, 1905.

"Dear Sir.—I am in receipt of your letter of November 11th giving me the information I asked for, for which please accept my thanks.

"In reply to your question I beg to advise you that cheese of these brands you name and numbers are being sold on the market. One I saw in Nashville, Tenn., and the other in Memphis, Tenn. Will be pleased to go into details where you can find the goods on sale as New York state full-cream goods, if you care to go into the matter. The numbers are put out by Chicago houses on inferior goods and sold as New York in order to market their product, and they have been doing this thing for several years and are still doing it. I would be pleased to give you any and all information in regard to the matter. You no doubt remember the same thing was done in Louisville several years ago by another Chicago firm, and indictments were returned in United States Court for the Western district of Kentucky, but the matter was filed away for some reason and has never come to trial. For any information on this case you can write to the United States district attorney, Louisville, Ky.

"It appears to me that if the New York state makers of cheese care anything for their business they should take the matter up. Before they took no interest in the case whatever, so I dropped it.

"Yours very truly,

If the present agitation for a national pure food law is productive of results, and if the law makes proper provision for machinery for its enforcement, evils of this kind would be speedily reduced to the minimum, if not done away with entirely. Somewhere some power should be produced that will repress the avaricious onslaughts of so-called business enterprise, that is of itself undermining the business morals of the country, to say nothing of the great injury done to the consuming public.

The amount of cheese manufactured in the State of New York during the year 1905 is not a matter of public record, but to give an idea of the distribution of the cheese industry in this State, I submit the following table showing the amount of cheese made in the State of New York, by counties, for the year 1904:

	Pounds.
Albany	11,846
Allegany	8,914,792
Broome	616,889
Cattaraugus	12,338,263
Cayuga	470,583
Chautauqua	3,425,342
Chemung	54,330
Chenango	2,731,671

Putnam	143,730
Rensselaer	147,209
St. Lawrence.....	12,545,648

	Pounds.
Schoharie	501,896
Schuyler	13,248
Steuben	3,074,162
Sullivan	308,500
Tioga	128,925
Tompkins	59,391
Ulster	202,838
Washington	1,190,579
Wayne	292,079
Westchester	2,077
Wyoming	5,195,906

It would seem from the above statements that there were 64,923,779 pounds of butter and 124,594,538 pounds of cheese. Estimating that it took 20 pounds of milk to make a pound of butter, and 10 pounds of milk to make a pound of cheese, then this will show that the cows of this State produced the enormous sum of 2,544,420,960 pounds of milk to be manufactured into butter and cheese, in addition to the amount which they have produced to supply the demand for consumption in the cities and villages of the State. This immense supply of milk is of daily production, and its adulteration, whether with material that is harmless or not, can be made a source of great revenue to the producer and dealer or both, as well as a source of great harm to the consumer if not properly cared for. Measures that have already been taken to preserve the purity of this product, in the interest of the consuming public, have been good, and should not be weakened in any sense whatever. The demand to-day on the part of the consumer is that this commodity shall have even better care. The demand on the part of some of the cities is that no milk shall be sold within its borders that has a temperature above 50 degrees Fahrenheit. Associations have been formed for the purpose of encouraging the sale of so-called certified milk, that is, a milk produced from cattle which are kept in such a healthful and cleanly condition, and so cared for and fed, that the product from them will be as near a healthful product as may be, and that the milk, after being taken from the cattle,

is so cooled, cared for and kept as to be as free as possible from dirt of any kind, and so that the bacteria contained therein shall be reduced to the minimum.

Your Honorable Body passed an act amending section 22 of the Agricultural Law, being chapter 602 of the Laws of 1905, prohibiting the sale or exchange, as and for certified milk, of any milk which has not been duly examined by a competent person to make such examination, and which has not been found upon such examination to be free from antiseptics, added preservatives, and pathogenic bacteria, or bacteria in excessive numbers, and that all milk sold as certified milk should be conspicuously marked with the name of the association certifying it. This new departure in the sale of milk has its drawbacks like other new departures along lines that are making for integrity. The drawbacks are produced by the fact that certified milk brings a better price than ordinary milk, and the result is that again so-called business enterprise steps in, in many instances, and labels milk that is not properly certified milk as certified milk. One case is now pending in the city of Buffalo for violation of the provisions of this section, and is to be tried soon. The case is entitled "The People vs. Briggs," and the action is brought on the part of the people on the ground that the defendant sold milk as and for certified milk which had not been examined or certified by any competent person, and on the further ground that it is believed the milk itself disseminated scarlet fever. Whether the State will succeed in proving that this disease was disseminated in this so-called certified milk, remains to be seen; but should that fact be established, this one case of itself will be a demonstration of the depths to which the so-called commercial enterprise to which I have referred will induce men to go. A confiding public, resting upon the assertion that they were getting not an ordinary article of milk, but an extraordinary article of milk that had been examined as required by statute, and certified to be cleanly and healthful, were induced to buy an article reeking with germs of a loathsome disease.

During the year the Department has issued for use in full cream cheese factories within the State cheese brands as follows:

LIST OF STATE CHEESE BRANDS ISSUED DURING THE YEAR ENDING DECEMBER 31, 1905, BY COUNTIES.

ALLEGANY COUNTY.

NAME OF FACTORY.	Name of applicant.	P. O. Address.

PURE FOOD.

Under article 11 of the Agricultural Law, known as the Pure Food article, much work has been done during the year. The construction that I have given this statute is to the effect that it is intended to prohibit all sales of food products containing any poisonous, injurious or harmful commodities; second, that it is intended to prohibit the sale of all food products that are adulterated, except they be labeled or branded as required by the statute. The requirement of the statute in this respect is that if the sale of the goods is a sale that would be prohibited

on the ground of adulteration by material that is not poisonous or harmful, they can be sold if they are a mixture, compound, imitation or blend, providing that they are so labeled as to give the names of the constituents. Under this statute, the reputable manufacturers and dealers whose goods are sold within this State have been endeavoring to comply with its requirements. Some difficulty arises in the minds of different ones who desire to so conform, as to the precise intention of the statute. Interpretations of the Department have been uniformly to the effect that in naming the constituents, blanket terms must not be used; that is, it is not sufficient to say a commodity has coloring matter in it, but the precise coloring matter must be named. Nor is it sufficient to say that an extract is dilute in alcohol; the specific name of the alcohol should be given. The same principle involved here is also involved in naming constituents in spices and other commodities upon the market. Some criticism has been offered on the stand taken that the kind of spirits in which extracts are dilute must be named. When it is borne in mind that the spirit itself is a constituent of the commodity purchased, and a large one, and that methyl or wood alcohol is considered poisonous, it should not seem strange that such requirement is made. Under this statute, during the year, there have been 479 cases made for violations, 257 of which are in the hands of the Attorney-General for prosecution. The others will be referred soon. I am of the impression that the work that is being done along this line will ultimately achieve the ends sought by the passage of the statute.

OLEOMARGARINE.

Oleomargarine is practically not upon sale in the markets of the State of New York. Diligent and thorough efforts have been put forth during the year at all times to find whether this commodity was being offered for sale or sold, either in the markets of this State, or by agents from other States by canvassing. It has been so found in but few cases.

There have been two cases during the year, and they have been referred to the Attorney-General for prosecution.

INFECTIOUS AND CONTAGIOUS DISEASES OF DOMESTIC ANIMALS.

Under this statute during the present year 2,791 animals have been examined by the veterinarians of this Department, which were believed to be infected with an infectious or contagious disease. Two hundred and seventy-six of these animals have been killed as suffering with such disease. The existence of the different contagious and infectious diseases such as found by the work of the veterinarians and assistant commissioners, is as follows:

Anthrax has been found in St. Lawrence, Orange and Wayne counties. Eight hundred and fifty-three animals were vaccinated for this disease.

Sheep scab was found in Genesee and Jefferson counties, and 450 animals were examined.

Catarrhal fever was found in Otsego county, and 10 animals were examined and 3 killed.

Foot-rot was found in Oswego county, and 37 animals examined.

Black-leg was found in Delaware, Cattaraugus and Herkimer counties, and 103 animals were vaccinated.

Swine plague was found in Onondaga, Chautauqua, Greene and Columbia counties, and 69 animals were examined.

Mange in horses was found in Jefferson county, and 10 horses were examined.

Pneumonia was found in Rensselaer and Erie counties, and 30 animals were examined.

Tuberculosis was reported in Jefferson, Columbia, Madison, Tompkins, Greene, Chemung, Orange, Cortland, St. Lawrence, Otsego, Cattaraugus, Chautauqua, Schenectady, Westchester, Niagara, Delaware, Cayuga and Seneca counties. Eight hundred and forty-four animals were examined, 270 animals were killed, and \$2,593.80 has been given as compensation to owners.

Glanders has been reported in Steuben, Columbia, Erie, Rensselaer, Albany, Cattaraugus, St. Lawrence, Essex, Chemung, Schoharie, Cayuga, Westchester and Broome counties. One hundred and forty-seven animals have been examined and 16 killed.

Rabies has been reported in Fulton and Steuben counties, and quarantine notices have been issued for Jamestown, Chautauqua county, January 31, 1905, and revoked June 21, 1905; town of Ellicott, Chautauqua county, February 16, 1905, revoked June 21, 1905, and for the towns of Addison, Tuscarora, Woodhull, Rathbone, Lindley and Caton, Steuben county, on August 16, 1905, and revoked October 20, 1905.

CONCENTRATED COMMERCIAL FEEDING STUFFS.

Article IX of the Agricultural Law is relative to the sale and analysis of concentrated commercial feeding stuffs. Section 120 of this article defines the term "concentrated commercial feeding stuffs," as follows:

"The term 'concentrated commercial feeding stuffs' as used in this article, shall include linseed meals, cottonseed meals, pea meals, bean meals, peanut meals, cocoanut meals, gluten meals, gluten feeds, maize feeds, starch feeds, sugar feeds, dried distiller's grains, dried brewer's grains, malt sprouts, hominy feeds, cerealine feeds, rice meals, dried beet refuse, oat feeds, corn and oat chops, ground beef or fish scraps, meat and bone meals, mixed feeds, clover meals, condimental stock and poultry foods patented, proprietary or trade-marked stock and poultry foods, and all other materials of similar nature; but shall not include hays and straws, the whole seeds nor the unmixed meals made directly from the native grains of wheat, rye, barley, oats, Indian corn, buckwheat and broom corn. Neither shall it include wheat, rye and buckwheat brans or middlings, not mixed with other substances, but sold separately, as distinct articles of commerce, nor pure grains ground together, nor wheat bran and middlings mixed together not mixed with any other substances and known in the trade as 'mixed feed.'"

Section 121 defines the statements to be attached to packages, and those statements shall give the contents and analysis of the feed therein contained. Section 121 reads as follows:

"No manufacturer, firm, association, corporation or person shall sell, offer or expose for sale or for distribution in this state any concentrated commercial feeding stuff used for feeding live stock, unless each car or other amount shipped in bulk shall have affixed to it or be accompanied by a plainly printed statement clearly and truly certifying the name or trade-mark under which the article is sold, the name of the manufacturer, the place of manufacture, the shipper and the place of business and a statement of the constituents of such concentrated feeding stuff as shown by a chemical analysis. Such statement to show the percentage it contains of crude protein and of crude fat. If such concentrated feeding stuff is in packages such statement shall be affixed to the package, and shall also state the number of pounds in such package. Whenever any feeding stuff is sold at retail in bulk or in packages belonging to the purchaser, the agent or dealer, upon request of the purchaser, shall furnish to him the certified statement named in this section."

Section 122 requires that a certain statement shall be filed with the Commissioner of Agriculture, and to be accompanied by a sample if desired. That section reads as follows:

“Before any manufacturer, company or person shall sell, offer or expose for sale in this state any concentrated commercial feeding stuffs, he or they shall for each and every feeding stuff bearing a distinguishing name or trade-mark, file annually during the month of December with the commissioner of agriculture a certified copy of the statement specified in the preceding section, said certified copy to be accompanied, when the said commissioner shall so request, by a sealed glass jar or bottle containing at least one pound of the feeding stuff to be sold or offered for sale, and the company or person furnishing said sample shall thereupon make affidavit that said sample corresponds to the feeding stuff which it represents in the percentage of protein and fat which it contains.”

Section 123 provides for a license fee, and reads as follows:

“Every manufacturer, importer, agent or seller of any concentrated commercial feeding stuffs, shall pay annually during the month of December to the treasurer of the state of New York, a license fee of twenty-five dollars for each and every brand sold or offered for sale. Whenever a manufacturer, importer, agent or seller of concentrated commercial feeding stuffs desires at any time to sell such material and has not paid the license fee therefor in the preceding month of December, as required by this section, he shall pay the license fee prescribed herein before making any such sale. Said treasurer shall in each case at once certify to the commissioner of agriculture the payment of such license fee. Each manufacturer, importer or person who has complied with the provisions of this article shall be entitled to receive a certificate from the commissioner of agriculture setting forth said facts. The treasurer of the state of New York shall pay from the amount of such license fees, when duly appropriated, the moneys required for the expense incurred in enforcing the provisions of this article. Whenever the manufacturer, importer or shipper of concentrated commercial feeding stuffs shall have filed the statement required by section one hundred and twenty-one of this article and paid the license fee as prescribed in this section, no agent or seller of such manufacturer, importer or shipper shall be required to file such statement or pay such fee.”

Section 124 empowers the Commissioner of Agriculture, or his agent, to take samples of concentrated commercial feeding stuffs

sold, offered or exposed for sale in the markets of the State of New York for analysis, and to submit them to the director of the New York State agricultural experiment station for analysis.

Section 126 makes provision relative to the sale of adulterated meal or ground grains. That section reads as follows:

“No person shall adulterate any kind of meal or ground grain or other cattle food with milling or manufacturing offals, or any substance whatever, for the purpose of sale, unless the true composition, mixture or adulteration thereof is plainly marked or indicated upon the package containing the same or in which it is offered for sale; no person shall knowingly sell or offer for sale any meal or ground grain or other cattle food which has been so adulterated unless the true composition, mixture or adulteration is plainly marked or indicated upon the package containing the same, or in which it is offered for sale, but there shall be no prosecution for violation of this article in relation to the quality of any concentrated commercial feeding stuff if the same shall be found substantially equivalent to the certified statement named in section one hundred and twenty-two of this article.”

Under the provisions of this article, during the year agents of the department have collected 259 samples of concentrated commercial feeding stuffs sold, offered or exposed for sale in the markets of the State, and have submitted the same to the director of the New York State agricultural experiment station for analysis. At the present time the director has reported on 82 of the samples thus sent to him.

Of the samples so taken and analyzed as above set forth, 26 of them were found to be sold, offered or exposed for sale in violation of the statutes of this State, and those cases have been referred to the Attorney-General for his consideration and such action as the facts may warrant. For the given number of cases see table of cases herein that have been reported to the Attorney-General for prosecution.

For a detailed statement of the results of the analysis of the samples above referred to, see Bulletin No. 268, made a part of this report.

During the year 193 brands of concentrated commercial feeding stuffs have been licensed for sale in this State by 120 different manufacturers and jobbers, as follows:

COMMERCIAL FERTILIZERS.

Article XII of the Agricultural Law has to do with the sale of commercial fertilizers. That article reads as follows:

"Section 175.—Statement to be attached to packages of fertilizers.—No person, firm, association or corporation shall sell, offer or expose for sale any commercial fertilizers or any material to be used as a fertilizer, the selling price of which exceeds five dollars per ton, unless such fertilizer or material shall be accompanied by or shall have affixed to each and every package in a conspicuous place on the outside thereof, a plainly printed statement which shall certify as follows:

"1. The number of net pounds of fertilizer in the package sold or offered for sale.

"2. The name, brand or trade-mark under which the fertilizer is sold.

"3. The name and address of the manufacturer of the fertilizer.

"4. The chemical composition of the fertilizer expressed in the following terms:

"(a) Per centum of nitrogen.

"(b) Per centum of available phosphoric acid, or in case of undissolved bone the per centum of total phosphoric acid.

"(c) Per centum of potash soluble in distilled water.

"If any such fertilizer be sold, offered or exposed for sale in bulk such printed statement shall accompany every lot and parcel so sold, offered or exposed for sale."

"Section 176. Variation in composition constituting violation of article.—It shall be a violation of the provisions of this article if the statement required by section one hundred and seventy-five of this article shall be false in regard to the number of net pounds of fertilizer in the package sold, offered or exposed for sale, or in the name, brand or trademark under which the fertilizer is sold, or in the name and address of the manufacturer of the fertilizer. It shall also be a violation of the provisions of this article if any commercial fertilizer or material to be used as a fertilizer shall contain a smaller percentage of nitrogen, phosphoric acid or potash than is certified in said statement to be contained therein, when such deficiency shall be greater than one-third of one per centum of nitrogen, or one-half of one per centum of available phosphoric acid or one per centum of total phosphoric acid in the case of undissolved bone or one-half of one per centum of potash soluble in distilled water."

"Section 177. Statement filed with the commissioner of agriculture; license fees.—Before any commercial fertilizer or any material to be used as a fertilizer is sold, offered or exposed for

sale in this state, the manufacturer, importer or person who causes the same to be sold, offered or exposed for sale shall file with the commissioner of agriculture a certified copy of the statement prescribed in section one hundred and seventy-five of this article and, in addition, such statement shall be filed thereafter annually during the month of December. Each manufacturer, importer or person, before selling, offering or exposing for sale in this state any brand of commercial fertilizer, shall annually, during the month of December, pay to the treasurer of the state of New York a license fee of twenty dollars for each and every brand of fertilizer, bearing a distinctive name, brand or trademark, which said manufacturer, importer or person is to sell, offer or expose for sale in this state during the calendar year next succeeding said payment, provided, always that the placing of any new brand upon the market at any time during said calendar year shall be preceded by such payment. Said treasurer shall in each case at once certify to the commissioner of agriculture the payment of such license fee. Each manufacturer, importer or person who has complied with the provisions of this article relative to filing the aforesaid certified statement and to the payment of the aforesaid license fee shall be entitled to receive a certificate from the commissioner of agriculture setting forth said facts. All money received from license fees, as aforesaid, when so appropriated shall be used, or so much thereof as may be necessary, in maintaining the expenses of enforcing the provisions of this article."

"Section 178. Presence of inert nitrogenous matter to be so stated.—No person shall sell, offer or expose for sale in this state leather or its products or other inert nitrogenous material in any form, as a fertilizer or as an ingredient of any fertilizer, unless an explicit statement of the facts shall be conspicuously affixed to every package of such fertilizer, and shall accompany every parcel or lot of the same."

"Section 179. Enforcement of provisions of article; selection and analysis of samples.—The commissioner of agriculture may for the purpose of enforcement of this article employ such experts and agents as may be necessary. He shall from time to time and at least once in each year collect or cause to be collected samples of commercial fertilizers sold, offered or exposed for sale within this state. In taking samples of such fertilizers for the purpose of analysis he shall take them or cause them to be taken in duplicate and at the time of such taking he shall tender, and if accepted, shall deliver to the person apparently in charge one of said duplicate samples, the other he shall cause to be analyzed. The result of the analysis of samples so taken shall be published in bulletins from time to time and at least once in each year. The director of the New York agricultural experi-

ment station at Geneva, shall analyze or cause to be analyzed such samples of such fertilizers so taken which may be submitted to him for that purpose by the commissioner of agriculture, and shall report such analysis to the said commissioner as soon as completed. For this purpose the New York agricultural experiment station may continue to employ chemists and incur such expenses as may be necessary to comply with the requirements of this article."

Under the provisions of this article, the agents of the Department have collected 1,160 samples of commercial fertilizers found upon the markets of this State that were being sold, offered or exposed for sale, and have submitted the same to the director of the New York State agricultural experiment station for analysis. The director of that station has reported on 706 of the samples so submitted. Of the samples so submitted, 454 were duplicate samples upon which analysis was not requested to be made. The duplicate samples were taken at different times and different places by different agents, and were reserved for analysis in the event that it was deemed wise to make a second analysis of the same commodity.

Of the samples so taken and analyzed as above set forth, 21 of them were found to be sold, offered or exposed for sale in violation of the statutes of this State, and those cases have been referred to the Attorney-General for his consideration and such action as the facts may warrant.

For a detailed statement of the results of the analysis of the samples above referred to, see Bulletin No. 272, made part of this report.

During the year 685 brands of commercial fertilizers have been licensed for sale in this State by 82 different manufacturers, and 5 brands have been licensed this year for goods sold during the calendar year 1904, as follows:

THE PREVENTION OF DISEASE IN FRUIT TREES, AND THE PESTS THAT INFEST THE SAME.

Section 82 of the Agricultural Law, which is a part of article VI, provides for the extirpation of insect pests in fruit trees and the suppression of plant diseases.

Section 83 of said act provides for the employment of agents by the Commissioner of Agriculture for this work and defines their duties.

Under the provisions of these two sections I have during the year employed the following persons:

AGENTS.

George G. Atwood, inspector of nurseries, orchards and shipments.

J. Jay Barden, inspector of nurseries, orchards and shipments.

L. F. Brown, inspector of nurseries, orchards and shipments.

C. H. Darrow, inspector of nurseries, orchards and shipments.

Jos. H. Dodge, inspector of nurseries, orchards and shipments.

Chas. L. Enders, inspector of nurseries, orchards and shipments.

P. L. Husted, inspector of nurseries, orchards and shipments.

T. F. Niles, inspector of nurseries, orchards and shipments.

H. C. Peck, inspector of nurseries, orchards and shipments.

B. D. Van Buren, inspector of nurseries, orchards and shipments.

Fred T. Wiley, inspector of nurseries, orchards and shipments.

L. L. Woodford, inspector of nurseries, orchards and shipments.

Chester Young, inspector of nurseries, orchards and shipments.

LABORERS.

Nathaniel M. Matthews.

T. F. Neill.

Jay Thompson.

All of the agents in the above named list were taken from the civil service eligible list, their fitness for the work having been determined by an examination as to their qualifications along these lines. I have found all of these agents competent and trustworthy men.

For the purposes of this work I have divided the State into ten divisions, which are classified as follows:

First division.—Albany, Clinton, Essex, Franklin, Fulton, Hamilton, Herkimer, Jefferson, Lewis, Montgomery, Oneida, St. Lawrence, Saratoga, Schenectady and Warren.

Second division.—Kings, Nassau, New York, Queens, Richmond, Rockland, Suffolk.

Third division.—Putnam, Westchester, Columbia, Dutchess, Rensselaer, Washington.

Fourth division.—Cayuga, Cortland, Madison, Oswego, Onondaga.

Fifth division.—Broome, Chenango, Delaware, Greene, Orange, Otsego, Sullivan, Ulster, Tioga, Schoharie.

Sixth division.—Erie, Wyoming, Niagara.

Seventh division.—Monroe.

Eighth division.—Wayne, Yates, Livingston, Allegany, Cattaraugus, Chautauqua, Chemung, Steuben.

Ninth division.—Ontario, Seneca, Tompkins, Schuyler.

Tenth division.—Genesee, Orleans.

The main features of the work under sections 82 and 83 may be fairly classified under three headings, first, the examination of nurseries in the State, as provided in section 83 for the purpose of determining whether said nurseries are free or apparently free from infectious or contagious diseases or injurious insect pests; second, the prevention of such diseases or insect pests coming into the State upon imported goods; third, the examination and inspection of orchards.

Under the first of these three headings, the work performed has been as follows: The number of nurseries in the State of New York producing trees of different kinds and varieties is 467. These have all been inspected by the agents of this Department and certificates issued to 466 of them. The method of operating to determine whether a certificate will be issued to a nursery is as follows: An agent of the Department examines the nursery with great care to determine whether any of the trees are infected with any disease, or infested with any insect pest. The men engaged in this work are peculiarly adapted to it, as all of them have had a large experience as orchardists outside of their study as to the technical features of the work. After they have examined a nursery thoroughly a report is made in detail to this office upon a blank in the following form:

STATE OF NEW YORK:
DEPARTMENT OF AGRICULTURE.
NURSERY INSPECTION.

No.

....., 190..

Hon. C. A. WIETING, *Commissioner of Agriculture, Albany, N. Y.:*

Dear Sir.—I hereby respectfully report that I have this day finished the examination of the nursery stock in the nursery of The said nursery is located in the town of, county of, State of New York, and is situated

The examination of the above-named stock showed it to be apparently San José scale or other insect pest or pests dangerously injurious to, and destructive of, the trees, shrubs or other plants, and it is black knot or other contagious or infectious plant disease or diseases.

I have interviewed Mr., and he informs me that he has other nurseries or blocks of trees situated as follows:

Remarks:

Dated, 190..

.....,
Agent.

In the blank portion is written out fully the conditions as they are found to exist. After the report is made of the facts on the above form, under the heading of remarks the agent makes a statement as to his views of the nursery. Upon the facts thus submitted to this office being examined by an agent in general charge of this work, a certificate is issued, providing the facts are such as to warrant the conclusion that the nursery is appar-

ently free from such diseases or insect pests. The certificate issued is in the following form:

No.

STATE OF NEW YORK:

DEPARTMENT OF AGRICULTURE.

CERTIFICATE OF INSPECTION OF NURSERY STOCK.

THIS IS TO CERTIFY that the stock in the nursery of of, county of, State of New York, was duly examined in compliance with the provisions of section 83 of the Agricultural Law, and it was found to be apparently free from any contagious or infectious disease or diseases, or the San José scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 190 .

Dated, Albany N. Y.,, 190..

.....,
Commissioner of Agriculture.

**LIST OF NURSERYMEN RECEIVING CERTIFICATES
FOR 1905.**

The following is a list of the nurserymen in this State, together with their postoffice addresses, to whom certificates were issued for the year 1905:

A

Albro, E. L., Geneva.
Allen Nursery Co., Rochester.
Ammann, Charles, Yonkers.
Anthony, Walter, Union Springs.
Apthorp, Charles & Son, Fredonia.
Ashmead, T. G., Williamson.
Avery, C. W., Patchogue.

B

Bacon, Edward, Dansville.
Bannister Bros., Syracuse.
Bantlemann, Henry L., New York.
Barns, Edward W., Middle Hope.
Barrett, C. T., West New Brighton.
Barton, H. L., Mexico.
Bay Nursery, Rochester.
Beachy, N. C., Rochester.
Bell, Edwin, Castleton.
Bell, J. W., & Sons, Portland.
Benard, John, Pittsford.

Benedict, F. E., Watermill.
Billings & Wright, Webster.
Birdsey, John W., Stanley.
Bingham, Jas. W., Marlboro.
Blodgett, F. H., Pultney.
Bloodgood Nurseries, Flushing.
Blount, Arthur, Hastings.
Blowers, H. W., Westfield.
Board of Park Com'rs, Rochester.
Boche, Chris., West New Brighton.
Bogue, Dewane, Medina.
Bogue, Nelson, Batavia.
Bolger, Thomas, Geneva.
Bolles, F. A., Brooklyn.
Bowman, T. W., & Son, Nursery Co., Rochester.
Brennan, Patrick, Geneva.
Brown, S. E., Pulaski.
Brown, Everett, Bluff Point.
Brown, Harvey J., Halls Corners.
Brown Brothers Co., Rochester.

Bryant, W. C., Dansville.
 Bryant Bros., Dansville.
 Bryant, L. J., & Son, Newark.
 Budd & Kenyon, Hector.
 Burger, F. D., Pultney.
 Burgevine, Paul J., Port Chester.
 Burgevine, Valentine, Sons, Kingston.
 Burke, John M., Dansville.
 Burke, Michael, Dansville.
 Burnett, F. J., Webster.
 Burns, Christopher, Dansville.
 Bush, A. J., Hastings.
 Bush, C. E., Hastings.
 Butler, P. W., Penfield.

C

Carrigan, Thomas, Geneva.
 Carey, Anthony, Honeoye Falls.
 Carey, John, Brighton.
 Carmody, M. J., Dansville.
 Case, E. H., Patchogue.
 Casey, Patrick, Geneva.
 Cass, W. & T., Geneva.
 Castner, E. B., Keuka.
 Chadbourne, A. H., & Co., Geneva.
 Chapman, W. J., Glens Falls.
 Charlton, John, & Sons, Rochester.
 Charlton Nursery Co., Rochester.
 Chase, Chas. H., Rochester.
 Chase, Homer N., & Co., Geneva.
 Chase Brothers Company, Rochester.
 Chase, N. B., Co., Newark.
 Chase, R. G., Co., Geneva.
 Childs, John Lewis, Floral Park.
 Chism, C. J., Brighton.
 Christman, M., Pulaski.
 Chrysler, K. M., Valois.
 Clark, E. P., Dansville.
 Clark, Harry S., Raymondville.
 Clark Nursery Co., Waterloo.
 Cline, J. B., & Son, Rochester.
 Clucas & Boddington, Sparkill.
 Cobb, W. T., & Co., Geneva.
 Cody, A., Flint.
 Collamer, J. B., Hilton.
 Colvin, E. L., Fredonia.
 Cooke, John M., Tarrytown.
 Cooley & Dougherty, Groveland Sta.
 Coon, O. A., Nevis.
 Cooney, John, Geneva.

Cooper, Samuel, Delevan.
 Cornell, Edmund W., Clinton Corners.
 Cornell, S. M., Lynbrook.
 Corwin, Chas., Newfane.
 Costich, Sepheriene, Irondequoit.
 Costich, G. A., & Co., Rochester.
 Cottage Gardens Co., Queens.
 Covey, Eugene, Penfield.
 Cowell, W. G., Auburn.
 Cowley, Stephen, Dansville.
 Crissey, S. S., Fredonia.
 Crosby, Fred., Crosby.

D

Darmstadt, William, Hewlett.
 Darrow, C. H., & Co., Geneva.
 Davie, James, Geneva.
 Davis, Geo. A., Mexico.
 Deady, Geo. L., North Rose.
 Dean, Patrick, Geneva.
 Deavney, John, Geneva.
 De Freest, Levi, Troy.
 DeLamater, Peter, Poughkeepsie.
 Denton, C. W., Dansville.
 Dickson, E. B., Cayuga.
 Dimon, R. J., Hastings.
 Donahue, Mrs. Catherine, Geneva.
 Doud, James, Dansville.
 Dougherty, Anthony, Dansville.
 Dougherty, J. A., Dansville.
 Dougherty, Michael, Dansville.
 Dummett & Wagner, Mt. Vernon.
 Durkin, John, Waterloo.
 Dusinberre, E. M., Geneva.
 Dwyer, T. J., & Son, Cornwall.

E

Eaton, George, Bath.
 Ellis, Ralph N., New York.
 Ellwanger, Wm. G., Rochester.
 Ellwanger & Barry, Rochester.
 Emmons & Company, Newark.
 Empire State Nursery Co., Waterloo.
 Essig, W. W., Geneva.
 Evans, H. D., Geneva.

F

Fagan's, B., Sons, Islip.
 Fairfield, John W., Middlesex.
 Fairview Nurseries, Rochester.

Farmer, L. J., Pulaski.
 Fay, E. H., Portland.
 Filer, Alonzo, Albion.
 Finn, J. W., Dansville.
 Finnerty, Patrick, Geneva.
 First National Nurseries, Rochester.
 Fisher, A. J., Bellona.
 Fisher, Floyd, Gage.
 Flannigan Bros., Geneva.
 Fletcher, John C., Amsterdam.
 Foord, J., & Son, Auburn.
 Foote, Joseph J., Dansville.
 Ford, J. S., Pittsford.
 Fordon, G. F., Geneva.
 Foss, B. G., Dansville.
 Foster, E. B., Babylon.
 Foster & Griffith, Fredonia.
 Fremd, Charles, Rye.

G

Geisler, John, Geneva.
 George Bros., Penfield.
 Geraghty, John, Geneva.
 Gleavy, Geo. J., Penn Yan.
 Glen Bros., Rochester.
 Golden, M. H., & Co., Rochester.
 Goodspeed, C. M., Skaneateles.
 Gray, C. B., Albion.
 Graham, C. W., Afton.
 Graham Nursery Co., Rochester.
 Green, Chas. E., Canandaigua.
 Green's Nursery Co., Rochester.
 Green, O. D., Syracuse.
 Gregory, E. E., Penn Yan.
 Gregory, Hiram, Lockport.
 Grover, Frederick E., & Co., Rochester.
 Grover's Nursery Co., Rochester.
 Grodon, William, Geneva.
 Gurnsey, F. A., & Co., Schoharie.
 Gunson, L. P., & Co., Rochester.
 Gunson, R. J., & Co., Rochester.
 Gunther, Fred., Brighton.

H

Hakes, V., & Son, Ilion.
 Hall, L. W., Rochester.

Of the 467 nurseries examined 466 were entitled to certificates. Three of these did not desire a certificate as they were not selling stock. Certificates were immediately issued to the others. The owners or proprietors of nurseries in which San José scale was found to exist were notified of the fact and were requested to destroy the affected trees and to thoroughly clean the premises in such way as to rid the nursery of the infection. They complied, and a subsequent examination by the agents of this Department showed that the said nurseries were apparently free from the disease and certificates were accordingly issued, in the manner heretofore indicated. In the nurseries in which

San José scale was found on first inspection, unusual care and surveillance has been observed by our agents, that is, they have from time to time visited the nurseries and made examinations in search of the scale.

The nurseries in the state embraced 8,260 acres and contained 11,465,325 apple, 5,910,230 pear, 1,379,625 dwarf pear, 7,931,390 plum, 7,549,405 cherry, 4,838,210 peach, 684,260 quince, 340,500 apricot, 5,639,400 ornamental trees, 8,548,850 shrubs, 4,467,350 currants, 27,639,825 grape vines, 1,074,000 gooseberries, also 184 acres raspberries, 88 acres blackberries, 140 acres strawberries and 675 acres of vineyards.

Section 83 provides that all trees, plants, shrubs, buds, or cuttings, commonly called nursery stock, grown in any nursery in this State, in which San José scale has been found within two years of the date of dissemination of said nursery stock or grown within said State within one-half mile where said scale was found, and also all nursery stock from outside this State, disseminated or planted in this State after the first day of July, 1902, must be fumigated with hydrocyanic gas, in such manner as may be directed by the commissioner of agriculture. It further provides that such fumigation must be done by the grower, consignor or consignee of such stock before planting, dissemination or reshipment, except such trees, shrubs, plants, buds or cuttings grown in this State as are planted by the grower or propagator for himself, or such as from its nature or state of growth would be exempt.

In the work under the provisions of this statute, I have found some nurseries where I have been obliged to ask for fumigation. In each case the request for fumigation has been complied with. At this point, I will state that there are many nurseries in this State where the San José scale has not been found in the trees, but the nurserymen fumigate as a precaution against possibilities, so that fumigation is practiced to quite an extent by certain nurserymen of this State of their own volition as a precautionary measure.

Under the provisions of section 83 all transportation companies within this State receiving or carrying nursery stock from any point without the State to any point within the State shall imme-

diately, upon receiving such consignments notify the commissioner of agriculture of the fact that such consignment is in their possession, giving the name of the consignor and consignee, and the point of destination of such consignment.

This provision if lived up to would be a great help to this Department from the fact that it would enable the Department to do more work with the men and means at its command. Instead of having to do detective work to determine when trees were coming in, this notification would give information upon which an agent could go direct to a point of consignment to examine the trees when the original package was broken, to determine whether they were free from disease. I am pleased to report that the officials of the railroad companies in general have issued orders to their agents to observe the provisions of this law, by notifying this Department of such consignment, but I am sorry to also have to report that the agents in too many cases seemed to have neglected or entirely overlooked their instructions. The agents of this Department in making these examinations had to examine nursery stock consigned in 53 cars, 1,010 boxes, 228 bales, containing in all 529,620 fruit trees, 260,000 seedlings, 29,295 ornamental trees, 489,685 shrubs, 38,805 currants, 17,840 vines and 98,000 other plants. In the examinations thus made 35 shipments were found to be infested with San José scale.

The agents in this work have devoted as much time as possible, after the completion of their nursery work, in examining the orchards of the State to ascertain whether they were infested with insect pests or infectious diseases coming within the provisions of the statute. Their work has disclosed the following state of facts: They have examined 665 orchards during the year within the State, embracing 6,987 acres in which were 609,595 trees in the aggregate, namely, 99,445 apple, 79,645 pear, 13,825 dwarf pear, 41,975 plum, 364,600 peach, 5,755 cherry, 330 apricot, 4,020 quince, 121,365 currants, 15 acres of strawberries, 30 acres raspberries, 2 acres blackberries, 56 acres gooseberries and 38 acres vineyards.

They found 347 orchards with San José scale and 97 orchards infected with peach yellows and little peach.

Trees infested with San José scale have not in all cases been destroyed but have been treated by the owner or owners under instructions from, or surveillance of, agents of this Department. In this work we have found 78,450 trees which have been treated as indicated. All trees infected with peach yellows and little peach were destroyed; for these diseases 3,575 were burned.

The treatment recommended for orchards as a rule has been the application of various insecticides to check the spread of the scale and thereby save the trees. This has been deemed wise, not for the reason that the scale could be wholly eradicated but with such treatment it could be kept in subjection so as not to increase to any extent and that the damage to the trees would be so slight that they could be saved. The treatment for orchard trees was carried out with various formulas and, wherever done in a thorough and approved manner, the results so far as I have been able to ascertain are satisfactory. The tree and its fruit have been saved and a large proportion of the scales have been destroyed. A few scales probably have remained after treatment, not because insecticides were ineffective but because in some instances certain of the breeding females were not touched by the insecticide.

INSPECTION OF APIARIES.

Under the authority of section 80, article VI, I have employed four agents during the year as inspectors of apiaries as follows:

Wheeler D. Wright, Altamont, N. Y.

N. D. West, Middleburg, N. Y.

Charles Stewart, Sammons ville, N. Y.

Mortimer Stevens, Pennellville, N. Y.

The State was divided into divisions as follows, and the name and address of each agent or inspector is given with the counties under his charge:

First division.—Comprising the counties of Albany, Clinton, Columbia, Dutchess, Essex, Greene, New York, Putnam, Rensselaer, Saratoga, Schenectady, Warren, Washington, Westchester. Wheeler D. Wright, agent, Altamont, N. Y.

Second division.—Broome, Chenango, Delaware, Kings, Nassau, Orange, Otsego, Queens, Richmond, Rockland, Schoharie, Suffolk, Sullivan, Ulster. N. D. West, agent, Middleburg, N. Y.

Third division.—Allegany, Chemung, Cortland, Fulton, Hamilton, Herkimer, Madison, Montgomery, Oneida, Schuyler, Steuben, Tioga, Tompkins. Charles Stewart, agent, Sammons ville, N. Y.

Fourth division.—Cattaraugus, Cayuga, Chautauqua, Erie, Franklin, Genesee, Jefferson, Lewis, Livingston, Monroe, Niagara, Onondaga, Ontario, Orleans, Oswego, Seneca, St. Lawrence, Wayne, Wyoming, Yates. Mortimer Stevens, agent, Pennellville, N. Y.

Bees of New York State came through the winter and spring of 1905 in good condition, and the outlook at the beginning of the honey harvest was very flattering, as there was a profusion of bloom of all honey-producing plants, but owing to unfavorable weather conditions much less than a full crop was gathered. By active measures bee disease has been held well in hand, and those who suffered most are building up fine apiaries and feel correspondingly hopeful. There is a tendency among bee men within the diseased district who wish to sell bees to advertise them in the bee periodicals. Should these bees be thus sold, it would scatter disease to all parts of the State as well as to adjoining States. The shipment of such apiaries out of the diseased district has been stopped and much loss and trouble averted. A constant watch, however, must be maintained.

During the past season the number of apiaries inspected was as follows:

Apiaries	593
Colonies	30,919
Colonies diseased	1,127
Number of colonies condemned for treatment..	862
Number of colonies destroyed.....	183

In addition to the above work, much has been done for the honey producers by meeting with them at fairs and beekeepers' conventions, as well as by correspondence, which has helped materially to restore bee keeping to its old time prosperity.

The disease among bees which appeared in this State and which was so destructive as to drive the beekeepers out of business, about the year 1900, was given the name of "black brood" to distinguish it from a less virulent disease known as "foul brood," which is well known by bee keepers throughout the country. The

bacteriological investigations by Dr. V. A. Moore (see my last year's report) revealed the probability that what Dr. Howard called "black brood" is undoubtedly the "foul brood" known to Cheshire in England many years ago. What the disease commonly known as "foul brood" is, our bacteriologists are not now prepared to say.

Until these questions are fully determined we shall call the virulent form of bee disease "black-foul brood."

The following information on bee diseases and their treatment has been printed in pamphlet form for distribution:

BLACK OR FOUL BROOD.*

PREVALENCE.

The prevailing bee disease in this State is supposed to have originated in Schoharie county, among some bees bought of a party in Tennessee, about the year 1895, and has spread with such rapidity as to cause fearful havoc among the bees of that county, completely destroying many large apiaries. The infection has also extended to all of the adjoining counties and to other territory. The combined energy and perseverance of the inspectors and of all beekeepers in the infected districts will be necessary to abate this scourge.

CAUSE.

The disease is supposed to be caused by the presence of a specific germ or bacillus which develops in the larva, usually resulting in death in the larva or pupa stage.

APPEARANCE.

The healthy larva are of a pearly whiteness and lie curled around the bottom of the cells, but when attacked with this disease they change to a yellowish tint; dying, they settle down to the lower side of the cells and continue to grow darker in color until brown or black, emitting a sickening odor.

THE BACILLUS AND ITS SPORES.

Later in the life history of the bacilli spores are produced. These form the resting stage of the bacilli and may be compared to the seed of higher plants that are ready to germinate as soon

*Reference is made to an article on "Black Brood," by W. R. Howard, A. B., M. D., in "Gleanings in Bee Culture," February 15 and April 15, 1900, and to a treatise on "The Honey Bee" by Frank Benton, M. S., Bulletin No. 1, United States Department of Agriculture.

as they are placed in suitable ground. These spores are innumerable and cover to a greater or less extent the combs, frames and every portion of the inside of the hive, including honey and pollen; therefore, if any honey, comb, etc., come in contact with that which is healthy it will probably contract the disease. There is also great danger of contamination through robbing.

CAUTION.

It is hoped that beekeepers will realize the necessity of exercising great care in dealing with this disease. It should be as vigorously treated as a case of small pox or yellow fever in your own family, and it requires as thorough disinfection. Carelessness or negligence in handling or treating will be sure to cause the spread of the disease in your own and neighboring apiaries. Do not tolerate any very weak colonies in your apiary, as they are liable to be robbed out when honey is scarce in the fields. If they are diseased, the best and safest way will be to kill the few bees remaining, at evening, by brimstoning or placing pyrethrum (Persian insect) powder in the hive, and afterward burning the combs, frames, quilts, bees, etc. Dispose of all honey, combs, brood, etc., immediately after treating diseased colonies, or any that may have died, as you are never safe with any of these standing around. "Delays are dangerous," especially so in this case.

Always disinfect the hands, tools, etc., after handling infected colonies, by washing in a solution of carbolic acid, using one tablespoonful of pure acid, either liquid or crystals, to one quart of water; or a solution of corrosive sublimate may be used (one-eighth ounce dissolved in one gallon of water); the latter is probably the better disinfectant, but more destructive to metal and should be kept in earthen vessels.

MANAGEMENT.

Always treat the disease at evening or about sundown, using care that no stray bees enter healthy colonies. If you have good hives they may be saved and used again after thorough disinfection by one of the methods given, but in no case try to save any of the contents unless there is much honey or wax, which can be saved by cutting out and boiling thoroughly for one hour. It will be well to add a little water to the honey to prevent burning. Do all handling of honey, etc., under cover, where no bees can gain access to it. Do not buy any honey for feeding, as there is great danger of getting that which is infected; the sugar feed is safest. Do not exchange combs or supers from hive to hive in apiaries affected with the disease.

TREATMENT.

Good results have been attained in the past by treatments here given, and many badly diseased apiaries are nearly cured and the owners feel greatly encouraged and no longer fear the disease as they once did. The Italian race of bees is regarded more nearly immune than other races from this disease, and it is recommended that all apiaries in or dangerously near to diseased territory be Italianized.

The best time to effect a cure is during a honey flow at any time after the commencement of white clover bloom.

If stocks are weak to medium, unite a sufficient number to make them as strong as a good prime swarm.

In any treatment, when confinement of bees is prescribed, they may be placed in cheap, light boxes of sufficient size, say a bushel or more, or, if preferred, in the old hives before disinfection. Be sure that they are bee tight. Cover one of the largest sides with wire cloth. In re-hiving place them in new, clean or disinfected hives. The cheap boxes should be burned after you have finished your treatments.

In any of the several treatments herein given it is not necessary to use foundation starters in the primary treatment; when re-hiving the bees they may, if preferred, be placed upon starters instead of full sheets of foundation.

In rendering wax from diseased colonies never use a sun extractor, but subject to heat for one hour or more over the stove.

Some recommend as quite important the introduction of a new queen at the time the bees are removed from the old comb, caging the queen for several days; be sure that she is reared in a healthy colony, away from all infection, and she should be of the Italian race.

TREATMENT NUMBER ONE.

Shake all the bees off their combs, if in frame hives, or drum them out of box hives, and place them upon comb foundation starters, and cage the queen. After five days remove the starters and make them into wax at once by boiling or steaming (not with sun extractor), and give full sheets of foundation, keeping the queen caged five days longer. This will give time for all infected mature bees to have disappeared before any brood is reared.

TREATMENT NUMBER TWO.

Shake off or drum out all the bees of the diseased colony, place them in empty hives on the old stand for three or four days, then re-hive them in new disinfected old hives.

It is well and, perhaps, best to use frames containing foundation starters at the first, and full sheets at the last shaking, melting up the starters by boiling into wax. The old hive may be used without disinfection if desired at the first shaking. In treating colonies it is always safest to shade them for several days, from the direct rays of the sun, and to ventilate them well, as the bees will be less inclined to abscond. If desired, a queen excluder may be placed on the hive to retain the queen.

DISINFECTION OF HIVES.

METHOD NUMBER ONE.

Boil in water one hour or expose to superheated steam for same length of time.

METHOD NUMBER TWO.

Take an iron rod three or four feet long (a long stove poker or cleaner will answer) and wind a bunch of rags or cotton waste about one end, fastening with cord or wire. Saturate the rags or waste with gasoline, strike a match and drop it on the ground, then touch the rags to the burning match (take this precaution to avoid risk of accident in lighting torch, as this fluid is very explosive; also use great care in handling the liquid); or an asbestos torch saturated with kerosene oil may be used. Let one person hold the torch while another holds the hives in such a position as to scorch the entire inner surface.

METHOD NUMBER THREE.

Paint the entire inner surface of the hive with kerosene oil, fire the same and allow it to burn until the surface is blackened, then throw half a cup of water into the burning hive and quickly put a cover on, which will instantly extinguish the flames.

PARIS GREEN.

Article VIII (sections 110-114) of the Agricultural Law provides that Paris green, or any product analogous to it, when sold, offered or exposed for sale, shall contain at least fifty per centum of arsenious oxide; it also provides that every manufacturer of Paris green within this State, and every dealer in original packages manufactured outside of this State, before the Paris green is offered or exposed for sale or sold within this State, shall submit to the Commissioner of Agriculture the different brands of Paris green to be sold, and the number of pounds contained in each package in which it is put upon the market. It also pro-

vides that after such persons have filed such statement with the Commissioner of Agriculture he shall issue a certificate which will entitle the holder to deal in Paris green within this State, stating that he has complied with the foregoing statement, and any person failing to furnish such statement shall not be entitled to such certificate from the Commissioner of Agriculture. Under the provisions of this article, I have during the year issued certificates to the following manufacturers of Paris green within the State, namely :

A. B. Ansbacher & Co., New York.

Chas. M. Childs & Co., New York.

I. Pfeffer, New York.

Adler Chemical and Color Works, New York.

F. W. DeVoe & C. T. Reynolds, New York.

Fred L. Lavanburg, New York.

John Lucas & Co., New York.

Morris Herman & Co., New York.

Leggett & Bro., New York.

O. W. Clark & Son, Buffalo.

I have found no violations of this statute during the year.

AGRICULTURAL SOCIETIES.

The appropriations made by the Legislature for the promotion of agriculture to be distributed to agricultural societies were \$250,000 of which \$5,000 was appropriated by chapter 699 of the Laws of 1905, \$50,000 by chapter 200 of the Laws of 1906, and \$195,000 was appropriated by chapter 427 of the Laws of 1906. In addition to this there was a balance in the Comptroller's hands of \$30,172.41 making a total appropriation and balance of \$280,172.41.

Under the provisions of section 88 of the Agricultural Law relative to the distribution of moneys to agricultural societies, I have apportioned to the agricultural societies entitled thereto, the following amounts:

Albany County Agricultural Society and Exposition.	\$3,656 55
Allegany County Agricultural Society.....	1,293 02
Cuba Fair and Racing Association.....	3,970 10
Wellsville Fair Association.....	4,000 00
Broome County Agricultural Society.....	2,530 14

Binghamton Industrial Exposition.....	\$4,000 00
Cattaraugus County Agricultural Society.....	3,769 97
Franklinville Agricultural and Driving Park Association	3,110 78
Cayuga County Agricultural Society.....	3,353 79
Chautauqua County Agricultural Corporation.....	3,247 43
Chemung County Agricultural Society.....	4,000 00
Chenango County Agricultural Society.....	3,277 59
Afton Driving Park and Agricultural Association....	3,817 70
Riverside Agricultural Society.....	4,000 00
Clinton County Agricultural Society.....	2,900 92
Columbia County Agricultural Society.....	4,000 00
Columbia Agricultural and Horticultural Society....	1,727 70
Cortland County Agricultural Society.....	4,000 00
Delaware County Agricultural Society.....	2,895 95
Catskill Mountain Agricultural Society.....	1,627 36
Delaware Valley Agricultural Society.....	3,905 96
Deposit Fair Association.....	1,720 07
Dutchess County Agricultural Society.....	4,000 00
Erie County Agricultural Society.....	4,000 00
Essex County Agricultural Society.....	1,139 42
Franklin County Agricultural Society.....	4,000 00
Fulton County Agricultural Society.....	4,000 00
Genesee County Agricultural Society.....	3,947 44
Greene County Agricultural Society.....	2,155 45
Herkimer County Agricultural Society.....	1,883 15
Jefferson County Agricultural Society.....	4,000 00
Cape Vincent Agricultural Society.....	1,461 97
Lewis County Agricultural Society.....	2,747 34
Hemlock Lake Union Agricultural Society.....	2,062 70
Brookfield-Madison County Agricultural Society.....	1,235 85
Monroe County Agricultural Society.....	3,667 45
Montgomery County Agricultural Society.....	3,177 29
American Institute of the City of New York.....	3,729 50
Niagara County Agricultural Society.....	3,711 88
Oneida County Agricultural Society.....	2,406 01
Boonville Fair Association.....	2,535 13
Onondaga County Fair Association.....	2,864 12
Ontario County Agricultural Society.....	2,864 22

Gorham Agricultural Society.....	\$957 84
Naples Union Agricultural Society.....	1,424 60
Orange County Agricultural Society.....	4,000 00
Orleans County Agricultural Society.....	2,198 44
Oswego County Agricultural Society.....	4,000 00
Sandy Creek, Richland, Orwell and Boylston Agri- cultural Society.....	3,128 25
Otsego County Agricultural Society.....	3,235 72
Morris Fair Association.....	3,833 73
Oneonta Union Agricultural Society.....	3,990 42
Richfield Springs Agricultural Society.....	1,013 85
Schenevus Valley Agricultural Society.....	2,202 57
Putnam County Agricultural Association.....	1,170 55
Agricultural Society of Queens-Nassau Counties.....	4,000 00
Agricultural and Liberal Arts Society of Rensselaer County	3,746 93
Rensselaer County Agricultural and Horticultural Society	2,498 44
Richmond County Agricultural Society.....	670 38
Rockland County Agricultural and Horticultural Society	4,000 00
Rockland County Industrial Association.....	3,622 66
St. Lawrence County Agricultural Society.....	2,419 04
Gouverneur Agricultural and Mechanical Society....	1,903 65
Oswegatchie Agricultural Society.....	1,942 54
Racquette Valley and St. Regis Valley Agricultural Society	3,163 47
Saratoga County Agricultural Society.....	3,042 13
Schoharie County Agricultural Society.....	4,000 00
Cobleskill Agricultural Society.....	3,766 53
Schuyler County Agricultural Society.....	2,989 22
Seneca County Agricultural Society.....	2,268 59
Steuben County Agricultural Society.....	3,813 93
The Hornellsville Fair.....	4,000 00
Prattsburgh Union Agricultural Society.....	2,294 39
Southern Steuben Agricultural Society.....	618 43
Sullivan County Agricultural Society.....	3,083 95
Tioga County Agricultural Society.....	3,575 51
Northern Tioga Agricultural Society.....	2,680 46

Tompkins County Agricultural and Horticultural Society	\$2,814 94
Dryden Agricultural Society.....	4,000 00
Union Agricultural and Horticultural Society.....	4,000 00
Ulster County Agricultural Society.....	3,529 52
The Warren County Fair.....	2,208 80
Washington County Agricultural Society.....	3,786 58
Cambridge Valley Agricultural Society and Stock-Breeders' Association.....	4,000 00
Wayne County Agricultural Society.....	3,617 92
Newark Fair Association.....	3,037 67
Palmyra Union Agricultural Society.....	2,187 30
The Society of Agriculture and Horticulture of Westchester County.....	4,000 00
Wyoming County Agricultural Society.....	2,421 38
Silver Lake Agricultural and Mechanical Association.	3,035 01
Yates County Agricultural Society.....	3,287 03
Dundee Fair Association.....	1,903 96

STATISTICS.

The Agricultural Law was amended by the legislature of 1905 by the addition of a new article known as Article XIV thereof, to read as follows:

ARTICLE XIV.

AGRICULTURAL STATISTICS.

Section 190. Collection and dissemination of statistics.

191. Information to be furnished by supervisors.

Section 190. Collection and dissemination of statistics.—The commissioner of agriculture may collect and disseminate such information relative to agriculture, and agricultural labor within the state, as he may deem wise for the purpose of promoting agricultural production within this state.

Section 191. Information to be furnished by supervisors.—Supervisors of the different towns and wards in this state shall furnish to the commissioner of agriculture upon request from him, upon blanks to be furnished by the said commissioner, such information as may be in their possession or may be obtained by them relative to agriculture, agricultural production and agricultural labor within their respective towns or wards. Such information to be furnished to said commissioner within thirty

days from the time it is asked for. The expense incurred by the several supervisors in furnishing such information shall be a town charge to be paid in the manner now provided by law for the payment of services and disbursements by such supervisor.

Section 2. This act shall take effect immediately.

The appropriation for the work intended to be done under this law became available June 5, 1905, and the preliminary work necessary to carry the law into effect was immediately begun. The collection of information and statistics relating to the condition of agriculture, agricultural lands and agricultural labor in the State was properly the first work taken up. The following blank was prepared and sent to the 975 supervisors of the different towns in the State, upon which to make reports covering all points necessary to give good descriptions of the cheap and unoccupied farms for sale throughout the State:

County	Town
Name of, and distance from, nearest postoffice.....	
.....	
If rural free delivery, No. of route.....	
Railway station	Distance from
Name of owner and address.....	
Number of acres.....	
Nature and quality of soil.....	
Acres meadow	Acres pasture Timber
House, size and condition.....	
.....	
Barns and outbuildings, size and condition.....	
.....	
How watered	
Fences, kind and condition	
.....	
Price	
Terms	
Remarks	
.....	
.....	
.....	

.....
(Supervisor's Signature.)

A copy of the law and the following circular letter were also enclosed in explanation of the matter to be furnished the Department by the supervisors, and requesting their prompt compliance with the law:

STATE OF NEW YORK:

DEPARTMENT OF AGRICULTURE.

Charles A. Wieting, *Commissioner*.

ALBANY, N. Y., *June 20, 1905.*

Dear Sir.—You will find enclosed herewith blanks to be filled out by you in pursuance of chapter 243 of the Laws of 1905, a copy of which is enclosed. This Department desires that this information be as full and accurate as possible so that it will be in proper shape for publication and distribution, with the idea of attracting people who are looking for land to devote to various agricultural and horticultural purposes, and for summer homes for city people. The Department also hopes to assist in securing agricultural laborers to relieve the serious difficulty farmers are having in obtaining the labor necessary to conduct their farms. Your assistance is cordially invited in this work and we hope you will enlist in the good cause as many of your citizens as possible. Many of our city residents are looking for farms and the cry is “Back to the land.” Many people in other states are looking with covetous eyes toward the low-priced farms in our State and thousands of English, German, Swede and other good laborers are looking for homes. Kindly state for what branch of agriculture each farm is best adapted and give a brief description of the streams, lakes, mountains and other natural scenery in that vicinity. Also state about how many foreign farm laborers are now employed in your town and about how many more can find profitable employment there.

Very respectfully yours,

.....

Assistant Commissioner.

A circular letter was also sent to each of the 700 active granges in the State, calling their attention to the work contemplated and inviting their co-operation and assistance both to the supervisors and to the Department, as follows:

STATE OF NEW YORK:

DEPARTMENT OF AGRICULTURE.

Charles A. Wieting, *Commissioner*.ALBANY, N. Y., *July 1, 1905.*

Dear Sir.—The census of 1900 shows that the farms in New York State have decreased in value \$168,000,000 since 1880, while the farms of Iowa have increased \$1,100,000,000, and in Minnesota, Kansas, Nebraska and Missouri \$500,000,000 each. The same census shows the decrease of the number of farms in the State of New York during the same period to be 15,000. Whether this decrease in number is due to the fact of abandonment or to the fact that small farms have been united into large ones, is not stated. Just what the reason is for the decrease in the value of farms in the State of New York during that period is not stated. It is, however, quite evident that the taste for farming in the State of New York has been lessened to a considerable extent by different causes, not the least among which has been the difficulty of procuring help, to say nothing about suitable help, for cultivating the land. This fact has been recognized not only by those directly interested in cultivating the land but by those interested in having the land in this State cultivated and having the land values as gauged by production kept up. This feeling or desire has finally culminated in an act by the Legislature, known as chapter 243 of the Laws of 1905, a copy of which is herewith enclosed. This chapter as you will see is an amendment to the Agricultural Law of the State of New York and is known as Article XIV of that law. It is to be enforced by the Commissioner of Agriculture of this State. This communication is being sent out for the purpose of interesting your body in the attempts that are to be put forth to secure a good class of farm laborers from among the immigrants constantly coming to our shores. For this reason we are writing you in order that you may be apprised of the movement that is on foot, and to the end that you may take such action as to you may seem desirable relative to the matter. If you need farm help within the range of your grange, the Commissioner of Agriculture would be pleased to hear from you to that effect and to receive intimations from you as to the number desired. We should also be pleased to know what if any action your grange will take relative to assisting any immigrants that may be turned in your direction, in getting work and in caring for them or in seeing that they are suitably cared for until such time as they can procure work. With the co-operation of the granges of the State of New York the Commissioner of Agriculture feels that he may

be enabled, under this statute, to do much toward helping to solve the farm labor problem, which is now such a handicap to the agriculturist. Letters have been sent out to the supervisors requesting certain information from them relative to farm lands within their respective towns or wards, particularly as to farms that are abandoned or partially abandoned, to the end that immigrants who may be intending purchasers may be posted as to places that can be most reasonably obtained. Any information that your grange may give your supervisor relative to these matters ultimately will assist the Commissioner of Agriculture in his attempts along this line.

Very respectfully yours,

.....

Assistant Commissioner.

It was the intention to secure information concerning only those farms that were practically unoccupied and upon which the soil was sufficiently productive to make them susceptible of profitable cultivation. The supervisors' reports in most cases came in slowly, and many of them covered practically all farms for sale in their towns, as well as the general conditions of agriculture and agricultural labor. Many of the higher priced farms, owing to the lack of agricultural laborers to properly cultivate them, and in many instances the advanced ages of the owners, rendering them unfit for the strenuous occupation of the agriculturist, are producing but a small proportion of the products of which they are capable; it was, therefore, considered proper to include descriptions of them in the first bulletin issued.

Much interest has been shown in this work by the press and by the people generally, as indicated by the numerous inquiries from people desiring to purchase or rent farms of all kinds, and which indicates that not only is there a desire on the part of the people to invest in agricultural lands, but especially is this true of those residing in the cities. Many inquiries of this nature were received from people of other states, and especially of western states, who state that the price of lands in their immediate vicinity has advanced to such figures in the last few years that they have become practically prohibitive to the man of ordinary means. Also many inquiries have been received from foreign countries requesting information on all lines of agriculture and agricultural

labor. In many sections of the State, especially through the central portion, large numbers of farms are reported as being unoccupied and for sale at prices ranging from \$10 to \$25 per acre, upon which are good improvements in the way of buildings, fences, water and other necessary adjuncts to make them capable of profitable cultivation, and as homes both for people desiring to engage in the pursuit of agriculture, or for those desiring a home for their families during the summer months. These farms are especially adapted to dairying, stock, grain, fruit and poultry raising, and are largely located within reasonable and easy distances of lines of transportation upon which their products can be transported to markets where good and remunerative prices are always to be obtained.

Much information concerning these farms has already been disseminated, and a bulletin is now being issued which contains descriptions of some 1,700 of them, and which also gives a description of the work and the conditions of agriculture prevailing in this State. This bulletin will be distributed largely throughout the United States and foreign countries, and it is hoped that it will be a means of inducing a large number of people to occupy and cultivate farms in this State.

The value of agricultural products in this State was, according to the census of 1900, \$275,000,000. New York has not kept pace with many other states in this branch of industry. Agricultural production in the United States was in 1880, \$2,212,000,000; in 1905, \$6,415,000,000, an increase of \$4,203,000,000. Agricultural lands in New York State have constantly declined in value during the last 25 years at an average rate of seven and one-half millions annually, showing a total depreciation during that period of \$182,500,000. During the same period the farms in the United States increased \$10,000,000,000 in value.

It is the opinion of the Commissioner of Agriculture that this amount, by intelligent and proper cultivation of the soil, can be largely increased during the next few years. The study of agricultural questions by our experiment stations, and the College of Agriculture at Cornell University, are doing much in disseminating information that is of incalculable benefit to the agriculturists of the State. This work should be encouraged by all proper methods, as its value will constantly increase. Agri-

cultural education tends to elevate and make the farmer more contented with his calling.

The number of dairy cows kept in the State, as reported by the census of 1900, is 1,501,000. The great demand for milk and dairy products, especially the quantity necessary to supply New York city, has broadened the area drawn upon until now it reaches St. Lawrence county on the north and Steuben county on the west, and has probably led to an increase of some 200,000 in the above figures. Poultry, stock raising, fruit and vegetable farming are also especially profitable throughout the State, and some of the lands especially adapted to fruit raising along the lakes and in central New York have almost doubled in value during the last decade. The cheaper lands found in large bodies in some portions of the State offer opportunities to those wishing to engage in the raising of live stock that are probably unexcelled, all things considered, by any other section of this country.

The labor question is the most serious part of the problem. It is largely owing to the difficulty in procuring agricultural labor that the sons and daughters of the agricultural regions of the State have so largely deserted the farms, and to this we can also attribute the great development in all lines of industry, such as mercantile, transportation, manufacturing and also to the great works now being prosecuted by the municipalities of the State, and the State and national governments and the settlement of the west. These causes have led 1,300,000 people born in New York State to take their residence in other states of the Union; this great number having been drawn largely from the farm.

The efforts of many States, land companies, steamship and railway companies have been largely in the direction of inducing the immigrant to take up his residence in the far west or in Western Canada, while some few have made their homes in the South. New York State is credited during the past year by the immigration authorities as having received 315,511 of the 1,026,499 immigrants who landed in this country. These people furnished few agriculturists or agricultural laborers to the State, most of them coming from Southern Europe and colonizing largely in the city of Greater New York.

The increase in population of New York State during the last five years was 798,000, of which 577,000 is credited to Greater New

York. It seems difficult to induce the immigrant to go into the country and engage in agricultural pursuits. Few of these people understand the English language or are familiar with our ways and institutions, and it is feared that in times of industrial depression, such as have visited this country at frequent periods, a great amount of hardship and suffering will occur amongst them. If these people could be induced in large numbers to go out into the agricultural sections of the State, it would remove them from branches of industry that are already overcrowded; they would very soon become self-supporting, interested in their surroundings and the affairs of the community in which they reside and make of themselves and their children good American citizens. New York city supports, by public charity, some 20,000 people, while the hand of private charity is always open to assist the unfortunate, and this is a great burden upon the thrift and resources of the people of that city. It would be not only a work of philanthropy, but a profitable investment as well, for the capitalist to invest in tracts of farm lands in this State that are sufficiently contiguous to each other to bring the occupants into close relations to each other, and thereby prevent homesickness and discontent.

This Department will disseminate information in regard to lands that are situated in suitable localities for this work that have upon them buildings and other improvements, in the hope that its efforts will be seconded by those interested in such a movement. Efforts are being made which promise to be successful to induce those interested in immigration matters to assist in the work of inducing a large number of the immigrants who come from agricultural sections in Europe to make their homes in New York State. The following figures cover the number of arrivals in each year since 1892 of those who expressed their intention of becoming citizens of New York State, together with the number and percentage of each nationality of those who arrived in 1905. These figures show that of those who landed in New York and whose destination was New York State, but four-tenths of one per cent were farmers, while nine per cent gave their occupation as farm laborers but nearly all of whom engaged in other pursuits.

NUMBER OF IMMIGRANTS WHO ARE SUPPOSED TO
HAVE SETTLED IN NEW YORK STATE
FROM 1892-1905.

Year.	Number.
1892.....	242,668

Fifty years ago the cultivation of the soil of England provided employment for fully one-third of the population of 19,000,000 souls, but in the time which has since elapsed the number of people engaged in the cultivation of the land, or in work on the farms, has decreased 2,294,000, while the population has increased about 15,000,000. At present 21,000,000 acres of land are lying waste in Great Britain. The tendency at the present time in New York State seems to be to follow on the lines of that in the old countries.

As shown by the following census tables of 1905, it will be seen that the towns throughout the agricultural sections of the State have steadily lost in population, many of them showing a decrease of seven per cent. during the last five years, and an average of about five per cent. This would indicate a decrease of about 20,000 people from the 375,000 engaged in agricultural pursuits in the census year of 1900. In these reports the towns in each county are given, many of which include large villages which show a large growth in population, while but very few of the villages show a decrease from the figures of 1900.

Usually large numbers of laborers come to this country during the late winter and early spring months, and the Department is informed that this will probably be the case during the present season, and efforts will be made to secure a large number of these people for this State. Probably 50,000 can find remunerative employment on the 226,421 farms in this State; this will be less than one man for each four farms, which it would seem is a very low estimate of the number needed.

The following census table taken from the report of the State census for 1905 shows the population of various towns, counties and cities of the State for 1905. The comparison is made with the United States census of 1900, and the increase or decrease is shown. In the census of 1900 inmates of institutions were credited to the towns in which such institutions were located but the census of 1905 credits such inmates to the towns from which they originally came. These reports show a very decided and startling decrease in nearly every town in the State, not containing a large village.

Efforts have been made to assist the agriculturist in securing sufficient labor to properly conduct the farming operations in the State, and many good laborers have been secured and sent to various sections of the State. The Assistant Commissioner in New York has had the work along this line in that city in charge, and has, through advertising, had a large number of applicants for the positions offered, but has found that very few of those who apply were in any way fitted to go into the country and become satisfactory farm laborers. The following circular was issued and is sent to those asking for information on the subject:

STATE OF NEW YORK:

DEPARTMENT OF AGRICULTURE.

Charles A. Wieting, *Commissioner*.

George L. Flanders, *First Assistant Commissioner*.

BUREAU OF STATISTICS AND INFORMATION OF LAND AND LABOR.

This bureau is maintained for the purpose of collecting information in regard to agricultural lands for sale or lease, and the needs of agriculturalists for laborers, and to disseminate the same in such manner as is thought best to attract the attention of purchasers to such places, and to assist in securing such laborers as will be needed by agricultural producers.

Blanks will be forwarded upon application to this bureau for listing such farm property as is for sale or lease upon reason-

able terms, that can be profitably cultivated and with moderate expense made into comfortable homes.

1. Requests for assistance in securing agricultural laborers will be received by this bureau, and such assistance as possible will be promptly given.

2. No charge for services of this bureau will be made.

3. Any such application of employers should give full description of labor required, the nationality preferred and the rate of wages proposed.

4. Employers must in all cases provide the railroad or other fare of the employees to their respective destinations.

5. Money for this purpose may be sent to this bureau in bank drafts or postoffice money orders, payable to Charles A. Wieting, Commissioner of Agriculture, Albany, New York.

6. When means sufficient to pay traveling expenses is sent to this office we will endeavor to secure the employee and promptly start him on his journey, otherwise the money will be returned to the sender.

7. This department does not make contracts, it does not fix rate of wages, nor time of service, nor prescribe any conditions of contract, it leaves all of these matters to be settled by the voluntary agreement of the parties interested; but assists only in giving information and advice to secure the arrival of employees where possible.

8. Employees' baggage will be checked to their respective destinations and checks sent to employer by mail; when this is not feasible, baggage will be sent by express to employer.

Due diligence will be used to expedite all requests for laborers; but employers are made aware that delays may unavoidably occur either through increased demand, advancing wages beyond rate fixed by employer, the decrease in supply or the difficulty of securing suitable persons.

9. The department would advise that you send your requests at least ten days before you need the laborer.

.....,

Assistant Commissioner.

Albany, N. Y., August 20, 1905.

BUREAU OF FARMERS' INSTITUTES.

The Bureau of Farmers' Institutes is an educational branch of the Department work. Its work is to gather the latest and most reliable information, from a scientific standpoint, bearing upon the production of agricultural products, and to deliver that information at the institutes to the different farmers and farmers' wives who may gather there for that purpose. The institutes

are from one to three days in length, and are designed to reach a class of people who cannot attend the agricultural schools or colleges. Twenty thousand dollars has been appropriated annually for eight years past by your Honorable Body, so that the work along this line is confined within the limits of the possibility of the expenditure of that amount of money. We have endeavored to procure the best and most practical men for this institute work, and to get the greatest number of lectures from each one for the amount of money paid him.

During the year there have been held within the State of New York 235 regular institutes, 15 special bee-keepers' institutes, and 2 normal institutes, a total of 252. They have been held in 53 different counties.

The results of the institute work are noticeable in every hamlet in the State of New York. This work has been going on for 18 years. Since the time this work was commenced the improvements are noticeable particularly in dairying, in forage crops, in the feeding of and caring for livestock, in the care of bees and production of honey, and in the promotion of the fruit industry of the State. There can be, in my mind, no wiser expenditure of money, in reasonable sums, for the promotion of agricultural interests, than through this institute work.

AGRICULTURAL LAW.*

CHAPTER 338.

AN ACT in relation to agriculture, constituting articles one, two, three, four and five of chapter thirty-three of the general laws.

Approved by the Governor April 10, 1893. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly do enact as follows:

CHAPTER XXXIII OF THE GENERAL LAWS.

THE AGRICULTURAL LAW.

- Article 1. General provisions. (§§ 1-12.)
2. Dairy products. (§§ 20-37.)
3. Adulterated vinegar. (§§ 50-53.)
4. Diseases of domestic animals. (§§ 60-70g.)
5. Sugar beet culture. (§§ 71-76.)
6. Miscellaneous provisions. (§§ 77-92.)
7. Laws repealed. (§§ 100, 101.)
8. Prevention of fraud in sale of Paris green. (§§ 110-114.)
9. Sale and analysis of commercial feeding stuffs. (§§ 120-127.)
10. State fair. (§§ 140-146.)
11. Sale, adulteration or misbranding of food and food products. (§§ 164, 165.)
12. Sale and analysis of commercial fertilizers. (§§ 175-179.)
13. Prohibiting the sale of adulterated evaporated apples. (§§ 185, 186.)
14. Agricultural statistics. (§§ 190, 191.)
15. Turpentine, linseed oil, et cetera. (§§ 200-203.)

ARTICLE I.

GENERAL PROVISIONS.

- Section 1. Short title.
2. Commissioner of agriculture.
3. Power of commissioner, his assistants and employes.
4. Expert butter and cheesemakers.
5. Annual report.

* Chapter 338 of the Laws of 1893 consisted of five articles. Articles four to fifteen have been enacted since April 10, 1893, and were not, therefore, a part of the original law

Section 6. Certificate of chemist presumptive evidence.

7. Evidence; principal's liability for acts of agent.
8. Prosecution for penalty.
9. Disposal of fines and moneys recovered.
10. When injunction may be obtained.
11. When prosecution shall not be compelled to elect.
12. Inspection, how conducted.

Section 1. Short title.—This chapter shall be known as the agricultural law.

§ 2. Commissioner of agriculture.—There shall be a department of the state government known as the department of agriculture, which shall be charged with the execution of the laws relating to agriculture and agricultural products. The commissioner of agriculture shall be the chief of the department. The New York state dairy commissioner shall be the commissioner of agriculture until his successor shall be appointed and qualified. The commissioner of agriculture shall be appointed by the governor, by and with the advice and consent of the senate. His term of office shall be three years. He shall be paid an annual salary of four thousand dollars and his necessary expenses not to exceed five hundred dollars, incurred in the discharge of his official duties. He may appoint a director of farmers' institutes and such clerks and assistant commissioners and employ such clerks, chemists, agents and counsel as he may deem necessary for the proper enforcement of such laws and the proper administration of the department, who shall receive such compensation as may be fixed by him and their necessary expenses. The compensation of his clerks, assistants and other persons employed by him and such necessary expenses shall be paid on his certificate by the treasurer on the warrant of the comptroller. All other charges, accounts and expenses of the department authorized by law shall be paid by the treasurer on the warrant of the comptroller, after they have been audited and allowed by the comptroller. The trustees of public buildings shall furnish suitable rooms for the use of the department in the new capitol.

§ 3. Powers of the commissioners,* his assistant and employes.—The commissioner of agriculture, his clerks, assistants, experts, chemists, agents and counsel employed by him, shall have full access to all places of business, factories, farms, buildings, carriages, cars and vessels used in the manufacture, sale or transportation within the state of any dairy products or any imitation thereof, or of any article or product with respect to which any authority is conferred by this chapter on such commissioner. They may examine and open any package, can or vessel containing or believed to contain any article or product, which may be manufactured, sold or exposed for sale in violation of the provisions of this chapter, and may inspect the contents therein, and take therefrom samples for analysis.

§ 4. Expert butter and cheesemakers.—The commissioner of agriculture may appoint and employ not more than five expert butter and cheesemakers, who shall, under his discretion, examine and inspect butter and cheese factories and attend at agricultural fairs, societies and meetings designated by the commissioner, to impart thereat information as to the best and most approved method of making butter and cheese and improving the quality thereof.

§ 5. Annual report.—The commissioner of agriculture shall make an annual report to the legislature on or before January fifteenth, of his work and proceedings for the year ending September thirtieth, next preceding, which shall include a statement in detail of the number of assistant commissioners, chemists, experts, agents, and counsel employed under the provisions of this chapter during such year, and their compensation, expenses and disbursements; and also a statement in detail of the expenditures of moneys appropriated for the state agricultural society, the county agricultural societies and the New York agricultural experiment station; and other agricultural purposes and estimates of the amounts required for all such purposes for the ensuing year. He may require the state agricultural society

* So in the original.

and the county agricultural societies to make reports to him and prescribe the form of such reports.

§ 6. Certificate of chemist presumptive evidence.—Every certificate, duly signed and acknowledged, of a chemist, analyst, or other expert employed by the commissioner of agriculture or any analysis, examination or investigation made by such analyst, chemist or expert with respect to any matter or product which the commissioner has authority to examine or cause to be examined, shall be presumptive evidence of the facts therein stated.

§ 7. Evidence; principal's liability for act of agent.—The doing of anything prohibited by this chapter shall be evidence of the violation of the provisions of this chapter relating to the thing so prohibited and the omission to do anything directed to be done shall be evidence of a violation of the provisions of the chapter relative to the thing so directed to be done. The intent of any person doing or omitting to do any such act is immaterial in any prosecution for a violation of the provisions of this chapter. Any person who suffers, permits or allows any violation of the provisions of this chapter by his agent or servant, or in any room or building occupied or controlled by him, shall be deemed a principal in such violation and liable accordingly.

§ 8. Prosecution for penalties.—Whenever the commissioner of agriculture shall know or have reason to believe that any penalty has been incurred by any person for a violation of any of the provisions of this chapter, or that any sum has been forfeited by reason of any such violation, he may cause an action or proceeding to be brought in the name of the people for the recovery of the same.

§ 9. Disposal of fines and moneys recovered.—One-half of all money recovered, either as penalties, forfeitures or otherwise, for the violation of any of the provisions of this chapter, and from fines imposed as a punishment for any criminal offense

committed in violation of the provisions of this chapter, or of the penal code relating to the punishment of criminal offenses committed in violation of the provisions of law for the prevention of frauds in the manufacture or sale of any of the articles or products to which this chapter relates, shall be paid by the court or the clerk thereof to the city or county where the recovery shall be had or fine collected for the benefit of the poor of such city or county, except in the city and county of New York and the city of Brooklyn, where the same shall be paid to the proper authorities, and equally divided by them between the pension funds of the police and fire departments. The residue of such moneys shall be paid into the treasury of the state, and paid out by the treasurer, upon the warrant of the comptroller, for the purpose of defraying the expenses of the department of agriculture, audited by the comptroller. The same disposal shall be made of all moneys recovered upon any bond given by any officer by virtue of the provisions of this chapter.

§ 10. When injunctions may be obtained.—In an action in the supreme court for the recovery of a penalty or forfeiture incurred for the violation of any of the provisions of this chapter an application may be made on the part of the people to the court or any justice thereof for an injunction to restrain the defendant, his agents and employes from the further violation of such provisions. The court or justice to whom such application may be made, shall grant such injunction on proof, by affidavit, that the defendant has been guilty of the violations alleged in the complaint, or of a violation of any such provision subsequent to the commencement of the action, and in the same manner as injunctions are usually granted under the rules and practice of the court. No security on the part of the plaintiff shall be required, and costs of the application may be granted or refused in the discretion of the court or justice. If the plaintiff shall recover judgment in the action for any penalty or forfeiture demanded in the complaint, the judgment shall contain a permanent injunction, restraining the defendant, his agents

and employes, from any further violation of such provision of this chapter. Any injunction, order or judgment obtained under this section may be served on the defendant by posting the same upon the outer door of the defendant's usual place of business, or where such violation was or may be committed, or in the manner required by the code of civil procedure, and the rules and practice of the court. Personal service of the injunction shall not be necessary when such service cannot be secured with reasonable diligence, but the service herein provided shall be deemed sufficient in any proceeding for the violation of such injunction.

§ 11. When prosecution shall not be compelled to elect.—In an action for a penalty or forfeiture incurred by reason of the violation of the provisions of this chapter, when the complaint charges a violation of any two or all of such provisions, the plaintiff shall not be compelled to elect between the counts under such different provisions, but shall be entitled to recover if it is found that a violation of any one of such provisions has been committed for which a penalty or forfeiture is imposed.

§ 12. Inspection, how conducted.—When the commissioner of agriculture, an assistant commissioner, or any person or officer authorized by the commissioner, or by this chapter, to examine or inspect any product manufactured or offered for sale shall in discharge of his duties take samples of such product, he shall before taking a sample, request the person delivering the milk or who has charge of it at the time of inspection, to thoroughly stir or mix the said milk before the sample is taken. If the person so in charge refuses to stir or mix the milk as requested, then the person so requesting shall himself so stir and mix the milk before taking the sample, and the defendant shall thereafter be precluded from introducing evidence to show that the milk so taken was not a fair sample of the milk delivered, sold, offered or exposed for sale by him. The person taking the sample of milk for analysis shall take duplicate samples thereof

in the presence of at least one witness, and he shall in the presence of such witness seal both of such samples, and shall tender, and, if accepted, deliver at the time of taking one sample to the manufacturer or vendor of such product, or to the person having custody of the same, with a statement in writing of the cause of the taking of the sample. In taking samples of milk for analysis at a creamery, factory, platform or other place where the same is delivered by the producer for manufacture, sale or shipment, or from a milk vendor who produces the milk which he sells, with a view of prosecuting the producer of such milk for delivering, selling or offering for sale adulterated milk, the said commissioner of agriculture or assistant or his agent or agents shall within ten days thereafter, with the consent of said producer, take a sample in a like manner of the mixed milk of the herd of cows from which the milk first sampled was drawn and shall deliver the duplicate sample to the said producer and shall cause the sample taken by himself or his agent to be analyzed. If the sample of milk last taken by the commissioner of agriculture or his agent or agents shall upon analysis prove to contain no higher percentage of milk solids, or no higher percentage of fat than as the sample taken at the creamery, factory, platform or other place, then no action shall lie against the said producer for violation of subdivisions one, two, three, seven and eight of section twenty of the agricultural law. In taking a second sample as above set forth from the mixed milk of the herd, it shall be the duty of the commissioner of agriculture to have an assistant, agent or agents present during the entire time in which the said cattle are being milked to observe closely so as to be sure that the milk thus to be sampled is not adulterated and to see that it is thoroughly mixed so that the sample taken shall be a fair sample of the average quality of the mixed milk of the entire dairy or herd of cows of said producer. If, however, the said producer refuses to allow such examination of the milk produced by his dairy then he shall be precluded from offering any evidence whatever tending to show that the milk delivered by him at the said creamery, factory, platform or

other place was just as it came from the cow. If the said producer does permit such examination the commissioner of agriculture shall, upon receiving application therefor, send to said producer a copy of the analysis of each of the samples of milk so taken and analyzed as above provided. (*As amended by chapter 557 of the Laws of 1898.*)

ARTICLE II.

DAIRY PRODUCTS.

Section 20. Definitions.

21. Care and feed of cows.
22. Prohibition of the sale of adulterated milk.
23. Regulations in regard to butter and cheese factories.
- 23a. Penalty for delivery of adulterated milk.
24. Cans to be branded with name of county.
25. Regulations in regard to condensed milk.
26. Manufacture and sale of imitation butter prohibited.
27. Manufacture or mixing of animal fats with milk, cream or butter prohibited.
28. Prohibited articles not to be furnished for use.
29. Use of coloring matter prohibited.
30. Manufacture and sale of imitation cheese prohibited.
31. When prohibitions do not apply to skim milk or skim cheese.
32. Unclean receptacles and places for keeping milk; notice to violators of provisions.
33. Manufacturers' brand of cheese.
34. Use of false brand prohibited.
35. County trade-marks.
36. Object and intent of this article.
37. Penalties.

Section 20. Definitions.—The terms, butter and cheese, when used in this article, mean the products of the dairy, usually known by those terms, which are manufactured exclusively from pure, unadulterated milk or cream or both, with or without salt or rennet, and with or without coloring matter or sage. The terms oleomargarine, butterine, imitation butter or imitation cheese, shall be construed to mean any article or substance in the semblance of butter or cheese not the usual product of the dairy, and not made exclusively of pure and unadulterated milk or cream, or any such article or substance into which any oil,

lard or fat not produced from milk or cream enters as a component part, or into which melted butter or butter in any condition or state, or any oil thereof has been introduced to take the place of cream. The term, adulterated milk, when so used, means:

1. Milk containing more than eighty-eight per centum of water or fluids.
2. Milk containing less than twelve per centum of milk solids.
3. Milk containing less than three per centum of fats.
4. Milk drawn from cows within fifteen days before and five days after parturition.
5. Milk drawn from animals fed on distillery waste or any substance in a state of fermentation or putrefaction or on any unhealthy food.
6. Milk drawn from cows kept in a crowded or unhealthy condition.
7. Milk from which any part of the cream has been removed.
8. Milk which has been diluted with water or any other fluid, or to which has been added or into which has been introduced any foreign substance whatever.

All adulterated milk shall be deemed unclean, unhealthy, impure and unwholesome. The terms, pure milk or unadulterated milk, when used singly or together, mean sweet milk not adulterated, and the terms pure cream or unadulterated cream, when used singly or together mean cream taken from pure and unadulterated milk.

§ 21. Care and feed of cows.—No person shall keep cows, for the production of milk for market or for sale or exchange, or for manufacturing the milk or cream from the same into any article of food, in a crowded or unhealthy condition, or feed any such cows on distillery waste or on any substance in the state of putrefaction or fermentation, or upon any food that is unhealthy or that produces impure, unhealthy, diseased or unwholesome milk. But this section shall not be construed to prohibit the feeding of ensilage.

§ 22. Prohibition of the sale of adulterated milk, imitation cream and regulating the sale of certified milk.—No person shall sell or exchange, or offer or expose for sale or exchange, any unclean, impure, unhealthy, adulterated or unwholesome milk or any cream from the same, or any unclean, impure, unhealthy, adulterated, colored, or unwholesome cream, or sell or exchange, or offer or expose for sale or exchange, any substance in imitation or semblance of cream, which is not cream, nor shall they sell or exchange, or offer or expose for sale or exchange any such substance as and for cream, or sell or exchange or offer or expose for sale or exchange any article of food made from such milk or cream or manufacture from any such milk or cream any article of food. No person shall sell or exchange, or offer or expose for sale or exchange, as and for certified milk, any milk which has not been duly examined by a competent person to make such examination and which has not been found upon such examination to be free from antiseptics, added preservatives, and pathogenic bacteria, or bacteria in excessive numbers. All milk sold as certified milk shall be conspicuously marked with the name of the association certifying it. (*As amended by chapter 602 of the Laws of 1905, passed May 24, 1905.*)

§ 23. Regulations in regard to butter and cheese factories.—No person shall sell, supply or bring to be manufactured to any butter or cheese factory any milk diluted with water, or any unclean, impure, unhealthy, adulterated or unwholesome milk, or milk from which any of the cream has been taken, except pure skim milk to skim-cheese factories. No person shall sell, supply or bring to be manufactured to any butter or cheese factory any milk from which there has been kept back any part of the milk commonly known as strippings, or any milk that is sour, except pure skim milk to skim-cheese factories. The owner or proprietor or the person having charge of any butter or cheese factory, not buying all the milk used by him, shall not use for his own benefit, or allow any of his employees or any other person to use for his own benefit, any milk, cream, butter or cheese or any other prod

uct thereof, brought to such factory, without the consent of the owners of such milk or the products thereof. Every butter or cheese manufacturer not buying all the milk he uses, shall keep a correct account of all the milk daily received, of the number of packages of butter and cheese made each day, and the number of packages and aggregate weight of cheese and butter disposed of each day; which account shall be open to inspection to any person who delivers milk to such factory. Whenever manufacturers of butter or cheese purchase milk upon the basis of the amount of fat contained therein and use for ascertaining the amount of such fat what is known as the Babcock test, or whenever the proceeds of cooperative creameries and cheese factories are allotted on the basis of determinations of milk fat by the Babcock test, the bottles and pipettes used in such test shall before use be examined by the director of the New York agricultural experiment station. If such bottles are found to be properly constructed and graded so as to accurately show the amount of fat contained in milk, each of them shall be legibly and indelibly marked "S. B." No bottle shall be so marked except as herein provided nor shall be used in any such test by such manufacturers, unless so examined and marked. The acid used in making such test by such manufacturers shall be examined from time to time by competent chemists employed by the commissioner of agriculture and if found not to be of sufficient strength the use of such acid shall be prohibited. No person or persons receiving or purchasing milk or cream upon the basis of the amount of fat contained therein, shall credit any patron or patrons delivering milk or cream thereto with a greater or lesser percentage or average percentage of fat than is actually contained in the milk or cream so delivered. The commissioner of agriculture or persons employed by him for that purpose may at any time assist in making tests of milk received at a butter or cheese factory for the purpose of determining the efficiency of tests usually made at such factory. All persons using other than standard bottles or acid which is not of the required strength to accurately determine the amount of fats in milk or crediting any patron or patrons deliv-

ering milk or cream with a greater or lesser percentage or average percentage of fat than is actually contained in the milk or cream so delivered, shall be subject to the penalties prescribed by section thirty-seven of this article, and shall be guilty of a misdemeanor. (*As amended by chapter 601 of the Laws of 1905, passed May 24, 1905.*)

§ 23-a. Penalty for delivery of adulterated milk.—Any person, firm, association or corporation delivering any milk to any butter or cheese factory in violation of any of the provisions of the agricultural law shall forfeit and pay to the patrons, firm, association or corporation owning the milk delivered to such factory the sum of fifty dollars, to be recovered in a civil action by the person, firm, association or corporation entitled thereto. (*Added by chapter 605 of the Laws of 1906, passed May 23, 1906.*)

§ 24. No person or persons shall hereafter, without the consent of the owner or owners, shipper or shippers, use, sell, dispose of, buy or traffic in any milk can or cans, jar or jars, bottle or bottles, cream can or cans, jar or jars, bottle or bottles belonging to any dealer or dealers, shipper or shippers of milk or cream residing in the state of New York or elsewhere, who may ship milk or cream to any city, town or place within this state, having the name, or initials of the owner or owners, dealer or dealers, shipper or shippers, stamped, marked or fastened on such can or cans, jar or jars, bottle or bottles, or wilfully mar, erase or change by remarking or otherwise said name or initials of any such owner or owners, dealer or dealers, shipper or shippers, so stamped, marked or fastened upon said can or cans, jar or jars, bottle or bottles. Nor shall any person or persons without the consent of the owner use such can or cans, jar or jars, bottle or bottles, for any other purpose than for milk or cream; nor shall any person or persons without the consent of the owner place in any such can or cans, jar or jars, bottle or bottles, any substance or substances, product or products other than milk or cream. (*As amended by chapter 168 of the Laws of 1904.*)

§ 25. Regulations in regard to condensed milk.—No condensed milk shall be made or offered or exposed for sale or exchange unless manufactured from pure, clean, healthy, fresh, unadulterated and wholesome milk from which the cream has not been removed either wholly or in part, or unless the proportion of milk solids shall be in quantity the equivalent of twelve per centum of milk solids in crude milk, and of which solids twenty-five per centum shall be fats. No person shall manufacture, sell or offer for sale or exchange in hermetically sealed cans, any condensed milk unless put up in packages upon which shall be distinctly labeled or stamped the name of the persons or corporation by whom made and the brand by which or under which it is made. When condensed milk shall be sold from cans or packages not hermetically sealed, the vendor shall brand or label such cans or packages with the name of the manufacturer of the milk contained therein. (*As amended by chapter 143 of the Laws of 1894.*)

§ 26. Manufacture and sale of imitation butter prohibited.—No person by himself, his agents or employees, shall produce or manufacture out of or from any animal fats or animal or vegetable oils not produced from unadulterated milk or cream from the same, the article known as oleomargarine or any article or product in imitation or semblance of natural butter produced from pure, unadulterated milk or cream of the same; or mix, compound with or add to milk, cream or butter any acids or other deleterious substance or any animal fats or animal or vegetable oils not produced from milk or cream, so as to produce any article or substance or any human food in imitation or in semblance of natural butter, nor sell, keep for sale or offer for sale any article, substance, or compound made, manufactured or produced in violation of the provisions of this section, whether such article, substance or compound shall be made or produced in this state or elsewhere. Any person manufacturing, selling, offering or exposing for sale any commodity or substance in imitation or semblance of butter the product of the dairy, shall be deemed guilty of a violation of the agricultural law, whether he sells such commodity or substance

as butter, oleomargarine or under any other name or designation whatsoever and irrespective of any representations he may make relative to such commodity or substance. Any dealer in any article or product, the manufacture or sale of which is prohibited by this act, who shall keep, store or display such article or product, with other merchandise or stock in his place of business, shall be deemed to have the same in his possession for sale. (*As amended by chapter 385 of the Laws of 1902.*)

§ 27. Manufacture or mixing of animal fats with milk, cream or butter prohibited.—No person shall manufacture, mix or compound with or add to natural milk, cream or butter any animal fats or animal or vegetable oils, nor make or manufacture any oleaginous substance not produced from milk or cream, with intent to sell the same as butter or cheese made from unadulterated milk or cream or have the same in his possession with such intent; nor shall any person solicit or take orders for the same or offer the same for sale, nor shall any such article or substance or compound so made or produced, be sold as and for butter or cheese, the product of the dairy. No person shall coat, powder or color with annatto or any coloring matter whatever butterine or oleomargarine or any compound of the same or any product or manufacture made in whole or in part from animal fats or animal or vegetable oils not produced from unadulterated milk or cream by means of which such product, manufacture or compound shall resemble butter or cheese, the product of the dairy; nor shall he have the same in his possession with intent to sell the same nor shall he sell or offer to sell the same. No person by himself, his agents or employes, shall manufacture, sell, offer or expose for sale, butter that is produced by taking original packing stock or other butter or both and melting the same, so that the butter fat can be drawn off, then mixing the said butter fat with skimmed milk or milk or cream or other milk product and rechurning the said mixture, or that is produced by any similar process and is commonly known as boiled or process butter, unless he shall plainly brand or mark the package or

tub or wrapper in which the same is put up in a conspicuous place with the words "renovated butter." If the same shall be put up, sold, offered or exposed for sale in prints or rolls, then the said prints or rolls shall be labeled plainly with printed letters in a conspicuous place on the wrapper with the words "renovated butter." If the same is packed in tubs or boxes or pails or other kind of a case or package the words "renovated butter" shall be printed on the top and side of the same in letters at least one inch in length, so as to be plainly seen by the purchaser. If such butter is exposed for sale, uncovered, not in a package or case, a placard containing the label so printed shall be attached to the mass of butter in such manner as to easily be seen and read by the purchaser. No person shall sell, offer or expose for sale, any butter or other dairy products containing a preservative, but this shall not be construed to prohibit the use of salt in butter or cheese, or spirituous liquors in club or other fancy cheese or sugar in condensed milk. No person or persons, firm, association or corporation shall induce or attempt to induce any person or persons to violate any of the provisions of the agricultural law. Any person, firm, association or corporation selling, offering or advertising for sale any substance, preparation or matter for use in violation of the provisions of the agricultural law shall be guilty of a violation of this act. (*As amended by chapter 534 of the Laws of 1900.*)

§ 28. Prohibited articles not to be furnished.—No keeper or proprietor of any bakery, hotel, boarding-house, restaurant, saloon, lunch-counter or place of public entertainment, or any person having charge thereof or employed thereat, or any person furnishing board for any others than members of his own family, or for any employes where such board is furnished for a compensation or as part of the compensation of any such employe, shall keep, use or serve therein either as food for his guests, boarders, patrons, customers or employes or for cooking purposes any article or substance made in violation of the provisions of this article.

§ 29. Use of coloring matter prohibited.—No person manufacturing with intent to sell any substance or article in imitation or semblance of butter or cheese not made exclusively from unadulterated milk or cream or both, with salt or rennet or both and with or without coloring matter or sage, but into which any animal, intestinal or offal fats, or any oils or fats or oleaginous substance of any kind not produced from from* pure, unadulterated milk or cream, or into which melted butter, or butter in any condition or state, or any modification of the same, or lard or tallow shall be introduced, shall add thereto or combine therewith any annatto or compounds of the same, or any other substance or substances whatever, for the purpose or with the effect of imparting thereto a color resembling yellow, or any shade of yellow butter or cheese, nor introduce any such coloring matter or other substance into any of the articles of which the same is composed.

§ 29a. No person or persons shall manufacture, sell or expose for sale any poisonous coloring matter for the coloring of food products of any kind, nor shall any person or persons use any poisonous coloring matter manufactured, sold, offered or exposed for sale within this state; nor shall any person or persons sell, offer or expose for sale any food product containing such poisonous coloring matter. The state board of health shall cause samples of coloring matter that are exposed for sale upon the market for use in food products to be analyzed and report the results of such analysis to the legislature at the next session. (*Added by chapter 518 of the Laws of 1899.*)

§ 30. Manufacture and sale of imitation cheese prohibited.—No person shall manufacture, deal in, sell, offer or expose for sale or exchange any article or substance, in the semblance of or in imitation of cheese made exclusively of unadulterated milk or cream, or both, into which any animal, intestinal or offal fats or oils, or melted butter or butter in any condition or state or modification of the same, or oleaginous substance of any kind not produced from unadulterated milk or cream, shall be introduced.

*So in the original.

§ 31. When prohibition does not apply to skim-milk or skim-cheese.—Except in the counties of New York and Kings, the prohibitions contained in this article against the sale of adulterated milk shall not apply to skim-milk, which is clean, pure, healthy, wholesome and unadulterated, except by skimming, sold for use in the county in which it is produced or an adjoining county, if it is sold for and as skimmed milk. The prohibitions in this article against the sale of cheese made from unadulterated milk or cream, shall not apply to pure skim-cheese made from milk which is clean, pure, healthy, wholesome and unadulterated, except by skimming.

§ 32. Unclean receptacles and places for keeping milk; notice to violators of provisions.—No person, firm, association or corporation, producing, buying or receiving milk for the purpose of selling the same for consumption as such, or for manufacturing the same into butter, cheese, condensed milk, or other human food, shall keep the same in utensils, cans, vessels, room or rooms, building or buildings that are unclean or have unsanitary surroundings or drainage, or in any condition whatsoever that would tend to produce or promote conditions favorable to unhealthfulness or disease. The commissioner of agriculture shall notify all persons, firms, associations or corporations, violating this section, to clean said utensils, cans, vessels, room or rooms, building or buildings, or to so improve the sanitary conditions that the law will not be violated, and if such notice is complied with in ten days' time, Sundays excepted, then no action shall lie for a violation of this section. Any person or persons having charge of any milk gathering station where milk is bought or received from the dairymen for the purpose of selling the same for consumption or shipping the same to market for consumption as human food before taking such charge or operating or working as such agent or person in charge shall apply to the commissioner of agriculture for a license to so work or operate or have charge, and shall at the time of making such application, file with the commissioner a statement under oath, setting forth

the fact that he will not while having charge of or operating any such milk gathering establishment or while employed therein adulterate or suffer or permit the adulteration of any such milk or any product thereof during the term for which he may be licensed. After the applicant shall have complied with the foregoing provisions of this section, the commissioner of agriculture upon being satisfied that the applicant is a person of good moral character and a qualified and proper person to so have charge of or operate any such milk gathering station or establishment shall issue to said applicant, a license which shall qualify him to have charge of any such milk gathering station or establishment for the period of two years from the date of such license. Any person or persons having charge of any milk gathering station or establishment as aforesaid, shall keep a true and correct daily record of the receipts of milk or other dairy products received at such station or establishment and a true and correct daily record of all sales or shipments of milk, cream and dairy products shipped or sold from such station or establishment. Which record shall be preserved at such station or establishment for at least two years after the same shall have been made and such records shall at all times be open to the inspection of the commissioner of agriculture or his assistants. If any such persons so duly licensed shall thereafter violate any of the provisions of the agricultural law relative to milk or the products thereof he shall forfeit his license and shall be disqualified for a period of five years from being again licensed by the commissioner of agriculture. The commissioner of agriculture shall have the power to issue subpoenas to be attested by him in his official capacity to any person or persons whom he may have reason to believe has knowledge of any alleged violation of the agricultural law, to appear before him or any of his assistant commissioners of agriculture for the purpose of investigating alleged violation of the agricultural law. Any person or persons who shall omit, neglect or refuse to obey subpoenas attested in the name of the commissioner of agriculture or who shall refuse to testify under oath before the com-

missioner of agriculture or his assistant commissioners of agriculture, is guilty of a misdemeanor. The commissioner of agriculture and his assistant commissioners of agriculture are hereby authorized and empowered to administer oaths and affirmations in the usual appropriate forms to any person or persons in any matter or proceedings authorized as aforesaid and in all matters pertaining or relating to the agricultural law and to take and administer oaths and affirmations, in the usual appropriate forms, in taking any affidavit or deposition which may be necessary or required by law or by any order, rule or regulation of the commissioner of agriculture for or in connection with the official purposes, affairs, powers, duties or proceedings of said commissioner of agriculture or his assistant commissioner of agriculture or any official purpose lawfully authorized by said commissioner of agriculture. The commissioner of agriculture or his assistant commissioners of agriculture shall have the power in proper cases to issue subpoenas duces tecum. Such subpoena or subpoena duces tecum may be served by any person over the age of twenty-one years. Any person who shall make any false statement under oath before the commissioner of agriculture or his assistant commissioners of agriculture, is guilty of perjury. (*As amended by chapter 603 of the Laws of 1905, passed May 24, 1905.*)

§ 33. Manufacturer's brand of cheese.—Every manufacturer of full-milk cheese may put a brand or label upon such cheese indicating "full-milk cheese," and the date of the month and year when made; and no person shall use such a brand or label upon any cheese made from milk from which any of the cream has been taken. The commissioner of agriculture shall procure and issue to the cheese manufacturers of the state, on proper application therefor, and under such regulations as to the custody and use thereof, as he may prescribe, a uniform stencil brand or labels, bearing a suitable device or motto, and the words, "New York state full-cream cheese." Every such brand or label shall be used upon the outside of the cheese and shall bear a different number

for each separate factory. The commissioner shall keep a book, in which shall be registered the name, location and number of each manufactory using the brands or labels, and the name or names of the persons at each manufactory authorized to use the same. No such brand or labels shall be used upon any other than full-cream cheese or packages containing the same. (*As amended by chapter 27 of the Laws of 1904.*)

§ 34. Use of false brand prohibited.—No person shall offer, sell, or expose for sale, in any package, butter or cheese which is falsely branded or labeled.

§ 35. County trade marks.—At a regular or special meeting of a county dairyman's association in any county of the state there may be adopted a county trade mark, by a majority of the members present and voting, to be used as a trade mark by any person manufacturing pure unadulterated butter or full-cream cheese in such county. The secretary of the association shall forthwith send to the commissioner of agriculture a copy of such trade mark, which copy he shall place on file in his office, noting thereupon the day and hour he received the same. But one county trade mark for butter and for cheese shall be placed on file for the same county. No association shall adopt any trade mark of any county already on file, or use that of any other county in the formation of a trade mark.

§ 36. Object and intent of this article.—This article and each section thereof are declared to be enacted to prevent deception in the sale of dairy products, and to preserve the public health, which is endangered by the manufacture, sale and use of the articles or substances herein regulated or prohibited.

§ 37. Every person violating any of the provisions of the agricultural law shall forfeit to the people of the state of New York the sum of not less than fifty dollars nor more than one hundred dollars for the first violation and not less than one hundred dollars or more than two hundred dollars for the second and

each subsequent violation. When such violation consists of the manufacture or production of any prohibited article, each day during which or any part of which such manufacture or production is carried on or continued, shall be deemed a separate violation of the provisions of this article. When the violation consists of the sale, or the offering or exposing for sale or exchange of any prohibited article or substance, the sale of each one of several packages shall constitute a separate violation, and each day on which any such article or substance is offered or exposed for sale or exchange shall constitute a separate violation of this article. When the use of any such article or substance is prohibited, each day during which or any part of which said article or substance is so used or furnished for use, shall constitute a separate violation, and the furnishing of the same for use to each person to whom the same may be furnished shall constitute a separate violation. Whoever by himself or another violates any of the provisions of article two, three, eight, eleven and twelve, or sections ninety-one and ninety-two of the agricultural law or of chapter four hundred and ninety-one, laws of eighteen hundred and ninety-eight, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than fifty dollars, nor more than two hundred dollars, or by imprisonment of not less than one month nor more than six months or by both such fine and imprisonment, for the first offense; and by six months imprisonment for the second offense. (*As amended by chapter 656 of the Laws of 1901.*)

ARTICLE III.

ADULTERATED VINEGAR.

Section 50. Definition of adulterated vinegar.

51. Manufacture and sale of adulterated or imitation vinegar prohibited.

52. Packages containing cider vinegar to be branded.

53. Penalties.

Section 50. Definition of adulterated vinegar.—All vinegar which contains any proportion of lead, copper, sulphuric acid, or other ingredients injurious to health, or any artificial coloring matter

or which has not an acidity equivalent to the presence of at least four and one-half per centum, by weight, of absolute acetic acid, or cider vinegar which has less than such an amount of acidity, or less than two per centum of cider vinegar solids on full evaporation over boiling water, shall be deemed adulterated. The term cider vinegar, when used in this article means vinegar made exclusively from pure apple juice. Provided, however, that cider vinegar made by a farmer in this state, exclusively from apples grown on his land, or their equivalent in cider taken in exchange therefor, shall not be deemed adulterated, if it contain two per centum solids and sufficient alcohol to develop the required amount of acetic acid. (*As amended by chapter 308 of the Laws of 1901.*)

§ 51. Manufacture and sale of adulterated or imitation vinegar prohibited.—No person shall manufacture for sale, keep for sale or offer for sale:

1. Any adulterated vinegar.
2. Any vinegar or product in imitation or semblance of cider vinegar, which is not cider vinegar.
3. As or for cider vinegar, any vinegar or product which is not cider vinegar.

§ 52. Packages containing cider vinegar to be branded.—Every manufacturer or producer of cider vinegar shall plainly brand on the head of each cask, barrel, keg or other package containing such vinegar, his name and place of business and the words "cider vinegar." And no person shall mark or brand as or for cider vinegar any package containing that which is not cider vinegar.

§ 53. Penalties.—Every person violating the provisions of this article shall forfeit and pay to the people of the state the sum of one hundred dollars for each violation.

***ARTICLE IV.**

DISEASES OF DOMESTIC ANIMALS.

Section 60. Suppression of infectious or contagious disease.

- 61. Commissioner to issue notice.
- 62. Farms to be quarantined; inspection of premises.
- 63. Detention and destruction of animals.
- 64. Employment of veterinary surgeons.
- 65. Regulations and enforcement thereof.
- 66. Penalties.
- 67. Appraiser of condemned animals.
- 68. Appraisal of diseased animals.
- 69. Certificate of appraisal.
- 70. Post-mortem examination of slaughtered animals.
- 70a. Compensation to owners of animals destroyed.
- 70b. Expenses.
- 70c. Federal regulations.
- 70d. Rights of federal inspectors.
- 70e. Slaughtering and selling veal for food.
- 70f. Shipping veal.
- 70g. Receiving veal for shipment by common carriers.

Section 60. Suppression of infectious and contagious disease.—
Whenever any infectious or contagious disease, affecting domestic animals shall exist, be brought into or break out in this state the commissioner of agriculture shall take measures to promptly suppress the same, and to prevent such disease from spreading. The local boards of health shall notify the commissioners of the existence of infectious or contagious disease affecting domestic animals in the districts subject to their jurisdiction. Any person or persons importing or bringing into this state neat cattle for dairy or breeding purposes shall report immediately upon bringing such cattle into the state to the commissioner of agriculture in writing, giving a statement of the number of cattle thus brought in, the place where they were procured, the lines over which they were brought and their point of destination within the state, stating when they will arrive at such point of destination, and upon the filing with the commis-

* Original Article IV was repealed, and new Article IV enacted, by Chapter 321 of the Laws of 1901.

sioner of agriculture at the time of making the said report, a certificate issued by duly authorized veterinary practitioner, to the effect that he has duly examined said animal or animals and that said animals are free from any infectious or contagious disease, the commissioner of agriculture may issue a permit to said person or persons to remove said cattle immediately. Otherwise, said person or persons shall hold or detain such animals at least forty-eight hours at such point of destination for inspection and examination, provided they are not sooner examined or inspected, by the commissioner of agriculture or his duly authorized agent or agents. Each animal brought into the state in violation of the above provisions shall constitute a separate and distinct violation of the agricultural law. The provisions of this section, relating to the importation of neat cattle for dairy or breeding purposes, shall not apply to cattle imported into this state at a point where there is federal inspection.

§ 2. This act shall take effect July first, nineteen hundred and three. (*As amended by chapter 214 of the Laws of 1903.*)

§ 61. Commissioner to issue notice.—He shall issue and publish a notice, stating that a specified infectious or contagious disease exists in any designated county or other geographical district of the state, and warning all persons to seclude in the premises where they may be at the time, all animals within such county or district, that are of a kind susceptible to contract such disease, and ordering all persons to take such precautions against the spreading of the disease, as the nature thereof may in his judgment render necessary or expedient, and which he may specify in such notice. Such notice shall be published in such newspapers, and be posted in such manner as the commissioner may designate, and as, in his judgment, are most likely to give notice thereof.

§ 62. Farms to be quarantined; inspection of premises.—The commissioner or an assistant commissioner, shall order any premises, farm or farms where such disease exists, or recently existed,

to be put in quarantine, so that no domestic animal be removed or brought to the premises or places quarantined, and shall prescribe such regulations as he may judge necessary or expedient to prevent the communication of the disease by infection or contagion, in any way from the places so quarantined. The commissioner may adopt and enforce rules regulating the sanitation of stables and other buildings used for the stabling of cattle for the purpose of preventing the existence and spread and contagion among cattle. He may provide for the inspection and examination of all such stables and buildings.

§ 63. Detention and destruction of animals.—The commissioner or an assistant commissioner, may order all or any animals coming into the state to be detained at any place or places for the purpose of inspection and examination. He may prescribe regulations for the destruction of animals affected with infectious or contagious disease, and for the proper disposal of their hides and carcasses, and of all objects which might carry infection and contagion. Whenever, in his judgment necessary, for the more speedy and economical suppression or prevention of the spread of any such disease, he may cause to be slaughtered, and to be afterwards disposed of, in such manner as he may deem expedient, any animal or animals which, by contact or association with diseased animals, or by other exposure to infection or contagion, may be considered or suspected to be liable to contract or communicate the disease sought to be suppressed or prevented. The commissioner may direct that an animal shall be condemned, quarantined or slaughtered as tuberculous, under the provisions of this article, if it shall be found to be tuberculous by a physical examination. If the owner of animals suspected of being tuberculous desires to have such animals tested with tuberculin and enters into a written agreement with the state in the manner prescribed by the commissioner of agriculture, before such test is made, to the effect that he will disinfect his premises and either consent to the slaughter of the animals responding to such test, or hold them and their products in strict quarantine, pursuant to

the directions of the commissioner of agriculture, such test shall be made by a medical or veterinary practitioner designated by the commissioner. The commissioner may also in his discretion order such tuberculin test to be made, and if the animal responds to such test, he may cause such animal to be slaughtered or held in strict quarantine.

§ 64. Employment of veterinary surgeons.—The commissioner may employ such and so many medical and veterinary practitioners and such other persons as he may, from time to time, deem necessary to assist him in discharging the duties imposed upon him by this article, and may fix their compensation, to the amount appropriated therefor. No animal shall be destroyed by the commissioner or by his order on the ground that it is a diseased animal, unless first examined by a medical or veterinary practitioner in the employ of the commissioner, nor until such practitioner renders a certificate to the effect that he has made such examination, that in his judgment such animal is affected with a specified infectious or contagious disease, or that its destruction is necessary in order to suppress or aid in suppressing such disease, or to prevent such disease, or to prevent the spread thereof, specifying the reasons for such necessity.

§ 65. Regulations and the enforcement thereof.—The commissioner may prescribe such regulations as in his judgment may be thought suited for the suppression or prevention of the spread of any such disease, and for the disinfection of all premises, buildings, railway cars, vessels, and other objects from or by means of which infection or contagion may take place or be conveyed. He may alter or modify, from time to time, as he may deem expedient, the terms of all notices, orders and regulations issued or made by him, and may at any time cancel or withdraw the same. He may call upon the sheriff or deputy sheriff, to carry out and enforce the provisions of any notice, order or regulation which he may make, and all such sheriffs and deputy sheriffs shall obey and observe all orders and instructions which they may receive

from him in the premises. If the commissioner shall quarantine any particular district or territory for the purpose of stopping or preventing the spread of the disease known as rabies, and if any dog be found loose within the said quarantine district in violation of said quarantine or regulation, any person may kill or cause to be killed such dog and shall not be held liable for damages for such killing.

§ 66. Penalties.—Any person violating, disobeying or disregarding the terms of any notice, order or regulation, issued or prescribed by the commissioner under this article, shall forfeit to the people of the state the sum of one hundred dollars for every such violation.

§ 67. Appraiser of condemned animals.—The commissioner of agriculture may appoint and at pleasure remove one state appraiser of condemned animals. The person so appointed shall be a person of experience and well acquainted with the value of farm animals. He shall receive an annual salary of fifteen hundred dollars, and all necessary travelling and other expenses incurred in the performance of his duties. The commissioner of agriculture may also appoint from time to time such additional appraisers of condemned animals as the work of his department may necessitate, such appraisers shall receive a compensation of five dollars per diem and all travelling and other expenses necessarily incurred in the performance of their duties. (*As amended by chapter 253 of the Laws of 1904.*)

§ 68. Appraisal of diseased animals.—One of the state appraisers of condemned animals shall be present at the examination of all diseased animals when such examination is conducted under this act, for the purpose of determining whether such animals should be slaughtered. Such appraiser shall determine the value of each animal directed to be slaughtered. Such value shall be the market value of such animals at the time of making such examination, as though the animal were not diseased, but

the appraisal value of each head of cattle shall not exceed the sum of sixty dollars if a thoroughbred, and forty dollars if a grade. If the value of the condemned animals determined by the appraiser is not satisfactory to the owner of such animals, the value shall be determined by arbitrators, one to be appointed by the state appraiser, and one by the owner of the animals. If such arbitrators are not able to agree as to the value of the animals, a third arbitrator shall be appointed by them. The value determined by such arbitrator shall be final. The costs and expenses of the proceedings before the arbitrators shall be paid by the owner of the animals. No cattle claimed to be thoroughbred shall be appraised as such unless the owner thereof shall furnish to the state appraiser a duly executed certificate of registry. Such appraiser of condemned animals and the arbitrators appointed under this section may administer oaths to and examine witnesses.

§ 69. Certificate of appraisal.—The appraiser shall execute and deliver to the owner of the condemned animals a certificate verified by him stating the appraised value of such animals; if such value was determined by arbitrators, there shall be attached to such certificate a statement of the value so determined signed and verified by at least two of the arbitrators. The form and contents of such certificate shall be prescribed by the commissioner of agriculture.

§ *70. Post-mortem examination of slaughtered animals.—All animals suspected of being tuberculous and slaughtered therefor, shall be examined by a medical or veterinary practitioner designated by the commissioner for the purpose of determining whether or not such disease existed in such animals. There shall be attached to the certificate of appraisal, a statement of the result of such examination, describing the animals found to be tuberculous and those which were found not to be tuberculous. The form of such statement shall be prescribed by the

* Subsection 2 of section 70 repealed; also article 4 (Public Health Law) of chapter 661 of the Laws of 1893, as amended by chapter 674 of the Laws of 1894, and chapter 1013 of the Laws of 1895.

commissioner of agriculture. Such statement shall be verified by the veterinary or medical practitioner making the examination.

§ 70-a. Compensation to owners of animals destroyed.—The actual appraised value, not to exceed forty dollars, at the time they are killed of all animals slaughtered under the provisions of this article, which shall be found upon a post-mortem examination not to have had the disease for which they were slaughtered, unless the same were killed on account of the violation of quarantine regulations, shall be paid to the owners of such animals. If such animals are found upon post-mortem examination to have been suffering from the disease of tuberculosis, then they shall be paid for in the manner following, to wit: If an animal had localized tuberculosis, the owner thereof shall be paid sixty per centum of the appraised value. If the animal has been suffering with generalized tuberculosis, the owner thereof shall be paid therefor forty per centum of the appraised value, but no animal slaughtered under the provisions of this article shall be paid for as herein provided, unless the said animal shall have been within the state for a period of at least one year. The certificate of appraisal, the statement of the result of the post-mortem examination, shall be presented by the owner or his legal representatives or assigns to the commissioner of agriculture. The commissioner of agriculture shall issue his order for the amount due as shown by such certificate and statement, which shall be paid by the state treasurer on the warrant of the comptroller out of moneys appropriated therefor. If the owner of the cattle is dissatisfied with the appraisal he may take his claim to the court of claims, which court shall have exclusive jurisdiction to hear, audit and determine all claims which shall arise under the provisions of this article for compensation for animals slaughtered and to allow thereon such sums as should be paid by the state. No compensation shall be made to any person who has wilfully concealed the existence of disease among his animals or upon his premises, or who in any way by act or by wilful neglect has contributed to

spread the disease sought to be suppressed or prevented, nor for any animal which upon a post-mortem examination is found to have the disease on account of which it was slaughtered or any dangerously contagious or infectious disease that would warrant the destruction of such animal, except as herein provided. (*As amended by chapter 167 of the Laws of 1905, passed April 8, 1905.*)

§ 70-b. **Expenses.**—All expenses incurred by the commissioner in carrying out the provisions of this article and in performing the duties herein devolved upon him shall be audited by the comptroller as extraordinary expenses of the department of agriculture, and paid out of any moneys in the treasury appropriated for such purposes.

§ 70-c. **Federal regulations.**—The commissioner of agriculture may accept, in behalf of the state, the rules and regulations prepared and adopted by the commissioner of agriculture or the secretary or department of agriculture of the United States, under any act of congress for the establishment of a bureau of animal industry or to prevent the exportation of diseased cattle or to provide means for the extirpation and suppression of pleuropneumonia and other contagious diseases among domestic animals and shall co-operate with the authorities of the United States in the enforcement of the provisions of any such act.

§ 70-d. **Rights of federal inspectors.**—The inspectors of the bureau of animal industry of the United States shall have the right of inspection, quarantine and condemnation of animals affected with any contagious, infectious or communicable disease, or suspected to be so affected, or that may have been exposed to any such disease, and for such purposes they may enter upon any ground or premises; they may call the sheriffs, constables and peace officers to assist them in discharge of their duties in carrying out the provisions of any such act; and all sheriffs, constables and peace officers shall assist such inspectors when so requested, and such inspectors shall have the same

powers and protection as peace officers, while engaged in the discharge of their duties. All animals entering the state, which pass inspection by the federal authorities, shall be permitted to proceed to place of destination without further inspection under this act. This state shall not be liable for any damages or expenses caused or made by such inspectors.

§ 70-e. No person shall slaughter or expose for sale, or sell any calf or carcass of the same or any part thereof, unless it is in good healthy condition. No person shall sell or expose for sale any such calf or carcass of the same or any part thereof, except the hide unless it was, if killed, at least four weeks of age at the time of killing. No person or persons shall bring or cause to be brought into any city, town or village any calf or carcass of the same or any part thereof for the purpose of selling, offering or exposing the same for sale, unless it is in a good healthy condition and no person or persons shall bring any such calf or carcass of the same or any part thereof except the hide into any city, town or village for the purpose of selling, offering or exposing the same for sale, unless the calf is four weeks of age or, if killed, was four weeks of age at the time of killing, provided however that the provisions of this statute shall not apply to any calf or carcass of the same or any part thereof, which is slaughtered, sold, offered or exposed for sale, for any other purpose than for food. Any person or persons exposing for sale, selling or shipping any calf or carcass of the same will be presumed to be so exposing, selling or shipping the said calf or carcass of the same for food. Any person or persons shipping any calf for the purpose of being raised, if the said calf is under four weeks of age, shall ship it in a crate, unless said calf is accompanied by its dam. Any person shipping calves under four weeks of age for fertilizer purposes must slaughter the said calves before so shipping. Any person or persons duly authorized by the commissioner of agriculture to examine any calf or veal offered or exposed for sale or kept with any stock of goods apparently exposed for sale and if such calf is under four weeks of age, or the veal is from a calf killed under four weeks of age, or from a calf in an unhealthy

condition when killed, he may seize the same and cause it to be destroyed and disposed of in such manner as to make it impossible to be thereafter used for food. (*As amended by chapter 372 of the Laws of 1906, passed May 10, 1906.*)

§ 70-f. Shipping veal.—On and after the passage of this act it shall be unlawful for any corporation, partnership, person or persons to ship to or from any part of this state any carcass or carcasses of a calf or calves or any part of such carcass except the hide, unless they shall attach to every carcass or part thereof so shipped in a conspicuous place a tag, that shall stay thereon during such transportation, stating the name or names of the person or persons who raised the calf, the name of the shipper, the points of shipping and the destination and the age of the calf. (*Added by chapter 30 of the Laws of 1902.*)

§ 70-g. Receiving veal for shipment by common carriers.—On and after the passage of this act, no railroad company, express company, steamboat company, or other common carrier, shall carry or receive for transportation any carcass or carcasses of calves, or any part of the same except the hide, unless the said carcass or carcasses or parts thereof shall be tagged as herein provided. (*Added by chapter 30 of the Laws of 1902.*)

*ARTICLE V.

SUGAR BEET CULTURE.

Section 71. Definitions.

72. Commissioner of agriculture to apportion moneys appropriated for promotion of sugar beet culture.
73. Registration of manufacturers.
74. Persons, et cetera, to whom moneys may be appropriated.†
75. Determination of amounts to be paid.
76. Accounts to be kept; accountant.
77. Weighman, powers and duties.
78. Distribution of moneys by commissioner of agriculture.

Section 71. Definitions.—The term “manufacturer” as used in this article means any person, firm, association or corporation engaged in the manufacture of sugar from beets grown in the state

*Original article V was made article VI by chapter 500 of the Laws of 1897. Present article V is as amended by chapter 759 of the laws of 1905, passed June 3, 1905.

†So in original.

of New York, who has registered in the office of the commissioner of agriculture as hereinafter provided. The term "grower" as used in this article means any person, firm, association or corporation producing or growing sugar beets to be sold to beet sugar manufacturers for manufacture within this state.

§ 72. Commissioner of agriculture to apportion moneys appropriated for promotion of sugar beet culture.—Money appropriated for the promotion of sugar beet culture by scientific and practical experiment shall be apportioned by the commissioner of agriculture to the persons, firms, associations or corporations entitled thereto, according to the provisions of this article.

§ 73. Registration of manufacturers.—A manufacturer of beet sugar shall not be entitled to any of the privileges of this article unless he shall register in the office of the commissioner of agriculture and shall file a certificate therein stating the name of the manufacturer, the location of the factory, the capacity thereof and the time when the manufacture of sugar began or is to begin. This section shall not apply to manufacturers registered under the law as it existed prior to the taking effect of this amendment.

§ 74. Persons, et cetera, to whom moneys may be apportioned.—The amount appropriated for the promotion and encouragement of sugar beet culture shall be distributed, as provided in this article, to the growers of sugar beets or their assignees or legal representatives, whenever a grower of sugar beets within this state shall have made a contract with a manufacturer of sugar within this state for the raising and delivery of such beets to such manufacturer to be manufactured into sugar at a factory within this state, whereby such manufacturer has agreed to pay the net sum of five dollars per ton for such beets, to be delivered at such point as may be agreed upon by the grower and manufacturer, including the amount to be distributed to such grower as provided by this article or any other law, such grower may make an assignment of such amount to such manufacturer, and upon proof of such assignment the amount so to be dis

tributed to such grower, shall be paid to the manufacturer. The commissioner of agriculture may expend such sum or sums as he may deem necessary or expedient, not exceeding ten per centum of the amount appropriated for the purposes of this article, in practical and scientific experiments in growing sugar beets in one or more sections of this state, for the purpose of determining the adaptability of the soil thereof for the production of sugar beets.

§ 75. Determinations of amount to be paid, statements.—The commissioner of agriculture shall determine the quantity of sugar beets sold by growers to manufacturers as provided herein. On or before the first day of January in each year each manufacturer shall cause a statement to be made and filed with such commissioner showing the names and residences of all growers who have sold and delivered sugar beets to such manufacturer during the preceding year, the net weight of the sugar beets so delivered and sold, the price paid per ton, the date of payment, and if such beets were sold under a contract containing an assignment of the amount to be distributed as provided in this article, such fact shall be so stated. Such statement shall be verified by the manufacturer, or by the president and treasurer thereof. Such statement shall be accompanied by vouchers signed by each grower showing the quantity of beets sold, the price paid therefor, and that the amount to be distributed as provided in this article has been assigned by such grower to such manufacturers. The forms of such statement and vouchers shall be prescribed by the commissioner of agriculture. The commissioner may cause an examination to be made of all the contracts made by each manufacturer with growers, and may inspect the books of such manufacturer for the purpose of determining the quantity of sugar beets purchased and the amount paid therefor.

§ 76. Accounts to be kept, accountant.—The commissioner of agriculture may appoint an accountant at each factory whose duty it shall be to assist the weighman in keeping a true and

correct record of sugar beets purchased by the manufacturer operating such factory and delivered thereto, in the manner and form prescribed by the commissioner. He shall perform such other duties as shall be required by the commissioner. He shall receive as full compensation for his services the sum of five dollars per day, to be paid by the manufacturer operating the factory for which he is appointed.

§ 77. Weighman, powers and duties.—It shall be the duty of the commissioner of agriculture to appoint at each sugar manufactory in this state where the output of such manufactory shall exceed two thousand pounds of sugar per day, a person who shall weigh all beets received by the person or persons, corporation or association operating said manufactory. Such person shall be known as the weighman, and he shall keep accurate record of all duties performed by him. He shall discharge all duties pertaining to his position in an impartial manner, and shall furnish the commissioner of agriculture with a good and sufficient bond in the sum of two thousand dollars for the faithful discharge of his duties as prescribed by this act. The weighman shall take into his possession, promptly on receipt of beets at such manufactory such samples of beets as he deems fair and equitable, from which to remove dirt or other dockage. He shall then promptly weigh all beets from which samples have been taken and keep an accurate record of all weights, and all of such records shall show the names of both the seller and the buyer. The weights furnished by said weighman shall form the basis of the distribution of moneys under this act and shall be accepted by both the seller and the buyer, and upon such weights so furnished settlement between the seller and the buyer shall be made. The weighman shall perform such other duties as may be required by the commissioner of agriculture. The compensation or fee allowed such weighman shall not exceed the sum of five dollars per day for time actually employed. All expenses arising from the duties of said weighman as prescribed by this act, shall be paid by the manufacturer operating such manufactory where

such expense is incurred. The foregoing provisions of this section as to weighing shall not apply to such beets as are weighed by agreement of the buyer and seller at the station of shipment, but the weighing in such cases shall be done by persons employed by the manufacturer, subject to the approval of the commissioner of agriculture, and the weights found by them shall in all respects have the same effect as if furnished by the weighman.

§ 78. Distribution of moneys by commissioner of agriculture.—On or before the first day of February in each year the commissioner of agriculture shall prepare a detailed statement of the quantity of beets delivered at each factory, on account of which each grower or his assignee is entitled to receive a portion of the moneys appropriated for the promotion and encouragement of sugar beet culture. He shall apportion to each such grower or his assignee the money so appropriated according to the quantity of sugar beets purchased by each manufacturer and delivered at the factory operated thereby during the preceding year, as shown by the statements and vouchers filed in his office, and as determined by him according to the provisions of this article. If a grower shall have assigned by contract or otherwise, the amount to which he would be entitled under this article for the sugar beets grown and sold by him, the said amount shall be apportioned to his assignee. The sum of one dollar per ton shall be paid to such grower or his assignee, out of any moneys appropriated for the promotion and encouragement of sugar beet culture. Such commissioner of agriculture shall certify to the comptroller the amount apportioned to each grower or his assignee according to the provisions of this article; and the comptroller shall draw his warrant upon the state treasurer for the amount so certified payable to the party or parties to whom such apportionment was made.

§ 2. This act shall take effect immediately.

ARTICLE VI.*MISCELLANEOUS PROVISIONS.**

Section 80. The prevention of diseases among bees.

81. Proceedings of the agent of the commissioners.

82. The prevention of disease in fruit trees.

83. Appointment and duties of the agent of the commissioner of agriculture.

84. Proceedings in case of owner's failure to destroy.

85. The New York agricultural station.

86. The state weather bureau.

87. The agriculture experiment station at Cornell university.

88. Receipts and apportionment of state moneys appropriated for the promotion of agriculture.

89. When agricultural societies entitled to additional sums from the state.

90. Annual report of the commissioner of agriculture and state society.

91. Maple sugar and maple syrup.

92. Maple sugar and maple syrup.

Section 80. The prevention of diseases among bees.—No person shall keep in his apiary any colony of bees affected with a contagious malady known as foul brood or black brood; and every bee-keeper when he becomes aware of the existence of either of such diseases among his bees, shall immediately notify the commissioner of agriculture of the existence of such disease. (*As amended by chapter 214 of the Laws of 1902.*)

§ 80-a. Defining honey.—The terms “honey,” “liquid or extracted honey,” “strained honey,” or “pure honey,” as used in this act shall mean the nectar of flowers that has been transformed by, and is the natural product of the honey-bee, taken from the honeycomb and marketed in a liquid, candied or granulated condition. (*Added by chapter 214 of the Laws of 1902.*)

§ 80-b. Relative to selling a commodity in imitation or semblance of honey.—No person or persons shall sell, keep for sale, expose or offer for sale, any article or product in imitation or

* This, original article V, was made article VI by chapter 500 of the Laws of 1897.

semblance of honey branded as "honey," "liquid or extracted honey," "strained honey" or "pure honey" which is not pure honey. No person or persons, firm, association, company or corporation, shall manufacture, sell, expose or offer for sale any compound or mixture branded or labeled as and for honey which shall be made up of honey mixed with any other substance or ingredient. There may be printed on the package containing such compound or mixture a statement giving the ingredients of which it is made; if honey is one of such ingredients it shall be so stated in the same size type as are the other ingredients, but it shall not be sold, exposed for sale, or offered for sale as honey; nor shall such compound or mixture be branded or labeled with the word "honey" in any form other than as herein provided; nor shall any product in semblance of honey, whether a mixture or not, be sold, exposed or offered for sale as honey, or branded or labeled with the word "honey," unless such article is pure honey. (*Added by chapter 214 of the Laws of 1902.*)

§ 81. Duties of the commissioner.—The commissioner of agriculture shall immediately upon receiving notice of the existence of foul brood or black brood among the bees in any locality, send some competent person or persons to examine the apiary or apiaries reported to him as being affected, and all the other apiaries in the immediate locality of the apiary or apiaries so reported; if foul brood or black brood is found to exist in them, the person or persons so sent by the commissioner of agriculture shall give the owners or caretakers of the diseased apiary or apiaries full instructions how to treat said cases. The commissioner of agriculture shall cause said apiary or apiaries to be visited from time to time as he may deem best and if, after proper treatment, the said bees shall not be cured of the diseases known as foul brood or black brood then he may cause the same to be destroyed in such manner as may be necessary to prevent the spread of the said diseases. For the purpose of enforcing this act, the commissioner of agriculture, his agents, employees, appointees or counsel, shall have access, ingress and

egress to all places where bees or honey or appliances used in apiaries may be, which it is believed are in any way affected with the said disease of foul brood or black brood or where it is believed any commodity is offered or exposed for sale in violation of the provisions of this act. No owner or caretaker of a diseased apiary, honey or appliances shall sell, barter or give away any bees, honey or appliances from said diseased apiary, which shall expose other bees to the danger of said diseases, nor refuse to allow the said commissioner of agriculture, or the person or persons appointed by him to inspect said apiary, honey, or appliances, and do such things as the said commissioner of agriculture or the person or persons appointed by him shall deem necessary for the eradication of said diseases. Any person who disregards or violates any of the provisions of this section is guilty of a misdemeanor and shall be punished by a fine of not less than thirty dollars nor more than one hundred dollars, or by imprisonment in the county jail for not less than one month nor more than two months, or by both fine and imprisonment. (*As amended by chapter 214 of the Laws of 1902.*)

§ 82. The prevention of disease in fruit trees and the extirpation of insect pests that infest the same.—No person shall knowingly or wilfully keep any peach, almond, apricot or nectarine trees affected with the contagious disease known as yellows. No person shall knowingly or wilfully keep any peach tree affected with the disease known as little peach. Nor shall any person knowingly or wilfully keep any plum, cherry or other trees affected with the contagious disease or fungus known as black knot nor any tree, shrub or plant infested with or by the San José scale or other insect pest dangerously injurious to or destructive of the trees, shrubs or other plants; every such tree, shrub or plant shall be a public nuisance, and as such shall be abated and no damage shall be awarded for entering upon premises upon which there are trees, shrubs or plants infected with yellows, little peach or black knot or infested with San José scale, for the purpose of legally inspecting the same, nor shall

any damage be awarded for the destruction by the commissioner of agriculture, or his duly authorized agents, or representatives, of such trees, shrubs or plants, or altogether destroying such tree, if necessary to suppress such disease, if done in accordance with the provisions of this article, except as otherwise herein provided. Every person, when he becomes aware of the existence of such disease or insect pest in any tree owned by him, shall forthwith report the same to the commissioner of agriculture at Albany, New York, and the said commissioner shall take such action as the law provides. If in the judgment of said commissioner of agriculture or the person or persons representing him, the trees, shrubs or other plants so infected, infested or diseased should be destroyed, then such destruction shall be carried on and completed under the supervision of the commissioner of agriculture or the person or persons duly appointed by him and authorized so to do, without unnecessary delay, but the owner of the trees, shrubs or plants shall be notified immediately upon it being determined that such trees, shrubs or plants should be destroyed by a notice in writing signed by said commissioner or the person or persons representing him, which said notice in writing shall be delivered in person to the owner of such trees, shrubs or plants, or left at the usual place of residence of such owner, or if such owner be not a resident of the town, by leaving such notice with the person in charge of the premises, trees, shrubs or plants or in whose possession they may be; such notice shall contain a brief statement of the facts found to exist whereby it is deemed necessary to destroy such trees, shrubs or plants, and shall call attention to the law under which it is proposed to destroy them, and the owner shall within ten days from the date upon which such notice shall have been received, remove and burn all such diseased or infested trees, shrubs or plants. If, however, in the judgment of the commissioner of agriculture, any trees, shrubs or plants infected with any disease or infested with dangerously injurious insects can be treated with sufficient remedies, he may direct such treatment to be carried out by the owner under the direction of the commissioner's

agent or agents, any person refusing or failing to comply with the directions of the commissioner of agriculture or his duly authorized agents in carrying on the work of extirpating dangerously injurious insect pests and fungus or other diseases, shall be guilty of a misdemeanor. In case of objections to the findings of the inspector or agent of the commissioner of agriculture, an appeal shall be made to the commissioner of agriculture, whose decision shall be final. An appeal must be taken within three days from service of said notice, and shall act as a stay of proceedings until it is heard and decided. When the commissioner of agriculture, or the person or persons appointed by him, shall determine that any tree or trees, shrubs or other plants must be treated or destroyed forthwith, he may employ all necessary assistants for that purpose, and such person or persons, agent or agents, employee or employees, may enter upon any or all premises in any city or town necessary for the purpose of such treatment, removal or destruction. (*As amended by chapter 20 of the Laws of 1903.*)

§ 83. Appointment and duties of the agent of the commissioner of agriculture.—When the commissioner of agriculture knows and has reason to believe that any such contagious disease exists, or that there is good reason to believe it exists, or danger is justly apprehended of its introduction in any town or city in the state, or that, any dangerously injurious insect pest exists within this state, and has reason to believe that danger may be justly apprehended from its existence, he shall forthwith send some competent person and such agent or agents as he may deem necessary to assist extirpating said pest or pests, disease or diseases, and the said commissioner of agriculture is hereby authorized and empowered to take such steps and do whatever may be deemed necessary to so control or prevent the spread or extirpate said pest or pests, disease or diseases, and he shall cause an examination to be made at least once each year, prior to September first, of each and every nursery or other place where trees, shrubs or plants, commonly known as nursery stock, are grown for sale, for the purpose of ascertaining

whether the trees, shrubs or plants therein kept or propagated for sale are infected with any such contagious disease or diseases, or infested with such pest or pests. If after such examination it is found that the said trees, shrubs or other plants so examined are free in all respects from any such contagious or infectious disease or diseases, dangerously injurious pest or pests, the said commissioner or his duly authorized agent or other person designated to make such examination, shall thereupon issue to the owner or proprietor of the said stock thus examined a certificate setting forth the fact that the stock so examined is apparently free from any and all such disease or diseases, pest or pests. Should any nurseryman, agent or dealer or broker send out or deliver within the state, trees, vines, shrubs, plants, buds or cuttings, commonly known as nursery stock, and which are subject to the attacks of insects and diseases above provided for, unless he has in his possession a copy of said certificate, dated within a year thereof, deface or destroy such certificate, or wrongfully be in possession of such certificate, he shall be guilty of a misdemeanor. All nursery stock consigned for shipment, or shipped by freight, express or other means of transportation, shall be accompanied by a copy of said certificate attached to each car, box, bale, bundle or package. Any person consigning for shipment or shipping nursery stock as above without such certificate attached shall be guilty of a misdemeanor. All transportation companies within this state receiving or carrying nursery stock from any point without the state to any point within the state shall immediately, upon receiving such consignments, notify the commissioner of agriculture of the fact that such consignment is in their possession, giving the name of the consignor and consignee, and the point of destination of such consignment. All trees, plants, shrubs, buds or cuttings, commonly called nursery stock, grown in any nursery in this state, in which San José scale has been found within two years of the date of the dissemination of said nursery stock or grown in said nursery within one-half a mile of where said scale was found, and also

all nursery stock from outside of this state, disseminated or planted in this state, after the first day of July nineteen hundred and two, must be fumigated with hydrocyanic gas, in such manner as may be directed by the commissioner of agriculture of this state. Such fumigation must be done by the grower, consignor or consignee of such stock before planting, dissemination or reshipment, except such trees, shrubs, plants, buds or cuttings grown in this state as are planted by the grower or propagator for himself, or such as from its nature or state of growth would be exempt; in such cases the said commissioner shall declare such trees, shrubs, plants, buds or cuttings free from such treatment. All nursery stock brought into this state from outside of this state must be accompanied by a certificate from the consignor that it has been fumigated as aforesaid. Should any such stock arrive without such certificate, the transportation company delivering it shall at once notify the said commissioner to that effect. The consignee shall also at once notify him of that fact, and shall proceed to fumigate said stock, as directed by the commissioner of agriculture without delay. Should any nursery stock purchased within one year be found infested with San José scale on the premises of any nurseryman, it shall not be considered such an infestation as to require the fumigation of other stock not so purchased. The words "nursery stock" wherever used in this article shall apply to and include all trees, shrubs, plants, buds, willow grown for nursery, baskets, or other commercial purposes or cuttings, whether grown in a nursery or elsewhere so far as it relates to fumigation. The provisions of this and the preceding section shall not apply to florists green house plants, flowers or cuttings commonly known as green house stock, and no certificate shall be required for shipment of native stock collected in the United States, not grown in nurseries, nor to stock so shipped into the state that its sale and shipment become either inter-state commerce traffic or commerce with foreign nations. (*As amended by chapter 519 of the Laws of 1902.*)

Section 84 was repealed by chapter 482 of the Laws of 1898.

§ 85. The New York agricultural experiment station.—The institution known as the New York agricultural experiment station, located in the city of Geneva, for the purpose of promoting agriculture in its various branches by scientific investigation and experiment, shall continue under the control and management of a board of trustees. Such board of trustees shall be known as the board of control of the New York agricultural experiment station and shall consist of nine members, except as hereinafter provided. The governor and commissioner of agriculture shall be members of the board by virtue of their offices. The governor shall appoint the other seven members of such board, whose term of office shall be three years, provided, however, that the present members of the board of control shall continue in office until the expiration of the terms to which they were appointed. Such board of control of which five members shall constitute a quorum, shall hold an annual meeting and such other meetings from time to time as they may deem necessary and shall annually elect a president from their own number, and appoint a secretary and treasurer, to hold their offices during the pleasure of the board. Such board of control shall have general management of the station and shall appoint a director to have oversight and management of the experiments and investigations and other scientific and expert work which shall be deemed necessary to accomplish the objects of said institution, and such board may employ competent and suitable chemists and other experts and persons necessary for carrying on the work of the station, and shall fix the compensation of all persons connected with the work of said station. Said station shall, besides conducting experiments and investigations for the promotion of agricultural science, perform and report to the commissioner of agriculture such analyses and other expert scientific work as said commissioner may request as necessary for the administration of the agricultural law, and the salaries and other expenses incurred by reason of such analyses and other expert scientific service shall be paid from funds provided to said station for the express purpose of aiding in enforcing the agricultural law. Said board of control shall

publish or cause to be published, from time to time, bulletins and reports giving the results of the experiments and investigations conducted by said station for the promotion of agriculture in its various branches, together with such other information as may promote the purposes and welfare of said institution. Such board shall have direction of the expenditure of all moneys appropriated to said station, the director shall annually on or before the fifteenth day of December make a full report to the board of the work accomplished by said station, which report, together with a statement of the receipts and expenditures for the year ending the thirtieth day of September then next preceding, and such other statements as may seem desirable, the board shall transmit to the commissioner of agriculture on or before the first day of January next succeeding, and said report shall constitute part of the annual report of the commissioner of agriculture. No member of said board shall receive any compensation for his services as such, but shall be paid his necessary traveling expenses and those expenses incurred by him by an actual attendance upon the meetings of such board. The board shall make such rules and regulations as may from time to time become necessary to carry out the objects of the station.

§ 2. All acts or parts of acts inconsistent with this act are hereby repealed. (*As amended by chapter 439 of the Laws of 1904.*)

§ 86. The state weather bureau. — The state meteorological bureau and weather service, shall hereafter be known as the state weather bureau, and shall be under the control and management of the commissioner of agriculture. Such commissioner may appoint the director of such bureau but such director shall not receive any compensation for his services. The commissioner may continue the central office and station for meteorological observation and experiment upon the grounds of Cornell university, and shall if practicable establish and supervise one or more volunteer weather stations in each congressional district of the state, in co-operation with the chief of the United States weather

bureau, for the purpose of increasing the usefulness of the weather service of the state and of the United States. The sum of four thousand five hundred dollars, or so much thereof as the commissioner deems necessary, shall be annually appropriated to be paid to the commissioner by the treasurer, upon the warrant of the comptroller, issued upon the vouchers of the commissioner, for necessary clerical services at such central office, for printing and distributing reports of the results and operations of such bureau, in such manner as shall be most serviceable to the people of the state, and for the purchase, preservation and repair of proper and necessary instruments for the work of such bureau and for the reasonably necessary traveling and incidental expenses of such commissioner and director in the performance of their duties, and for such other expenses as such commissioner shall deem necessary for the efficient administration of such bureau.

§ 87. The Cornell university and the agricultural experiment station at Geneva established by the laws of the state are hereby designated as the institutions within this state, entitled to receive such portion as the legislature shall determine of the benefits of the act of the congress of the United States, approved March second, eighteen hundred and eighty-seven, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several states, under the provisions of an act approved July second, eighteen hundred and sixty-two, and of the acts supplementary thereto." Such benefits of such acts which this state is authorized thereby to apply to any college, institution or agricultural experiment station within this state, are applied to the agricultural experiment station established under the direction of Cornell university and the agricultural experiment station at Geneva, and this state consents that such appropriation, money or benefits to or for the use of this state, or of any institution within this state, payable under or in pursuance of such act of congress, shall be paid nine-tenths thereof to the treasurer of Cornell university, the

officer designated to receive the same, and one-tenth thereof to the officers of the agricultural experiment station at Geneva designated to receive the same, to be expended as provided in such act of congress. Such experiment station shall, annually, on or before the first day of December, make, to the commissioner of agriculture, a full and detailed report of its operations, including a statement of its receipts and expenditures for the year ending with the thirtieth day of September then next preceding. Such experiment station may, with the consent and approval of the commissioner of agriculture, appoint horticultural experts to assist such experiment station, in the fifth judicial department, in conducting investigations and experiments in horticulture; in discovering and remedying the disease of plants, vines and fruit trees; in ascertaining the best means of fertilizing vineyard, fruit and garden plantations, and of making orchards, vineyards and gardens prolific; in disseminating horticultural knowledge by means of lectures or otherwise; and in preparing and printing, for free distribution, the results of such investigations and experiments, and such other information as may be deemed desirable and profitable in promoting the horticultural interests of the state. Such experts may be removed by such experiment station, in its discretion, and may be paid for their services such sum as it may deem reasonable and proper, and as shall be approved by the commissioner of agriculture. All of such work by such experiment station and by such experts shall be under the general supervision and direction of the commissioner of agriculture.

§ 2. The treasurer of this state shall keep the account of all moneys hereafter received by him in pursuance of such act of congress, in a separate fund, to the credit of the Cornell university and the agricultural experiment station at Geneva, in the proportion stated in section one of this act, and shall pay all such moneys immediately upon the receipt thereof by him to the officers respectively designated therein to receive the same, upon the warrant of the comptroller, issued upon the order of the

trustees of Cornell university and the board of control of the agricultural experiment station at Geneva, in pursuance of said act of congress, which said moneys are hereby appropriated for the purposes herein stated.

§ 3. The sum of eight thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any money in the treasury not otherwise appropriated, to be paid to the New York state agricultural experiment station, at Geneva, for the purpose of agricultural experiments, investigations, instruction and information, in the second judicial department, pursuant to section eighty-five of the agricultural law, and the sum of eight thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the treasury, not otherwise appropriated, to be paid to the agricultural experiment station at Cornell university, for the purpose of horticultural experiments, investigations, instruction and information, in the fifth judicial department, pursuant to section eighty-seven of the agricultural law. Such money shall be paid by the treasurer upon the warrant of the comptroller, upon vouchers approved by the commissioner of agriculture. (*As amended by chapter 675 of the Laws of 1894.*)

*LAWS REPEALED.

LAWS OF	Chapter.	Sections.
1887.....	479.....	6.
1891.....	354.....	All.

§ 88. Receipts and apportionment of moneys for the promotion of agriculture.—Of all the moneys already appropriated, or hereafter appropriated, for the promotion of agriculture in any one year, and all the revenues which have been, or shall be received

* These laws were repealed by chapter 675 of the Laws of 1894.

by the comptroller, and all the moneys received by him from the tax collected from racing associations pursuant to chapter one hundred and ninety-seven of the laws of eighteen hundred and ninety-four, and chapter five hundred and seventy of the laws of eighteen hundred and ninety-five, and all acts amendatory thereto, or hereafter otherwise collected from racing associations, corporations, or clubs, shall constitute a fund, which shall be annually disbursed on behalf of the state for improving the breed of cattle, sheep and horses at the various fairs throughout the state, and shall be apportioned and distributed as hereinafter prescribed, among all the various county agricultural societies, the American institute of the city of New York, and among the other various towns or other agricultural societies, or agricultural fair associations, or agricultural expositions, or agricultural clubs which have received moneys from the state during either one of the three years, nineteen hundred, nineteen hundred and one, or nineteen hundred and two under and by virtue of sections eighty-eight, or eighty-nine of the agricultural law as it then existed. Such apportionment and distribution shall be made by the commissioner of agriculture in the following manner. Of such moneys already appropriated, or hereafter appropriated, there shall be apportioned and distributed to such county agricultural societies, American institute of the city of New York, and such various town or other agricultural societies, or agricultural club, or agricultural fair associations, or agricultural expositions, hereinbefore mentioned in proportion to the actual premiums paid during the previous year by such agricultural societies, agricultural fair associations, agricultural expositions, agricultural club, and the American institute of the city of New York, exclusive of the premiums paid for trials and tests of speed, skill and endurance of man or beast. No such American institute of the city of New York, or such county agricultural society, or such town or other agricultural society, or such agricultural fair association, or such agricultural exposition, or such agricultural club shall receive any more moneys under the provisions of this act, in any one year,

than it actually paid out in premiums the next preceding year, exclusive of the premiums paid for trials, or tests of speed, skill or endurance of man or beast, and in no event shall any such American institute of the city of New York, or such county agricultural society, or such town or other agricultural society, or such agricultural fair association, or such agricultural exposition, or such agricultural club receive under the provisions of this act, in any one year for premiums hereafter to be paid by any society, association, club, or exposition, any sums of money exceeding four thousand dollars. Any such county agricultural society, town or other agricultural society, or agricultural club or fair association, or agricultural exposition, organized under the laws of the state of New York, which shall fail or neglect to hold annual fairs, and file their annual reports as provided by this act, with the commissioner of agriculture, as herein provided, for two consecutive years, shall forfeit all of their chartered rights, including any privileges or moneys they might thereafter otherwise be entitled to under the provisions of this act. All agricultural clubs, societies, agricultural fair associations, agricultural expositions, or the American institute of the city of New York, entitled to receive any portion of the moneys appropriated by the state must hereafter on or before the fifteenth day of December, in each year file a statement, duly verified by the president and treasurer or secretary, showing the amount of premiums paid at the last annual fair, exclusive of premiums paid for trials or tests of speed, skill or endurance of man or beast, which statement together with vouchers for moneys paid as premiums shall be filed in the office of the commissioner of agriculture, otherwise such society, fair association, exposition, club, or the American institute of the city of New York, shall forfeit its right to participate in the distribution of such moneys for premiums paid for such year. No other agricultural society now or hereafter organized which is not entitled to receive moneys under the agricultural law as hereby amended, except a county agricultural society shall be entitled to receive any moneys under the provisions of this act, until it shall have

first filed annual reports in the office of the commissioner of agriculture, as hereinbefore provided, and paid in actual cash premiums for agricultural, mechanical and domestic products at least fifteen hundred dollars a year for three successive years, exclusive of the premiums paid for trials, or tests of speed, skill or endurance of man or beast. When any such other agricultural society has filed such annual reports and paid such premiums for three successive years as herein provided and to the satisfaction of the commissioner of agriculture, then the said commissioner of agriculture may thereafter allow such society to draw moneys under, and by virtue of the provisions of this act. Any agricultural society, agricultural club or agricultural exposition which shall knowingly permit any immoral, lewd, obscene or indecent show or exhibition, use, or knowingly permit the use of any gambling device, device, instrument or contrivance in the operation of which bets are laid or wagers made, wheel of fortune, or the playing or carrying on of any game of chance, upon the grounds used by it for, or during, an annual meeting, fair or exhibition, shall thereupon forfeit its rights to any moneys it would or might be entitled to receive under the provisions of this act; and it shall be the duty of the president and secretary, or treasurer of every agricultural society, agricultural club, or agricultural exposition entitled to receive money under the provisions of this act, to certify, in their annual report to the commissioner of agriculture, executed under oath, on or before the fifteenth day of December, in each year, that at the last annual meeting, fair or exhibition held by or under the direction of such society, club or exposition, it did not knowingly permit any immoral, lewd, obscene or indecent show or exhibition by whatever name known, or use or knowingly permit the use of, any gambling device, device, instrument or contrivance in the operation of which bets were laid, or wagers made, any wheel of fortune, or the playing or carrying on of any game of chance, upon the grounds used by it for, or during such last annual meeting, fair or exhibition, which report shall be filed in the office of commissioner of agriculture. If the president and sec-

retary or treasurer of any agricultural society, agricultural club, or agricultural exposition, entitled to receive moneys under the provisions of this act, shall neglect or refuse to make and file such certificate, such society, club or exposition shall thereupon be deemed to have forfeited all its rights to any moneys it might otherwise be entitled to receive under this act for such year, but this shall not be construed to prohibit horse racing, or tests or trials of skill.

§ 2. Section eighty-eight-a of the agricultural law, as added thereto by chapter five hundred and twenty-one of the laws of nineteen hundred and two, entitled "An act to amend the agricultural law relative to the distribution of moneys to agricultural societies," is hereby repealed.

§ 3. Section eighty-nine of the agricultural law, as inserted by chapter five hundred and eighty-seven of the laws of eighteen hundred and ninety-five, is hereby amended to read as follows:

§ 89. Of all moneys appropriated in the regular appropriation bill during any one year by the legislature for distribution among the agricultural societies by the commissioner of agriculture the said commissioner may distribute to the agricultural societies entitled to partake thereof an amount to each one on or after the first day of October, in the said year, from the moneys due said society not to exceed fifty per centum of the amount of premiums paid by the said society at its annual fair held during said year. Any balance or balances shall be distributed as provided by section eighty-eight of the agricultural law.

§ 4. If any agricultural society or club has received two thousand dollars from the state under section eighty-nine of the agricultural law for premiums paid at their annual fair held in the year nineteen hundred and two, such sum of two thousand dollars shall be deducted from the amount which it would be entitled to receive from the state under the provisions of section eighty-eight of the agricultural law as hereby amended, for premiums paid during the year nineteen hundred and two.

§ 5. This act shall take effect immediately. (*As amended by chapter 142 of the Laws of 1903.*)

§ 90. Annual report to the commissioner of agriculture and state society.—The president and treasurer of any agricultural society which receives any money of the state or acts as the agent of the state in the distribution of money of the state as premiums, shall annually before the fifteenth of December, transmit to the commissioner of agriculture a detailed account of the expenditure or distribution of all such moneys as shall have come into their hands during the preceding year, and of such other moneys as they may have received from voluntary contributions for distribution as premiums, stating to whom, and for what purpose paid, with the vouchers therefor. The presidents of the several county societies and of the American institute shall annually transmit in the month of December, to the executive committee of the New York state agricultural society, all such reports or returns as they are required to demand from applicants, for premiums, together with an abstract of their proceedings during the year which shall be examined by such executive committee, and that they shall condense, arrange and report the same, with a statement of their own proceedings to the legislature on or before the first day of March in each year.

§ 91. (1) No person shall manufacture for sale, keep for sale, or offer or expose for sale, any sugar in imitation or semblance of maple sugar which is not pure maple sugar, nor any syrup in imitation or semblance of maple syrup, which is not pure maple syrup, nor shall any person manufacture, offer or expose for sale any sugar as and for maple sugar which is not pure maple sugar, nor any syrup as and for maple syrup which is not pure maple syrup.

(2) For the purpose of this act the term "maple sugar" shall be deemed to mean sugar made from pure maple sap or pure maple syrup, and the term "maple syrup" shall be deemed to mean syrup made from pure maple sap. (*As amended by chapter 194 of the Laws of 1898.*)

§ 92. No person shall manufacture, sell or expose for sale, any compound or mixture as and for sugar which shall be made up of maple sugar mixed with any other sugar or any other substance without branding or labeling the said sugar with a statement giving the ingredients of which it is made up. No person shall manufacture, sell, expose for sale, or offer for sale any compound or mixture as syrup which shall be made up of maple syrup mixed with any other syrup or ingredient without branding or labeling said syrup with a statement giving the ingredients of which it is made up. This shall not be construed to apply to a syrup or syrups manufactured and sold for medicinal purposes only. (*Added by chapter 194 of the Laws of 1898.*)

*ARTICLE VIII.

- Section 110. State manufacturer and the dealer in original packages to file certificate with commissioner of agriculture.
111. Certificate to be given by commissioner of agriculture to state manufacturer and dealer in original packages.
112. Composition of paris green.
113. Paris green to be analyzed at experiment station.
114. Penalty for violations.

Section 110. State manufacturer and the dealer in original packages to file certificate with commissioner of agriculture.—

* Article VIII was enacted by chapter 113 of the Laws of 1898.

After the passage of this act it shall be the duty of each and every manufacturer of paris green within this state, and of every dealer in original packages of paris green manufactured outside of this state, before the said paris green is offered or exposed for sale or sold within this state, to submit to the commissioner of agriculture a written or printed statement setting forth: first, the brands of paris green to be sold, the number of pounds contained in each package in which it is put upon the market for sale, the name or names of the manufacturers and the place of manufacturing the same; second, the statement shall set forth the amount of arsenic which the said paris green contains, and the statement so furnished shall be considered as constituting a guarantee to the purchaser that every package of such paris green contains not less than the amount of arsenic set forth in the statement.

§ 111. Certificate to be given by the commissioner of agriculture to state manufacturer and dealer in original packages.—Every purchaser of paris green in original packages, which is manufactured outside of this state, who intends to sell or expose the same for sale, and every manufacturer of paris green within this state shall, after filing the statement above provided for, with the commissioner of agriculture, receive from the said commissioner of agriculture a certificate stating that he has complied with the foregoing statement, which certificate shall be furnished without any charge therefor; said certificate when furnished shall authorize the party receiving the same to deal in this state in paris green. Any person who fails to file the statement aforesaid shall not be entitled to such certificate and shall not be entitled to deal in paris green within this state; nothing in this section shall be construed as applying to retail dealers.

§ 112. Composition of paris green or analogous products.—Paris green, or any product analogous to it, when sold, offered or exposed for sale, as such, in this state, shall contain at least fifty per centum of arsenious oxide.

§ 113. Paris green to be analyzed at experiment station.—The director of the New York state agricultural experiment station, at Geneva, shall, under the direction of the commissioner of agriculture, examine, or cause to be examined, the different brands of paris green, sold, offered or exposed for sale, within the state, and cause samples of the same to be analyzed, and shall report the result of the analysis forthwith to the commissioner of agriculture.

§ 114. Penalty for violations.—Any person or persons, firm, association, company or corporation violating any of the provisions of this act, shall be guilty of a misdemeanor, and shall be fined not less than fifty dollars nor more than two hundred dollars; and in addition thereto shall forfeit and pay unto the people of the state of New York the sum of one hundred dollars, together with the costs of the suit in an action caused to be brought by the commissioner of agriculture in the name of the people of the state of New York, as provided by section eight of the agricultural law.

*ARTICLE IX.

SALE AND ANALYSIS OF CONCENTRATED COMMERCIAL FEEDING STUFFS.

Section 120. Term “concentrated commercial feeding stuffs” defined.

121. Statements to be attached to packages; contents; analysis.

122. Statements to be filed with the commissioner of agriculture; to be accompanied by sample.

123. License fee.

124. Commissioner of agriculture to take samples for analysis. Analysis to be made by director of experiment station.

125. Repealed.

126. Sale of adulterated meal or ground grains; penalty.

127. Repealed.

Section 120. Term “concentrated commercial feeding stuffs” defined.—The term “concentrated commercial feeding stuffs” as used in this article, shall include linseed meals, cottonseed meals, pea meals, bean meals, peanut meals, cocoanut meals, gluten meals, gluten feeds, maize feeds, starch feeds, sugar feeds, dried distiller’s grains, dried brewer’s grains, malt sprouts, hominy

* Article IX was enacted by chapter 510 of the Laws of 1899. This article was amended by chapter 558 of the Laws of 1904.

feeds, cerealine feeds, rice meals, dried beet refuse, oat feeds, corn and oat chops, ground beef or fish scraps, meat and bone meals, mixed feeds, clover meals, condimental stock and poultry foods patented, proprietary or trade-marked stock and poultry foods, and all other materials of similar nature; but shall not include hays and straws, the whole seeds nor the unmixed meals made directly from the entire grains of wheat, rye, barley, oats, Indian corn, buckwheat and broom corn. Neither shall it include wheat, rye and buckwheat brans or middlings, not mixed with other substances, but sold separately, as distinct articles of commerce, nor pure grains ground together, nor wheat bran and middlings mixed together not mixed with any other substances and known in the trade as "mixed feed."

§ 121. Statements to be attached to packages; contents; analysis.—No manufacturer, firm, association, corporation or person shall sell, offer or expose for sale or for distribution in this state any concentrated commercial feeding stuff used for feeding live stock, unless each car or other amount shipped in bulk shall have affixed to it or be accompanied by a plainly printed statement clearly and truly certifying the name or trade-mark under which the article is sold, the name of the manufacturer, the place of manufacture, the shipper and the place of business and a statement of the constituents of such concentrated feeding stuff as shown by a chemical analysis. Such statement to show the percentage it contains of crude protein and of crude fat. If such concentrated feeding stuff is in packages such statement shall be affixed to the package, and shall also state the number of pounds in such package. Whenever any feeding stuff is sold at retail in bulk or in packages belonging to the purchaser, the agent or dealer, upon request of the purchaser, shall furnish to him the certified statement named in this section.

§ 122. Statements to be filed with commissioner of agriculture; to be accompanied by sample.—Before any manufacturer, company or person shall sell, offer or expose for sale in this state

any concentrated commercial feeding stuffs, he or they shall for each and every feeding stuff bearing a distinguishing name or trade-mark, file annually during the month of December with the commissioner of agriculture a certified copy of the statement specified in the preceding section, said certified copy to be accompanied, when the said commissioner shall so request, by a sealed glass jar or bottle containing at least one pound of the feeding stuff to be sold or offered for sale, and the company or person furnishing said sample shall thereupon make affidavit that said sample corresponds to the feeding stuff which it represents, in the percentage of protein and fat which it contains.

§ 123. License fee.—Every manufacturer, importer, agent or seller of any concentrated commercial feeding stuffs, shall pay annually during the month of December to the treasurer of the state of New York a license fee of twenty-five dollars for each and every brand sold or offered for sale. Whenever a manufacturer, importer, agent or seller of concentrated commercial feeding stuffs desires at any time to sell such material and has not paid the license fee therefor in the preceding month of December, as required by this section, he shall pay the license fee prescribed herein before making any such sale. Said treasurer shall in each case at once certify to the commissioner of agriculture the payment of such license fee. Each manufacturer, importer or person who has complied with the provisions of this article shall be entitled to receive a certificate from the commissioner of agriculture setting forth said facts. The treasurer of the state of New York shall pay from the amount of such license fees, when duly appropriated, the moneys required for the expense incurred in enforcing the provisions of this article. Whenever the manufacturer, importer or shipper of concentrated commercial feeding stuffs shall have filed the statement required by section one hundred and twenty-one of this article and paid the license fee as prescribed in this section, no agent or seller of such manufacturer, importer or shipper shall be required to file such statement or pay such fee.

§ 124. Commissioner of agriculture to take samples for analysis. Analysis to be made by director of experiment station.—The commissioner of agriculture shall at least once in each year transmit to the New York agricultural experiment station for analysis at least one sample to be taken in the manner hereinafter prescribed, of the different concentrated commercial feeding stuffs sold or offered for sale under the provisions of this article. The said commissioner of agriculture or his duly authorized representative in taking samples shall take them in duplicate in the presence of at least one witness, and in the presence of such witness shall seal such samples and shall at the time of taking tender, and if accepted, deliver to the person apparently in charge one of such samples, the other sample the commissioner of agriculture shall cause to be analyzed. The director of said experiment station shall continue to analyze or cause to be analyzed such samples of concentrated commercial feeding stuffs taken under the provisions of this article as shall be submitted to him for that purpose by the commissioner of agriculture and shall report such analyses to the commissioner of agriculture and for this purpose the New York agricultural experiment station may continue to employ chemists and incur such expenses as may be necessary to comply with the requirements of this article. The result of the analysis of the sample or samples so procured, together with such additional information as circumstances advise, shall be published in reports or bulletins from time to time.

§ 125. Repealed.

§ 126. Sale of adulterated meal or ground grains.—No person shall adulterate any kind of meal or ground grain or other cattle food with milling or manufacturing offals, or any substance whatever, for the purpose of sale, unless the true composition, mixture or adulteration thereof is plainly marked or indicated upon the package containing the same or in which it is offered for sale; no person shall knowingly sell or offer for sale any meal or ground

grain or other cattle food which has been so adulterated unless the true composition, mixture or adulteration is plainly marked or indicated upon the package containing the same, or in which it is offered for sale, but there shall be no prosecution for violation of this article in relation to the quality of any concentrated commercial feeding stuff if the same shall be found substantially equivalent to the certified statement named in section one hundred and twenty-two of this article.

§ 127. Repealed.

*ARTICLE X.

STATE FAIR.

Section 140. Property in town of Geddes, Onondaga county, New York.

141. State fair commission.

142. State fair.

143. Superintendent of state fair; assistants and employes.

144. Receipts and disbursements.

145. Expenses of commission.

146. State and local agricultural fairs not to be held at same time.

Premiums for county or town agricultural association exhibits.

Section 140. Property in town of Geddes, Onondaga county.—The conveyance to the state by the New York state agricultural society of its property in the town of Geddes, Onondaga county, New York, by deed dated July twenty-eight, eighteen hundred and ninety-nine, and recorded in the office of the comptroller, is hereby accepted, ratified and confirmed. Such property, and any other property hereafter acquired by the state for state fair purposes shall be under the management and control of the state fair commission as hereinafter provided, and it may, from time to time, make rules and provide for the care, preservation and improvement thereof.

§ 141. State fair commission.—The state fair commission shall consist of eleven members, of whom the lieutenant governor and the commissioner of agriculture shall ex officio constitute two. The remaining nine members of such commission shall be appointed by the governor, one of whom shall be a member of the

*Article X was enacted by chapter 346 of the Laws of 1900.

New York state grange, one a member of the New York state association of county agricultural societies, and one a member of the Union association of agricultural societies. Of the nine members first appointed hereunder, three shall hold for a term of one year, three for a term of two years and three for a term of three years. Their successors shall each be appointed for a term of three years. In case of a vacancy in the office of the members appointed from the societies or associations above mentioned, their successors shall be appointed from the same societies or associations.

§ 142. State fair.—It shall be the duty of the said commission to hold a state fair at such times as it may deem proper, except that said state fair shall not be held on the first Monday in September, known as labor day, and between January first and February fifteenth in each calendar year to publish the time of holding such fair in such year. It shall not be lawful for any corporation, association or individual to hold or conduct any trotting or pacing race or races during the week in which the state fair is held, except upon half-mile tracks, and except at the fairs held by agricultural societies which have received moneys from the state, and no corporation, association or individual holding such races during said week shall be entitled to any of the benefits conferred by chapter five hundred and seventy of the laws of eighteen hundred and ninety-five, and any acts amendatory thereof, or by any general or special law. Such commission may make, alter, suspend or repeal needed rules relating to such fair, including the times and duration thereof, the terms and conditions of entries and admissions, exhibits, sale of privileges, payments of premiums, and any other matters which it may deem proper in connection with such fair. It shall furnish to each person who, on the seventeenth day of January, nineteen hundred, was a life member of the state agricultural society, a free admission to the fair ground during the fair of each year during the life of such member.

§ 2. This act shall take effect January first, nineteen hundred and five. (*As amended by chapter 447 of the Laws of 1904.*)

§ 143. Superintendent of state fairs; assistants and employes.—The state fair commission may appoint a superintendent of the state fair and such other assistants and employes as they may deem necessary. It may prescribe their duties and fix their compensation. Such superintendent, assistants and employes shall be subject to removal at the pleasure of such commission.

§ 144. Receipts and disbursements.—The commission shall receive all moneys payable to the state on account of said fair, and make all disbursements therefrom and also from any appropriation made for that purpose by the legislature as may be needed, from time to time, in carrying on the work of the commission. At the close of each fair, the commission shall pay to the state treasurer any balance remaining in its hands received in connection with the state fair, and at the same time deliver to the comptroller an itemized verified report showing all receipts and disbursements for state fair purposes since the last report.

§ 145. Expenses of commission.—The commission shall receive no compensation for their services, but shall be entitled to receive the actual and necessary expenses incurred by them in the performance of their duties, to be paid on the certificate of the commissioner of agriculture and the audit and warrant of the comptroller.

(Section 146 was repealed by chapter 31 of the Laws of 1902.)

*ARTICLE XI.

§ 164. Prohibition as to adulteration or misbranded food.—No person or persons, firm, association or corporation shall within this state, manufacture, produce, sell, offer or expose for sale any article of food which is adulterated or misbranded within the meaning of this act. The term food as used herein shall include all articles used for food, confectionery or condiments by man whether simple, mixed or compound.

*Article XI was enacted by chapter 524 of the Laws of 1903.

§ 165. Definition of adulterated or misbranded food.—In the case of confectionery, an article shall be deemed to be adulterated if it contain terra alba, barytes, talc, chrome yellow, or other mineral substances or poisonous colors or flavors, or other ingredients deleterious or detrimental to health. In the case of food an article shall be deemed to be adulterated:

First. If any substance or substances has or have been mixed or packed with it so as to reduce or lower or injuriously affect its quality or strength, so that such product, when offered for sale, shall deceive or tend to deceive the purchaser.

Second. If any substance or substances has or have been substituted wholly or in part for the article, so that the product, when sold or offered for sale, shall deceive or tend to deceive the purchaser.

Third. If any valuable constituent of the article has been wholly or in part abstracted, so that the product, when sold or offered for sale, shall deceive or tend to deceive the purchaser.

Fourth. If it contains any added poisonous ingredient or any ingredient which may render such article injurious to the health of the person consuming it.

Fifth. If it consists in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance, or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

Sixth. If it contains methyl or wood alcohol, in any of its forms, or any methylated preparation made from it.

An article of food shall be deemed to be misbranded:

First. If it be an imitation of or offered for sale under the distinctive name of another article.

Second. If it be mixed, colored, powdered, or stained in a manner whereby damage or inferiority is concealed, so that such product, when sold or offered for sale, shall deceive or tend to deceive the purchaser.

Third. If the package containing it or its label shall bear any statement regarding the ingredients or the substances contained therein, which statement shall be false or misleading in any particular, or if the same is falsely branded as to the state or terri-

tory in which it is manufactured or produced: Provided, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

First. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not included in definition first of misbranded articles of food in this section.

Second. In the case of articles labeled, branded, or tagged so as to plainly indicate that they are mixtures, compounds, combinations, imitations, or blends: Provided, that the same shall be labeled, branded, or tagged so as to show the character and constituents thereof: and provided further, that nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or imitation.

§ 2. This act shall take effect September first, nineteen hundred and five. (*As amended by chapter 100 of the Laws of 1905, passed March 24, 1905.*)

*ARTICLE XII.

SALE AND ANALYSIS OF COMMERCIAL FERTILIZERS.

Section 175. Statements to be attached to packages of fertilizers.

176. Variation in composition constituting violation of article.

177. Statement filed with commissioner of agriculture; license fees.

178. Presence of inert nitrogenous matter to be stated.

179. Enforcement of provisions of article; selection and analysis of samples.

Section 175. Statement to be attached to packages of fertilizers.—No person, firm, association or corporation shall sell, offer or expose for sale any commercial fertilizers or any material to be used as a fertilizer, the selling price of which exceeds five dollars per ton, unless such fertilizer or material shall be accompanied by or shall have affixed to each and every package in

*Article XII was enacted by chapter 567 of the Laws of 1904.

a conspicuous place on the outside thereof, a plainly printed statement which shall certify as follows:

1. The number of net pounds of fertilizer in the package sold or offered for sale.

2. The name, brand or trademark under which the fertilizer is sold.

3. The name and address of the manufacturer of the fertilizer

4. The chemical composition of the fertilizer expressed in the following terms:

(a) Per centum of nitrogen.

(b) Per centum of available phosphoric acid, or in case of undissolved bone the per centum of total phosphoric acid.

(c) Per centum of potash soluble in distilled water.

If any such fertilizer be sold, offered or exposed for sale in bulk such printed statement shall accompany every lot and parcel so sold, offered or exposed for sale.

§ 176. Variation in composition constituting violation of article.—It shall be a violation of the provisions of this article if the statement required by section one hundred and seventy-five of this article shall be false in regard to the number of net pounds of fertilizer in the package sold, offered or exposed for sale, or in the name, brand or trademark under which the fertilizer is sold, or in the name and address of the manufacturer of the fertilizer. It shall also be a violation of the provisions of this article if any commercial fertilizer or material to be used as a fertilizer shall contain a smaller percentage of nitrogen, phosphoric acid or potash than is certified in said statement to be contained therein, when such deficiency shall be greater than one-third of one per centum of nitrogen, or one-half of one per centum of available phosphoric acid or one per centum of total phosphoric acid in the case of undissolved bone or one-half of one per centum of potash soluble in distilled water.

§ 177. Statement filed with commissioner of agriculture; license fees.—Before any commercial fertilizer or any material to be used as a fertilizer is sold, offered or exposed for sale in this state, the manufacturer, importer or person who causes the same to be sold, offered or exposed for sale shall file with the

commissioner of agriculture a certified copy of the statement prescribed in section one hundred and seventy-five of this article and, in addition, such statement shall be filed thereafter annually during the month of December. Each manufacturer, importer or person, before selling, offering or exposing for sale in this state any brand of commercial fertilizer, shall annually during the month of December, pay to the treasurer of the state of New York a license fee of twenty dollars for each and every brand of fertilizer, bearing a distinctive name, brand or trademark, which said manufacturer, importer or person is to sell, offer or expose for sale in this state during the calendar year next succeeding said payment, provided, always that the placing of any new brand upon the market at any time during said calendar year shall be preceded by such payment. Said treasurer shall in each case at once certify to the commissioner of agriculture the payment of such license fee. Each manufacturer, importer or person who has complied with the provisions of this article relative to filing the aforesaid certified statement and to the payment of the aforesaid license fee shall be entitled to receive a certificate from the commissioner of agriculture setting forth said facts. All money received from license fees, as aforesaid, when so appropriated shall be used, or so much thereof as may be necessary, in maintaining the expenses of enforcing the provisions of this article.

§ 178. Presence of inert nitrogenous matter to be stated.—No person shall sell, offer or expose for sale in this state leather or its products or other inert nitrogenous material in any form, as a fertilizer or as an ingredient of any fertilizer, unless an explicit statement of the facts shall be conspicuously affixed to every package of such fertilizer, and shall accompany every parcel or lot of the same.

§ 179. Enforcement of provisions of article; selection and analysis of samples.—The commissioner of agriculture may for the purpose of enforcement of this article employ such experts and agents as may be necessary. He shall from time to time and at least once in each year collect or cause to be collected samples of commercial fertilizers sold, offered or exposed for

sale within this state. In taking samples of such fertilizers for the purpose of analysis he shall take them or cause them to be taken in duplicate and at the time of such taking he shall tender, and if accepted, shall deliver to the person apparently in charge one of said duplicate samples, the other he shall cause to be analyzed. The result of the analysis of samples so taken shall be published in bulletins from time to time and at least once in each year. The director of the New York agricultural experiment station at Geneva, shall analyze or cause to be analyzed such samples of such fertilizers so taken which may be submitted to him for that purpose by the commissioner of agriculture, and shall report such analysis to the said commissioner as soon as completed. For this purpose the New York agricultural experiment station may continue to employ chemists and incur such expenses as may be necessary to comply with the requirements of this article.

§ 2. All acts or parts of acts inconsistent with this act are hereby repealed.

CHAPTER 391.

AN ACT to amend the agricultural law, prohibiting the sale of adulterated evaporated apples.

Became a law, April 26, 1904, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Two new sections are hereby added to the agricultural law to be known as article thirteen and to read as follows:

Article 13, § 185. No person shall sell, expose or offer for sale as and for evaporated apples any evaporated apples intended to be used for food, or for consumption by any person, other than standard evaporated apples.

§ 186. Evaporated apples containing not more than twenty-seven per centum of water or fluids as determined by drying for four hours at the temperature of boiling water shall be considered standard evaporated apples for the purposes of this act.

§ 2. This act shall take effect immediately.

ARTICLE XIV.*AGRICULTURAL STATISTICS.**

Section 190. Collection and dissemination of statistics.

191. Information to be furnished by supervisors.

Section 190. Collection and dissemination of statistics.—The commissioner of agriculture may collect and disseminate such information relative to agriculture, and agricultural labor within the state, as he may deem wise for the purpose of promoting agricultural production within this state.

§ 191. Information to be furnished by supervisors.—Supervisors of the different towns and wards in this state shall furnish to the commissioner of agriculture upon request from him, upon blanks to be furnished by the said commissioner, such information as may be in their possession or may be obtained by them relative to agriculture, agricultural production and agricultural labor within their respective towns or wards. Such information to be furnished to said commissioner within thirty days from the time it is asked for. The expense incurred by the several supervisors in furnishing such information shall be a town charge to be paid in the manner now provided by law for the payment of services and disbursements by such supervisor.

§ 2. This act shall take effect immediately.

†ARTICLE XV.**TURPENTINE, LINSEED OIL, ET CETERA.**

Section 200. Adulteration and sale; package to be marked.

201. Violation a misdemeanor; fine.

202. Powers and duties of commissioner of agriculture.

203. Penalty; action to recover; injunction.

Section 200. Adulteration and sale; package to be marked.—No person, firm or corporation shall manufacture, mix for sale, sell or offer for sale under the name of spirits of turpentine, any article which is not wholly distilled from rosin, turpentine gum, or scrape from pine trees, and unmixed and unadulterated with oil, benzine or any other substance of any kind whatever,

*Article XIV was enacted by chapter 243 of the Laws of 1905, passed April 20, 1905.

†Article XV was enacted by chapter 584 of the Laws of 1906, passed May 23, 1906.

unless the package containing same shall be stenciled or marked, with letters not less than two inches high, adulterated spirits of turpentine. No person, firm or corporation shall manufacture or mix for sale; sell, or offer for sale, under the name of raw linseed oil, any article which is not wholly the product of commercially pure linseed or flaxseed. Nor shall any person, firm or corporation manufacture or mix for sale, sell, or offer for sale, under the name of boiled linseed oil, any article, unless the oil from which said article is made be wholly the product of commercially pure linseed or flaxseed, and unless the same has been heated to at least two hundred and twenty-five degrees Fahrenheit. No person shall sell such adulterated linseed or flaxseed oil, or spirits of turpentine, without notifying the purchaser that same is adulterated. Nothing herein contained shall be construed as prohibiting the manufacture or sale of any such compound or imitation providing the container shall be plainly marked, and the purchaser notified, as aforesaid.

§ 201. Violation a misdemeanor; fine.—Violation of any of the provisions of this act shall be a misdemeanor, punishable by a fine of not less than fifty dollars or more than five hundred dollars or by imprisonment for not more than one year, or by both such fine and imprisonment.

§ 202. Powers and duties of commissioner of agriculture.—It shall be the duty of the commissioner of agriculture to enforce the provisions of this act. The said commissioner and his assistants, experts and chemists, and official agents appointed by him, shall have access, ingress and egress to and from all places of business and buildings where turpentine or linseed or flaxseed oil is kept for sale or stored. They shall have power and authority to open any tank, barrel, can or other vessel containing or supposed to contain turpentine or linseed or flaxseed oil and inspect the contents thereof, and take samples therefrom for analysis.

§ 203. Penalty; action to recover; injunction.—Any person, firm or corporation who shall violate any of the provisions of this act shall, in addition to the fine or imprisonment previously described, for each offense forfeit and pay a fixed penalty of

one hundred dollars. Such penalty shall be recovered, with costs, in any court of the state having jurisdiction thereof, in an action to be prosecuted in the name of the people, by the commissioner of agriculture; and of the recovery, less the costs and attorney's fees, one-half shall be devoted to the payment of the expenses of the department of agriculture and one-half paid to the assistant or agent of the department discovering and proving the violation. Where an action is commenced in the supreme court for the recovery of such penalties, an application may be made on the part of the plaintiff to said court or any justice thereof for an injunction to restrain the defendant, his agents, servants and employees from further violation of this act during the pendency of the action, and it shall be the duty of such court or justice to grant the injunction, in the same manner as injunctions are usually granted under the rules and practice of such court, upon proof by affidavit that the defendant has been guilty of such violation either before or after the commencement of the action.

§ 2. Chapter four hundred and twelve of the laws of eighteen hundred and ninety-eight is hereby repealed.

§ 3. This act shall take effect immediately.

CODE OF CRIMINAL PROCEDURE.

§ 56. Jurisdiction of courts.—Subject to the power of removal provided for in this chapter, courts of special sessions, except in the city and county of New York and the city of Albany, have in the first instance exclusive jurisdiction to hear and determine charges of misdemeanors committed within their respective counties as follows:

* * * * *

35. All violations of the provisions of the agricultural law.

* * * * *

(As amended by chapter 570 of the Laws of 1893.)

PENAL CODE.

§ 408a. Violations of the agricultural law.—Any person who disregards, disobeys or violates any proclamation, notice, order or regulation, lawfully issued or prescribed by the commissioner of agriculture, for the suppression or prevention of the spread of infectious or contagious diseases among domestic animals, or who violates any of the provisions of sections eighty and eighty-two of article five of the agricultural law, is guilty of a misdemeanor. (*As amended by chapter 554 of the Laws of 1897.*)

CODE OF CIVIL PROCEDURE.

Subdivision 3 of section 3228 of the Code of Civil Procedure.

3. An action specified in subdivision first, third, fourth or fifth of section twenty-eight hundred and sixty-three of this act. But if, in an action to recover damages for an assault, battery, false imprisonment, libel, slander, criminal conversation, seduction, or malicious prosecution; or a fine or penalty in which the people of the state are a party, the plaintiff recovers less than fifty dollars damages, the amount of his cost can not exceed the damages.

§ 2. This act shall take effect September first, eighteen hundred and ninety-eight. (*As amended by chapter 110 of the Laws of 1898.*)

CHAPTER 821.

AN ACT to amend the executive law, relating to the duties and powers of the attorney-general.

Became a law May 29, 1895, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivisions one and two of section fifty-two of the executive law, is hereby amended to read as follows:

1. Prosecute and defend all actions and proceedings in which the State is interested, and have charge and control of all the legal business of the departments and bureaus of the State, or

of any office thereof which requires the services of attorney or counsel, in order to protect the interests of the State, but this section shall not apply to any of the military department bureaus or military offices of the State.

2. Whenever required by the governor, attend in person, or by one of his deputies, a court of oyer and terminer or appear before the grand jury thereof for the purpose of managing and conducting in such court or before such jury such criminal actions or proceedings as shall be specified in such requirement; in which case the attorney-general or his deputy so attending shall exercise all the powers and perform all the duties in respect of such actions or proceedings, which the district attorney would otherwise be authorized or required to exercise or perform; and in any of such actions or proceedings the district attorney shall only exercise such powers and perform such duties as are required of him by the attorney-general or the deputy attorney-general so attending.

§ 2. Section 55 of said executive law is hereby amended to read as follows:

§ 55. Additional counsel.—The governor, or attorney-general may designate and employ such additional attorneys or counsel as may be necessary to assist in the transaction of any of the legal business mentioned in section fifty-two of this act and such attorneys or counsel shall be paid from the treasury a reasonable fee upon the certificate of the governor and attorney-general, the amount thereof to be audited and allowed by them or may be paid by the attorney-general out of the costs recovered by him.

§ 3. This act shall take effect immediately.

BULLETIN.

REPORT OF ANALYSES OF SAMPLES OF FERTILIZERS COLLECTED BY THE COMMISSIONER OF AGRICULTURE DURING 1906.

There are presented in this bulletin the analyses of samples of fertilizers collected by the Commissioner of Agriculture during 1906 and transmitted by him for analysis to the Director of the New York Agricultural Experiment Station, in accordance with the provisions of Article XII of the Agricultural Law. These analyses are published by the Director of the New York Agricultural Experiment Station in accordance with the provisions of Chapter 570, Laws of 1904.

ANALYSES OF COMMERCIAL FERTILIZERS COLLECTED

BULLETIN No. 280.

INSPECTION OF FEEDING STUFFS.

In this bulletin will be found the results of the analyses of samples of feeding stuffs collected by the Commissioner of Agriculture during the fall of 1905 and winter of 1905-6, and by him transmitted for analysis to the Director of the New York Agricultural Experiment Station, in accordance with the provisions of Article IX of the Agricultural Law. These analyses are published by the Director of the New York Agricultural Experiment Station in accordance with the provisions of Chapter 558, Laws of 1904.

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE

BULLETIN NO. 2.—BUREAU OF INFORMATION AND STATISTICS.

New York State Farms.

In issuing Bulletin No. 2 of the Bureau of Information and Statistics, Department of Agriculture, authorized by chapter 243, Laws of 1905, attention is called to the fact that New York State ranks among the foremost states of the Union for the volume, value and variety of its agricultural products. Its broad valleys, rolling uplands and extensive plains are famous the world over for their fertility. Its diversity of soil permits the greatest range in variety of products. The State is noted for the unsurpassed beauty of its mountains, forests, and of its lakes, rivers and springs of pure water. It is acknowledged to be one of the most healthful sections of the United States. Great cities, flourishing villages and manufacturing centers are scattered thickly throughout the State, joined by a perfect network of railroads, trolley lines and good roads. These afford unsurpassed facilities for communication, bringing ready markets to the very door of the producer. These lines of communication, with the system of Rural Free Delivery and telephone lines, has practically banished isolation of the farm and has put the agriculturist in better and closer touch with the affairs of the State and Nation than was enjoyed by the inhabitant of large villages a quarter of a century ago.

The conditions of farm life have undergone as great a change for the better as that which has taken place in all other lines of industry. Modern machinery and implements of every kind have reached a degree of perfection that enables the farmer to multiply his individual power and accomplish larger results at less cost and hard labor than ever before. The extent to which this is true is seen from the figures given in the last census. It shows a total potential saving in the United States of the cost of the production of the seven crops most abundantly grown in New York State, viz.: corn, wheat, oats, rye, barley, white potatoes

and hay, through the possible utilization of the implements, machines and methods of the present time, in place of the old-time manner of production of six hundred eighty-one million four hundred seventy-one thousand eight hundred and twenty-seven dollars (\$681,471,827) for the single year of 1899.

The United States Census of 1900 gives the following facts:

New York has an area of forty-seven thousand six hundred and twenty (47,620) square miles, or thirty million four hundred seventy-six thousand eight hundred (30,476,800) acres, of which twenty-two million six hundred forty-eight thousand one hundred and nine (22,648,109) acres are included in farms, numbering two hundred twenty-six thousand seven hundred and twenty (226,720), with a total valuation, including buildings, fences and improvements, of one billion sixty-nine million seven hundred twenty-three thousand eight hundred and ninety-five dollars (\$1,069,723,895).

The value of farm products of the State for the year 1899 was two hundred forty-five million two hundred seventy thousand six hundred dollars (\$245,270,600). Dairy products, viz., milk, butter and cheese, amounted to fifty-five million four hundred seventy-four thousand one hundred and fifty-five dollars (\$55,470,155), and that of poultry and eggs of fourteen million seven hundred ninety-one thousand four hundred and ninety-one dollars (\$14,791,491), while the bees added three million four hundred twenty-two thousand four hundred and ninety-seven (3,422,497) pounds of honey to their owners' income.

Orchard fruits for 1899 had a valuation of ten million five hundred forty-two thousand two hundred and seventy-two dollars (\$10,542,272); hay and forage of fifty-five million two hundred thirty-seven thousand four hundred and forty-six dollars (\$55,237,446); cereals, viz., barley, buckwheat, corn, oats, rye, wheat, gave a yield of eighty million four hundred thirteen thousand seven hundred and ten (80,413,710) bushels, while that of potatoes alone was about half as much, or forty million (40,000,000) bushels. The value of small fruits was two million five hundred thirty-eight thousand two hundred and sixty dollars (\$2,538,260).

The tobacco crop amounted to thirteen million nine hundred fifty-eight thousand three hundred and seventy (13,958,370) pounds, while

ops, flowers and ornamental plants, sugar beets, vegetables and nursery stock each held a strong and lucrative place in the production of the State.

New York State needs farmers and farm laborers. The advantages she offers are probably unexcelled by any other section of the country to-day. Good farms can be purchased for from \$10 to \$30 per acre, with a very small first payment in cash and a balance on long time with low rates of interest. These low prices will not be maintained for a very long time. The large number of inquiries for New York State lands which are coming from all sections of the country indicate unmistakably that a large number of people are availing themselves of the advantages which have been afforded by the peculiar conditions that have brought about these low prices, and that within near future these lands, now so easily obtained, will be very materially advanced in prices.

These conditions have been brought about by the great expansion of business during the last decade—mercantile, manufacturing, transportation and internal improvements—State, national and municipal which have in a large measure drawn the young men and women from farms, while many of the Western States, Canada, railway and land companies have advertised throughout the world free or cheap farms and organized effort, with the assistance of steamships and railway companies, have turned westward alien and native alike who would naturally have come to the agricultural sections of New York. Thus there has been a depletion of the agricultural population of the State, and a stream of immigration has passed through and beyond our borders while the really superior advantages afforded by our State in low-priced productive farm homes all ready for occupancy, with markets at every door, and swift and easy transportation by railroad, trolley and good roads have been either overlooked, disregarded or un-

When these great enterprises, public and private, that are being completed in our State, are completed, or should a time of industrial depression come upon the country similar to many it has undergone, hardship and privation must ensue unless a large body of these people have been attracted by the alluring prospects of work on these

great enterprises can be induced to go out upon the land and become self-sustaining.

The soil of this State is particularly adapted to grass, and the leading agricultural industry is dairying and stock raising. The prices for milk, butter and cheese are all remunerative. Fruit and vegetables of all kinds command good prices, as also do meats, eggs and poultry. Corn, oats, rye, wheat and buckwheat are the principal cereals raised. Apples in large quantities are raised in all parts of the State; peaches and grapes along the lower Hudson river and through the central and western parts of the State; potatoes, of which forty million (40,000,000) bushels are annually produced in the State, grow everywhere in abundance.

This Department will gladly furnish any information in its possession and be of such assistance as its circumstances permit to those desiring to purchase farms or summer homes and those desiring farms to work on shares, and will assist farmers in securing laborers, and laborers in securing employment.

CHARLES A. WIETING,

Commissioner of Agriculture.

ALBANY, *January,*

1907.

PEACE AND PLENTY.

NEW YORK STATE FARMS.

The information contained in this bulletin is furnished by the supervisors of the towns on blanks provided by the Department of Agriculture pursuant to Chapter 243, Article 14, Sections 190 and 191 of the Agricultural Law of 1905. It is assumed, therefore, that in a large majority of cases the descriptions are fair and the prices conservative. There may be instances in which too large values have been fixed by the owners under a misunderstanding of the purpose of the State in issuing these lists of farms, occupied and unoccupied. The purpose is to gather reliable and authentic information concerning country and village property whose owners for various reasons are desirous of selling, and place the information in the hands of the public, thus bringing buyer and seller in touch with each other. When done, the duty of this department is discharged and its responsibility ended except to give the fullest further information in any case that may be desired. The utmost care has been observed to avoid errors and make the descriptions as clear and full as needed. The results that have come from Bulletin No. 1 have been most satisfactory. A large number of farms, summer homes and country residences have been sold to purchasers who will greatly improve and add materially to their value to the State and community. *Very important that this Department be promptly notified of the sale of any property listed in this bulletin.*

ALBANY COUNTY.

TOWN OF BERNE.

—Farm of 160 acres, 8 miles from Middleburg, 3 miles from Huntersville postoffice. 110 acres meadow and 50 acres timber; adapted for raising, dairying, grain and vegetables. House 30x50, in fair condition. Barn 30x100. Price \$1,000, on mortgage. Wm. Duke, Jr., Wellsville, owner.
